

## Markham Schools Field Day Called "Unqualified Success"

First field day for school children in S.S. No. 3 Markham, was held last Friday at the Victoria Square community centre, and was judged an unqualified success by every one involved. Approximately 500 children and adults from the district attended.

Sponsored by the Victoria Square and District Lions Club in co-operation with the TSA 3 School Board, there were 300 children from S.S. 4, 5, 6 and 7 in the Buttonville, Victoria Square and Gormley schools competing. It is hoped this will be an annual event. In the words of one enthusiastic Lion, "Who knows, we may encourage another Bruce Kidd."

Buttonville School, S.S. 5, won the plaque with 166 points, but competition was close, and S.S. 4 was only six points off with 160.

Buttonville students also won three of the four trophies presented to individual competitors with the highest scores: Barbara Harrison, Sr. Girls' champion (25 points) and Philip Johnson, Junior Boys Champion (25) each won every event in their class; Marilyn Musselman, also of 5, won the Jr. Girls' trophy with 16 points. Senior Boys' champion, John Lake of S.S. 4 took his field with 23 points.

Runners-up were Rachel Farquharson, S.S. 7, 18 points; Jerret Farquharson, S.S. 7 and Glen Stephenson, S.S. 5 tied.

**PICKERING:** Pickering Welfare Administrator Albert Cane resigned from his post June 14 after nearly five years at the job. He said "I am sick and tired of taking the insults, lies and threats about keeping the job, generally making life miserable for department heads." Mr. Cane charged that Deputy Reeve Jean McPherson had directed "a slanderous and vicious attack against me."

for second places in junior boys' events with 18 points. David Searle, S.S. 4 was John Lake's competition, with 16 points, and Shirley Empringham of S.S. 7 ran a close second in junior girls' events with 14 points.

Inspector Maynard Hallman was on hand to offer congratulations, along with T.S.A. No. 3 Board Chairman Arnold Morrison. Awards were presented by Lions' President George Howard Atkinson and William Dodds; Mrs. Wilfred Turner and Mrs. Meyers representing women teachers; Mr. William Williams for the community centre board, and Lions Lawson Mumberson, Frank Williams and board members William Hibbard and Stan Richardson.

The roving cameraman during events was Lion Forrest Duluge.

Credit for the smooth programming of events is due to Principals Howard Atkinson and William Dodds, who received strong support from all staff members. Mrs. Minnie Donaldson, principal of No. 7 school kept the control sheet for scoring, and this was no mean task.

The field was in beautiful condition. The evening before the event found the men at work with every available lawnmower in the community, mowing the grass. Chalk lines were drawn and there were sand pits for jumping. Even the weather co-operated, cool for on-lookers, but just right for competitors.

There was milk, freshies, cookies, ice cream and popcorn supplied free for the children, and a refreshment booth for adults staffed by Lions' wives and women of the community. During the afternoon cartoons and films were run in the community centre auditorium and many mothers and small children rested here.

**NOTICE TO ALL WATER CONSUMERS**

Abnormally heavy water usage over the past few weeks forces your council to consider the imposition of restrictions such as are presently in force in most surrounding municipalities.

Much water is being used wastefully. Although we can regulate its use to specific hours and days by by-law we greatly prefer to effect economic water usage by securing your willing co-operation.

We ask you to limit lawn watering to two days per week as outlined in the below-mentioned by-law. If this satisfactorily replenishes our water storage facilities, we shall have no need to resort to regulation of water use by by-law. If it does not, then the terms of the by-law will have to be strictly enforced without further notice.

Our problem is not one of water supply but of the physical capacity of the treatment plant and transmission equipment to handle abnormal demands during prolonged dry spells.

We have water to spare but not to waste.

F. R. PERKINS,  
Chairman,  
Works Committee.
