Acclaim Reginald Robinson, Thornhill

Only three nominations were received at the nomination meeting held November 13 for the three-man Board of Trustees of the Police Village of Thornhill, and the three were accordingly elected to office by acclamation.

A new face on the board will be that of Mr. Reginald Robinson of 23 Thornridge Drive, an account supervisor. He was nominated by Dr. L. J. Saunders of 118 Brooke Street, and seconded by Mr. William E. Judges of 115 Brooke Street. Mr. Robinson has lived in the village for seven or eight years and stood for office as he is "interested in the general advancement of the village" and "economy of operation".

The two other members who received acclamation were on last year's board, Mr. W. M. Judges and Mr. Frank Tucker. Mr. Judges was nominated by Mr. Harold Harley of 7714 Yonge Street, and his nomination was seconded by Mr. Eric G. Robb of 41 Thornridge Drive. Mr. Tucker was nominated by Mr. P. B. Whitehead, seconded by Mr. Reg. Robinson.

Mr. Judges expressed concern about the traffic situation existing at Arnold Avenue and Yonge Street at the beginning and ending of the school day. He felt the situation could be relieved if some of the parents would

"let the little darlings walk to school". It was pointed out, however, that many of the children were driven to kindergarten from points as far as Concord and Langstaff and that the traffic situation couldn't be entirely corrected by this means. Mr. Judges felt the most danger was caused by parents waiting in cars across the road from the school where children are apt to run across without watching the traffic. It was agreed that if parking were prohibited on at least one side of the street and a sidewalk installed for the children to walk on, the situation could be much improved.

Mr. Frank Tucker was unable to be present at the meeting.

The meeting was the best attended nomination meeting for several years with more than a dozen people present. Mrs. Patrick McTaggart-Cowan expressed herself strongly with regard to the hazardous traffic situation created on Dudley Avenue in front of the high school and St. Luke's Separate School, with cars parked on both sides of the street and students forced to walk on the road while cars attempted to pass in both directions. This situation would be much aggravated, she said, in winter weather when snow banks at the sides of the road would make the passage even more narrow. Mrs. McTaggart-Cowan

felt the situation on Elgin Street was just about as bad, now that the east side of the market property has been fenced off and students are forced to walk up Elgin Street rather than through the market parking lot. She suggested that the only way to relieve the situation was by the construction of a sidewalk on both Elgin and Dudley Streets.

Mr. Willard Simpson spoke at some length, pointing out ways in which the newly-elected board could improve matters in the village. He felt that the maintenance staff needed more direct supervision. The north end of the village, particularly, was in a most untidy state with papers in the ditches around Uplands Avenue and old milk bottle cases and so on, lying around on Thornhill Avenue.

He felt that these two areas, and others, should be looked after on a systematic basis. Mr. Simpson noted further that the sidewalk on the east side of Yonge Street north from the I.G.A. store was in very poor condition, covered with silt, mud and stone. At some places, going up the hill, the sidewalk is covered with heavy rock, he said, and suggested that a sign should be installed "Beware of fallen rocks". Mr. Simpson expressed appreciation of the work done by former Trustee Mr. B. P. Roberts in this regard. Mr. Roberts, retired, was in the

village during the day and supervised the work of the maintenance staff very closely which resulted in things generally being kept in very good condition.

Mr. Judges commented that with three trustees who were out of the village at business every day it was impossible to give this close supervision.

Mr. Simpson also expressed appreciation for the fine work done for the village by the retiring chairman of the board, Mr. James H. Timmins. Through pressure of his law practice, Mr. Timmins was unable to continue as a member of the board. He served on the board for four or five years, the last two as its chairman.

The fine contribution made to the board and the village generally by Mr. Patrick McTaggart-Cowan was also commended by Mr. Simpson and he expressed the regret of all those present at the news that the McTaggart-Cowans would be leaving the area shortly. Some discussion took place among those present about the bad condition of John Street and the necessity of having it paved. The general consensus of opinion was that the village could not afford to do this on its own and something would have to be worked out with Markham Township, although the village is supposed to look after all roads within its boundaries.

35 M.P.H. Limit In Roselawn Area

A speed limit of 35 miles per hour has been set in the vicinity of the new Roselawn School, and proper signs will be erected, Vaughan Township School Area Board learned Thursday night. Trustee Ross Jolliffe reported that it was brought to reduce the speed limit to 30 miles per hour as this is not a built-up area.

Trustees pointed out that a recent story in the press suggested that the principal should educate the children in safety habits. Principal John Martin had seen that the children were instructed in safety habits while using the roads in the area to reach the school before the article appeared. Teachers in the school take turns on duty overseeing the children and instructing them on safety measures.

Chairman Sam Kaiser suggested that if these measures prove insufficient in protecting the children from speeding motorists, an effort be made to secure a guard.

Administrator Norman Jackson reported that a request of the board to make the corner of Roosevelt and Pearson Avenues a four-way stop had not been granted by council. At present Pearson Avenue south of Roosevelt has not been built, and a traffic study by Chief James Davidson had shown an average of only seven vehicles an hour at this corner. Trustees felt however, that traffic in the morning hour when children on their way to the Charles Howitt School use the roads would be much heavier than the average. The board will renew their request when Pearson Avenue south of the corner is completed and in service.

MR. AND MRS. RAYMOND EDWARD WINTERFIELD

California Honeymoon Follows Local Wedding

White shasta' mums decorated the altar of St. Mary's Anglican Church, Richmond Hill when Lois Eileen, daughter of Mr. and Mrs. Hugh Allen of Blackwater, Ontario was united in marriage to Raymond Edward Winterfield, son of Mr. and Mrs. Norman Winterfield of 19 Roosevelt Drive, Thornhill.

Rev. F. C. Jackson officiated at the double ring ceremony. Donald Marritt, uncle of the bride, sang "The Wedding Prayer" and "I'll Walk Beside You". Given in marriage by her father, the bride chose a floor length gown of nylon organza over bouquet taffeta, featuring lily point sleeves, scoop neckline trimmed with re-embroidered Alencon lace, a bell shape skirt trimmed with lace across the front, a drop bustle held by three bows accented to a chapel train. Her double illusion veil was held by a crown of rhinestones and pearls. She carried a cascade bouquet of yellow roses, white carnations and stephanotis.

Roofing Co. To Fix Langstaff School Roof

Results of a recent inspection of the bonded roof at Langstaff Public School determined that the roof failure was not the result of structural movement, Trustee Warren Baillie reported to Vaughan Township School Area Board Thursday evening. Failure of the roof has been the subject of concern for many months. At a meeting on October 7 with representatives of the architects, the roofing firm, a roofing engineer and suppliers of the roof deck met with representatives of the board. At this meeting it was agreed that a section of the roof in the area of the failures would be removed to investigate the deck and insulation conditions. On October 10 a cut strip six inches wide and three to four feet long was made. It appeared the roof failure occurred in a ridge in the roofing felts over a joint

in the roofing insulation. The pre-cast roof slabs were dry because of the vapour barrier between the insulation and deck and there was no evidence of unusual cracking or evidence of movement in the cement grout between the roof deck slabs.

The Philip Carey Company, the roofing firm which built the roof, agreed to replace all that part of the roof and insulation showing evidence of moisture and provide a permanent repair to this section.

A request from this company for installation of a roof hopper to relieve the puddling situation in the area in which the failures occurred had been received.
