

Wildcats Win New York Trip

Members of the Thornhill Wildcats softball team, who won a trip to New York City recently, figured turnabout was fair play. They presented their sponsor, Mrs. Maria Malinski (centre) of Maria's Travel Agency, Thornhill, with a trophy in appreciation. From left are trip winners Susan Malcolm (captain), Sandra Covell and Janis Moran. Wildcats coach and manager, Richard Barbour, on hand for the ceremony, accompanied the trio on their New York jaunt. Langstaff Woman Is Foe Old Style Shorthand

The dot, dash, hook and curve world of shorthand has found a new foe in the form of Mrs. Dorothy Bateman, of Langstaff, who is hoping to conduct the first "stenographic shorthand machine course" in Canada beginning this September.

The course — if all goes well and public interest is high enough — will be launched at the Bayview Secondary School. The course will be held weekly beginning Sept. 12 and running to May of next year. Class times are listed from 7 to 9 p.m. each week.

The machine is designed to

make the life of the oft-beleaguered shorthand stenographer a trifle easier by doing away with the old pen and ink method.

"I found my task much easier," commented Mrs. Bateman, who should be in a position to know. She was a juvenile-family court reporter in Toronto for two years where she first used the type-writer like stenographic machine.

"The machine differs from the old-style shorthand method," Mrs. Bateman said, "in that you hit the keys which punch out combinations of letters plus numerals." Mrs.

Bateman found herself able to increase her shorthand speed from 160 words to 180 on the machine "and fall asleep while doing it" — but not really. The machine has a speed of 300 words per minute.

"The stenographic machine," she assured, "is not a new invention by any means. They've been quite popular in the United States and Britain since the 1930's." They are just beginning to become popular in Canada.

But just in case shorthand has been holding you back and you think you can now charge

to the attack with the machine method — withhold — 'taint that easy.

"I found it particularly difficult," Mrs. Bateman said. "I was forced to learn it by myself through a correspondence course in the United States. There are no courses in Canada."

But Mrs. Bateman intends to make it a lot easier with the proper amount of hard work if there are any interested persons willing to attend her classes.

"I've had several calls," she notes, "and I feel the interest is high enough to warrant starting a class. I've spoken to the school trustees and they seem ready to go along with it."

Anyone interested in finding additional information is asked to contact Mrs. Dorothy Bateman, 27 Doncrest Rd., Langstaff. Her phone number is AV. 5-4678.

Unusual Accident Mars Holiday

Mr. and Mrs. Morris Poste of Thornhill with Mr. and Mrs. Trotter and their son Allan of Willowdale were victims of an unusual accident recently while driving home from Grand Bend and Ipperwash on Lake Huron.

The Poste car was passing an approaching car on Highway 81 near Crediton when a bottle was flung out of the unidentified car. It smashed through the vent window of the Poste car, severely injuring Mrs. Trotter in the back seat and smashing through the rear window.

Mrs. Trotter was treated at the scene of the accident by Dr. F. F. Boyes of Parkhill for severe head and neck lacerations.

Hoffman ambulance rushed Mrs. Trotter to St. Joseph Hospital in London for further treatment.

O.P.P. Constable John Wright of Exeter detachment investigated the accident. As yet the culprit has not been apprehended.

JANET ALCOCK

To Attend U. Of T.

As her family was out of town and could not be reached, Janet Alcock's name was omitted from last week's story on the top grade 13 students at Thornhill Secondary School. With 73% and five firsts and four seconds, Janet placed fifth in the grade 13 graduates.

Daughter of Mr. and Mrs. P. F. G. Alcock of 17 Jane Street, Thornhill, Janet will attend the University of Toronto in September where she is enrolled in the general science course at Trinity College. She has spent the summer at Port Carling, working at the Muskoka Golf and Country Club, and from all accounts, enjoying herself as well as working hard.

The visitors were hosts of the daffy New York Mets National League team and were treated to the rather usual pastime these days of seeing the Mets go down to defeat at the hands of the Los Angeles Dodgers. Their tour also included stop-offs at Coney Island and the New York public library.

The Dan Morrison family, of Sprucewood Drive, returned from the "wilds" after a three-week camping out tour. "Canada produces almost everything"

If your home is not complete without a hippo, you'll have to import one. Search as you will, not a hippo can be found from St. John's to Victoria.

But almost everything else can, and the wise buyer knows that every dollar spent on Canadian goods keeps Canadians working.

To keep our economy strong, to make better job opportunities, to create jobs for those young people coming on to the labour market, we all must be "label conscious." Before you buy, look at the label. If the

price, design and quality are right, buy the product that is made here.

If each of us could divert just \$2.00 a week from imported to domestic goods, the result could total \$600,000,000 in Canada in one year! And that could help create 60,000 new jobs!

Buy a hippo if you must, but for almost everything else, check the label before you buy. It's in your own best interest. You help yourself, your neighbour and the whole province by giving Canadian products the opportunity to serve and satisfy you.
