HOW TO WRITE A GOOD AD

1. IT'S ALWAYS BEST to start your advertisement with the name of the article or service you have to offer. If you have an apartment or room for rent or property for sale, start your advertisement with the location and city in which it is located.

2. BE CLEAR. Readers respond more quickly and favorably when given complete or definite details. Be sure to include price in ads, whenever possible - it is the consumer's "most wanted" information.

3. MAKE IT EASY for the reader-prospect to reach you. Insert telephone number and your name and address. If you do not have regular hours give a preferred time to have prospects contact you.

4. THE GREATEST READER ATTENTION can be secured for your advertisement by using consecutive insertions. You can stop your ad in the event of results, and then you pay only for the days it is published at the rate

5. PLACE YOURSELF in the reader's position and ask yourself what you would like to know (about your offer). The answer you give will make a good classified Want Ad. 6. WANT ADS THAT FAIL to bring satisfaction do so. not through any lack of readership, but because they are often carelessly worded and do not contain enough information to get prompt action.
