Snap Local Winning Streak

# East York Lions Defeat Indians 3-2 Close Fight

BY RON CRAINE

East York Lions, defending Metro Football League champs, hung a 3-2 loss on Richmond Hill Indians at Dieppe Park last Saturday. For the Indians it snapped a win streak at four straight and moved East York Lions into a tie with them for the league leadership. For lovers of hard, defensive football this game was a real delight.

game 2-2. A steady East

York advance carried to the

Indian 12-yard line and

once again a stout defensive

stand by the Indians forced

East York to kick for the

single point that gave them

The Indians moved into a 1-0, down and the ball rolled to lead late in the first quarter the deadline and tied the as Ian McIntosh kicked deep in vard line. With a host of mardown on him the East York receiver decided to concede the

#### MINOR HOCKEY IS BOOMING

Hockey may not be the national sport of Canada but by all odds it is the most popular with the younger set. Each year sees an increase in the minor hockey population and this year has been no exception. Registrations are filled to overflowing in the R.H.H.A. and in some cases executive members have been forced to turn down applications because there just isn't room to accommodate any more players.

A Thornhill father recently had a very disappointing experience with a North York hockey group. Last year the son played in this same North York League while father coached one of the teams. This year they returned and the boy was duly registered to play this year. His application was taken and processed and everything appeared to be set for the winter. Within the last few days the father was contacted and told that his son couldn't play because they lived north of the North York Township boundary line. It is so late now that there just isn't a handy league for the boy to play inall the leagues seem to have their full complement

Maybe the residence rule is a good rule you do have to have some kind of chop-off point but when an eleven year old boy becomes the victim of adult oversight, carelessness or whathave-you-it's just too darn bad!

The boy's father is trying to find him a spot Hunting will be permitted to play this winter and although it is already almost too late we hope he succeeds. If the boy didn't want to play and this was just Dad's idea it wouldn't matcontinually diagnosed plays er was hauled down on the In- hunter and will not be trans- ter too much. As things stand if the boy has to and spilled runners before they dian one yard line. The first ferable. The daily bag limit sit out a year he's going to be awfully hurt. Surely play was stopped cold and on will be three birds regardless somebody in the North York set up should recognize the goof they pulled and let the boy play for this

### SAVING HOCKEY PLAYERS TEETH

Doctors, dentists and medical people generally are all getting the word on hockey safety at long last. A tooth guard has been designed to protect junior's mouthful of pearly teeth and give him an A pitchout on the first play was to have the same alert Lion ing license, and will be require even chance of reaching sixteen with all his own

The guard, worn in conjunction with a protec-East York cranked up an Once again a rugged Indian de- ring-tagged and complete rec- tive headpiece, is relatively inexpensive compared the fees an orthodontist would charge to straighten out a mouthful of scrambled ivory. Time was when a hockey player of junior age had to park his china clippers in a locker before taking to the ice. With the dentures removed they looked like little old men. Now with safety being stressed all the way maybe they can skate out proudly wearing the pearly set of real ones that Mother Nature so thoughtfully provided.
