ten in this paper recently. Duclos Point is still on the south shore of Lake Simcoe - and NOT the west shore as we reported. It might have been alright to shift the location if writing about Mobile, Alabama, or even Wheeling, West Virginia, but Duclos Point is definitely, positively and irrevocably on the SOUTH SHORE!

Stan Hitchinson of Felix Ave., Richmond Hill had a try at fishing at Oro Station accompanied by Bill Laviolette from the Pefferlaw area. Altogether they caught 17 whitefish between 9.00 and 4.00 p.m. and reported a lot more bites. Hut and minnows cost them \$2.00 each and they report that they were the cleanest huts they've yet seen.

The hut operator called around to check on the fuel and minnow situation. By this time the two fisherman had a few white fish lying on the floor of the hut. They were requested by the operator to please put the

Contrary to what was writ- fish in a basket or other container as he liked to keep his huts clean. A few minutes later he returned with water, soap and brush and scrubbed the floor on his hands and knees! These huts are really clean and Mr. Hitchinson reports that he was so impressed that he'll be returning to this particular spot.

The price of \$2.00 per man is very impressive when compared with the higher rates prevailing on the other side of the lake. Definitely the west shore is the place for comfortable, reasonable and fairly successful ice

One couple of very much married people we heard of last weekend had marvellous luck fishing at Pefferlaw Bay. Their haul for the day consisted of two much used tin cans, one slightly battered pair of sunglasses and two aluminium pie plates sans pie! The cans aren' much use but the sun glasses and pie plates still have little mileage left in them For sure it's what could be

We may be somewhat crude and gauche but somehow our four footed friends look a lot better all natural; and a fig to a five gets you a bet that they're a lot healthier and happier in their moral lowering unclothed state than we are. If all you've got to worry about in this world is nudity amongst animals, then buddy you don't have any troubles! At least no troubles that a head shrinker couldn't fix

in fifty or sixty sessions. So here's to naked animals - long may they flaunt their unclothed state and bad cess to those who would have them clothed and spoiled. According to the financial pages the textile industry is on the upswing - could textile manufacturers be behind this dastardly plot? And will Caroline Kennedy dress her pony? For answers to these and other interesting questions read "Mad" magazine - the magazine that all clothed animal lovers believe in!
