**Art Exhibit At Local Library**

Area artists Alfred Karu (left) of Richmond Hill and Abel Lee of Markham are seen at their art exhibit being held at the Richmond Hill Public Library this week. Viewing the exhibit with the two artists is Mr. Uno Makin (right) of Don Mills. The exhibit will end this Saturday.

(By Toby Shore)

The opening of an art exhibition in the Richmond Hill Public Library was of added interest for "Liberal" readers in that the two artists, Alfred Karu and Abel Lee, are local residents. Mr. Karu, born in Estonia, came to Canada in 1950 and lives at 65 Beaverton South in Richmond Hill. He had studied art in Estonia, Finland and Sweden. Mr. Lee, also born in Estonia, came to Canada in 1951 and now lives at 6 Clemson Cres., Maple. His work has been exhibited in Estonia, Sweden, Canada and the U.S.A. with a one-man show in Sweden and last year in Hart House, University of Toronto.

Mr. Karu and Mr. Lee greeted many friends and guests at the opening and were most appreciative and pleased with the interest shown.

The library lends itself well to such a display and Mrs. Lee and Mrs. Karu were delightful hostesses dispensing coffee and cakes to their visitors.

The exhibit is on display from November 25 to December 8. This Saturday it will be open from 9 a.m. to 6 p.m.

Because of the interest shown at the opening when the artists were on hand to discuss their works with their guests and personally greet so many interested people—they were at the show both Saturday and Sunday. This way visitors to the gallery perhaps got a better understanding and appreciation of their work, as we did, by the artists' explaining how they work, what process they use and where the inspiration for such a picture—or indeed such a colour or drawing—came from.

Alfred Karu is originally a water color painter with a tremendous color sense, painting in any color scale from pastel or "earth colors", up to burning reds and oranges. He enjoys inventing new harmonies and contrasts in his landscapes and city views in modern vision—his leaning is to simplified form and cubism. His colors are indeed his strong point.

Being a graphic artist, Abel Lee expresses himself in a medium called "monotype"—a technique between graphic and painting, basically a print-making process. His main quality is in his drawing with his prime interest being in people and figural compositions. In these you will find most unusual pen drawings.

While belonging to the modern school, both artists are not extremely contemporary. You will find the two different forms of art, most exciting so be sure and visit this exhibit and acquaint yourself with Mr. Karu and Mr. Lee—they are our neighbors and well worth knowing.

**Good Progress Made**

**First Year "Big Success" Report TSA No. 3 Officials**

(By Mrs. J. Leaf)

The newly formed TSA No. 3, in the northwest section of Markham Township is nearing the end of its first year and school board members have reason to be proud of their accomplishments.

Board Chairman Arnold Mortson and members M. Wellman, S. R. Patterson, S. Richardson and W. Hibbard have done a fine job.

Welding the five school sections—3, 4, 5, 6 and 7—into one co-operating unit is a task which has required much patience and dedicated effort. That their effort has been of benefit to the school children in the area is evident from the record.

During the year several measures have been adopted.

(1) An opportunity class has been instituted at No. 4 school, and arrangements have been made to allow the teacher, Mrs. Helfenstein, to make aptitude tests throughout all the area schools.

(2) A new room has been added at No. 4 school, and with pooled funds, carryover of lot fees, and the government grants, there is almost no direct cost to the ratepayer.

(3) A bus service has been arranged. This not only provides safe travel for children, it also allows control of grades so that no teacher has more than four classes.

(4) A travelling library, music instruction and film strips are other benefits offered the pupils.

(5) A salary schedule comparable to the best, adoption of an accumulative sick leave policy for teachers, and PSI benefits for full-time teachers and maintenance staff, assure good relations in this regard.

(6) Emergency measures have been adopted in case of an international situation, and a first aid course has been made available to pupils and teachers. Transistor radios, flashlights and food packages are part of the equipment in each school.

As the board faces 1963, new problems confront them.

In a recent letter, Inspector Maynard Hallman warned that a new population influx is forecast for the near future and stated that plans for new school accommodation must be made. Consideration has already been given to establishment of a senior public school and purchase of a new school site is a possibility.

At a meeting held in Buttonville School Saturday evening of last week the board reviewed the inspector's report for S.S. 6 and 7, and were pleased that at 6 Mrs. Barbara Tindall's teaching was judged "much superior to that ordinarily found in a rural school."

The educational program was marked "excellent, interesting, stimulating." There are 23 children in Grades 2, 3, 4 and 5.

At No. 7 school, considerable time was lost in early autumn due to change of staff, but the inspector reports good progress. There are 48 pupils in two rooms, four grades to a room, and according to Mr. Hallman the board should study the possibility of transferring Grades 7 and 8 to another school in September 1963.

The teachers at No. 7 exchange some classes to good effect the inspector reports.

Physical aspects of schools were rated from 1 to 5, and while water supply, chalkboards and pupils desks were given first quality rating, such items as ventilation, playground and physical education equipment need to be upgraded, as do some areas of lighting.

Toward the conclusion of last Saturday's meeting secretary Harold Hill distributed \$60 cheques to the board members for their year's service.

This represents token payment for the year's meetings.

A total of 29 were held, most being of four hours duration plus all the hours of time and talent expended in getting the baby area on its way.

School board members are a dedicated lot. They have to be. For the most part, their only reward is the taxpayer's criticism. The next time you meet your school board members, shake them by the hand and let them know you appreciate their work on behalf of the community.

**GORMLEY NEWS**  
 CORRESPONDENT: MRS. CHAS. MILSTED  
 Telephone Gormley 5201

Everyone is enjoying our unusually mild weather. It's rather rare to see farmers plowing in December.

Mr. and Mrs. E. L. Gibson and family enjoyed an outside barbecue dinner December 1. Roger Heise of Hamilton, spent the weekend at the Brilling home.

**HUMAN RIGHTS DAY**

ON DECEMBER 10TH, the 14th Anniversary of the Universal Declaration of Human Rights—we can note with some satisfaction, that in the past year our Province has taken another substantial step toward implementing its principles by the enactment of the Ontario Human Rights Code.

By bringing together into a single statute all of the various human rights legislation passed since 1944, by enlarging the scope of the Ontario Human Rights Commission and by appointing a full-time Director with additional staff, we are now in a much better position to proceed with a greatly expanded educational program designed to make the aims of the Code better known and understood by our people.

It is a matter for gratification too, that in the development of its program of education and enlightenment the Commission is receiving the active and wholehearted co-operation of our churches, schools, industry, trade unions, and a wide variety of community organizations. This is surely the best proof that our citizens, individually and collectively, look upon our Human Rights Code as a reflection of the community conscience; that they are prepared to play their full part in applying its principles in their daily relationships, not just because the law requires it, but because truly enlightened social behaviour demands it.

While we deplore and condemn violations of human rights elsewhere in the world and stand aghast before such ugly manifestations as the Berlin Wall, we must never cease to concern ourselves with those walls of prejudice which still exist in our own community—and sometimes in our own minds—and which deny to our fellow citizens that justice and equality of opportunity which is their inalienable right. Justice, like charity, should begin at home.

Let Human Rights Day be, among other things, a time for self examination in order to make certain that we are faithfully adhering to those lofty principles of the Universal Declaration on which the Parliament of Canada and the Legislature of Ontario have placed their seal.
