

## Mayor Officiates At Opening

Mayor William Neal (second from right) recently cut the ribbon to open the Beneficial Finance Company's local branch at Richmond Heights Centre. On hand for the occasion were Canadian head office executives, E. J. Hendrie, vice-president; R. J. Beatty (far right), Ont. supervisor; (left) Richmond Hill branch manager, D. E. Harrison.

## Markham Twp. Council Briefs

The June report of the building inspector presented to Markham Township Council Monday afternoon stated that permits had been issued for a total of \$322,700. Dwellings accounted for \$301,200, industrial and commercial \$16,500, and accessory buildings \$5,000.

Authorization was given for the payment of \$377.70 to P. Stayanoff for easement for watermain at the corner of Clarke and Yonge Streets.

A letter from J. E. Young of Bayview Plaza was read asking Markham Township Council to press for immediate paving of Bayview Avenue. Reeve Wilfred Dean explained that he had failed in an attempt earlier this year to have York County Council provide the money for this essential work on a supplementary budget. Instead only \$36,000 was provided to take care of five roads, including Bayview. "Until the county votes sufficient money, Toronto and York Roads Commission will not assume or pave Bayview," said the reeve.

A solicitor for Wycliffe Homes sent council a copy of a letter addressed to Bayview Country Club Ltd. re the latter connecting to the trunk sewer installed by the former. The letter threatened to plug the unauthorized sewer unless the company assumed a share of cost of installation. A motion by Councillor Allan Sumner and S. Rumble that Wycliffe Homes Limited be informed that Markham Township Council would take a very serious view of any action to stop up the sanitary sewer was carried.

Councillor Charles Hoover reported that on June 26 he, Councillor Sumner and Engineer D. Miklas had met with two Thornhill Trustees to ascertain if the trustees of the police village are prepared to rebuild John Street this year. The trustees did not feel that the village was ready to undertake this work this year. The contractor is proceeding to repair road following installation of sanitary and storm sewers.

The township will send three representatives to the Ontario Municipal Association annual convention in Kingston from August 25 to 28. Council decided to refuse an application from Mrs. Donaldson to erect a 26 foot cement block garage at Buttonville. It was reported that objections from residents in the area had been received, and it was felt that the size of the proposed building was not justified by a one family dwelling.

## GORMLEY NEWS

CORRESPONDENT: MRS. CHAS. MILSTED  
Telephone 886-3201

Gormley for several years, and Mrs. Ern Lucas of Petrolia was well known here. Another very highly respected Gormley resident, Mr. Frank Williams, died suddenly at his home Wednesday with a heart attack. Mr. Williams was a great community worker and will be greatly missed. Sympathy is extended to his brother, Mr. William Williams. Pike's Peak annual tent meetings are now in progress with Rev. Willis Hunking of Africa as speaker, and Mr. Johnny Ambrose of Toronto as soloist.

Mr. and Mrs. R. G. Britnell, Mrs. Harry Empringham, and Miss JoAnne Thompson attended the sixth Convocation at the University of Waterloo Saturday where their son Victor received his degree of bachelor of applied science. Ninety-eight students received their engineering degrees. Congratulations to Mr. Victor Britnell, B.A. Sc.

Everyone is lamenting the tree slaughter along Don Mills Road. It seems such a pity that all these beautiful shade trees have to be demolished for so-called progress.

Mrs. Stouffer spent Sunday with Mrs. Beulah Jones. Mrs. Joseph Wideman spent the week-end with Mr. and Mrs. Neale Sider and family of Wainfleet. Heise Hill Sewing Circle met on Tuesday at the home of Mrs. Amos Baker in Vaughan. Quite a number of Gormley ladies attended.

Rev. and Mrs. C. E. Hunking and family moved Tuesday to

Kitchener. Rev. and Mrs. L. K. Sider and family of Kitchener moved to Gormley the same day. The Siders are well-known in this area as Rev. Sider was the minister here several years ago.

Promotions were announced recently for Lloyd School.

CHEMOTHERAPY, or treatment with drugs, is a major field of cancer research. The search for drugs that can halt or slow down tumour growth is continually increasing. Of the more than 100,000 so far tested, some twenty have been found to be of temporary benefit to cancer patients. There is hope that one or more of the many drugs being used for treatment studies may be capable of inducing a cure.

excellent description of the conditions existing there.

At the mission in Cayali Rev. William Cooney, pastor, and Rev. P. Moony, assistant, are laboring despite the harsh conditions, with a measure of success. The mission is under the direct jurisdiction of Bishop Cody of London, Ontario whose diocese has adopted this mission. There are now a number of schools in operation five days a week, staffed by four sisters of St. Joseph recently arrived from London, Ontario. A new rectory in the midst of construction is expected to be completed by August.

## BELL LINES

by Bill Barnes your telephone manager

### We've Changed A Lot

There used to be a time when the word "telephone" almost always stirred an image of the operator complete with headset and a broad smile. Somehow over the years this image has been mingled with pictures of telephone lines, digging machines, piles of intricate equipment and the faces of rugged linemen, pretty clerks and service representatives. Of course, each contributes to the overall picture of the telephone company, and the skilled and experienced operator, as always, is at your service. You may not be able to see her at her work, but she is available whenever you need assistance. Nice to know that she's there, ready to help, isn't it?

"OPERATOR 1880"

MICROWAVE TOWER. MORE THAN JUST TELEPHONES

Playing an important role in the development of our country, the Bell has an active interest in more than just telephones in the almost limitless, it seems, telecommunications industry. For instance, our microwave radio relay chain, part of the Trans-Canada Telephone System network, carries television programs under contract to the CBC and CTV networks. Last year the Trans-Canada System was also successful in gaining a 10-year contract to supply facilities for the CBC's complete radio networks. These facilities employ well over 20,000 miles of high quality circuits to link some 200 English and French radio stations between Newfoundland and British Columbia.
