"Export sales? We work through our local bank"
Helping to move the goods that mean so much to so many Canadians is an every-day service of the chartered banks. Manufacturers, producers and shippers increasingly use the local bank—not only to help finance the movement of goods in and out of the country but for assistance in overcoming problems of distance, currency and regulation.
Today the chartered banks are able, through their network of branches across Canada and their foreign branches, agents and representatives, to provide traders and travellers with the facilities of one of the world's largest international banking systems. This world of service is available to customers of any branch in any town or city. It provides quick business communications, speeds delivery of goods, helps Canadian companies to compete in markets everywhere.
