## Scouts' Protest Wins Reprieve

1st Richmond Hill Scout officials were justifiably shocked to learn, through the medium of this newspaper, that the building in the town park which they have used as a meeting place for the past 10 years was to be torn down. Because they hotly protested this decision of the parks board and of council, they have been given a reprieve in the deferring of demolition and given the hope that accommodation in the arena will be made available to them.

The Scouts have occupied the front 38 feet of the building, originally used as a curling rink, on agreement with the town since 1954. They have paid an annual rental of \$180 and provided their own heat and light. They have also spent \$1,500 on improvements which have made it possible for them and other groups to use the building.

Councillor Walter Scudds reported the demolition had been under consideration for two years and the parks board had assumed the Scouts knew this. He was not aware that

the group paid a rental fee. Surely in two years the parks board had time to investigate the matter and to make certain the Scouts knew that their tenancy of the building might be of short duration.

There has been a very definite breakdown of communication between the parks board, town council and the Scouts. It is very apparent when such a proposed move could be under consideration for two years and the Scouts only learn about it from news reports of a final decision. Good public relations cannot be fostered in this manner and criticism of the way in which the Scouts learned they were about to lose their meeting place we feel is quite justified.

1st Richmond Hill Scouts have served the community for a quarter of a century, and served it well, and for 17 years was the only Scouting group in Richmond Hill. That its work in building character in boys should be jeopardized and perhaps lost forever is unthinkable.

## Leading Canada To The Abyss

(Guest Editorial - Vancouver Province)

From every part of Canada come indications that well-meaning Peacemaker Lester Pearson is blandly and blindly leading the Canadian union

into a bottomless manhole. In the name of compromise with French-Canada he has created cooperative federalism. This is supposed to mean a system of give-andtake between Ottawa and the provinces. But it is rapidly becoming a synonym for a division of this nation into a headless collection of minor principalities.

This week Premier Robarts of Ontario, leader of the most populous province, served notice on Mr. Pearson that Ontario will recognize no further deals between Ottawa and Quebec in which the other provinces are not consulted.

Ironically enough, Mr. Robarts seems to see nothing wrong with these private "deals" between Ottawa and Quebec except that such secrecy should be widened to include all the provinces. He condemns a process but is willing to approve if it his province is included in it.

Canada is changing its constitution (The British North America Act) through the secret conversations between Ottawa and the provincial governments. The public will be told what is good for it in pompously-phrased communiques or in what leaks out from the secret meet-

By-passing the usual procedure of thrashing out such changes in public after they have been thoroughly argued in Parliament and the legislatures is a shocking abrogation

of democracy which will be discussed here next week.

While this is a matter of method. rather than objectives, it is an ominous reflection of what is happening behind closed doors. Canada is in danger of ceasing to be a nation in the truest sense of the word and becoming a collection of provinces divided by regional and racial interests having few common goals and inter-

Canada has stood united for nearly 100 years. It can fall apart in five if positive steps are not taken to avert such a tragedy. Already Premier Ross Thatcher of Saskatchewan has warned that his province would consider union with the U.S. if Quebec left Confederation.

It is imperative for the provinces to join together to preserve the Canadian union, not in altruistic support of an empty ideal but in the certain knowledge that no province and its people can retain their distinctive entity or independence outside that

In all this the chief burden of responsibility falls on Mr. Pearson and his government. It is the national government, charged with leading, not following, the provinces. This demands toughness and steadiness, and more than a little of what Winston Churchill calls a "touch of the brute" on the part of Mr. Pearson.

"Co-operative federalism" sounds good. But it could be the death rattle of nationhood unless there is a great deal more federalism and a great deal less enthusiasm for the idea of subdividing our country into ten little satraps.

# Second Thoughts

BY GEORGE MAYES

Yesterday's news is not necessarily dead

. . . and the "yesterday's news" of the flag committee's secret decision, which appeared in an Ottawa paper BEFORE the committee had reported to Parliament, promises to stay lively for a while,

It now turns out that, despite the thousands of designs to choose from, the flag "selected" by the flag committee was actually designed by the committee itself . . . Another case of everyone wanting to get into the act. (But six weeks???)

American pollsters predicted a "sweeping victory" for President Johnson in Tuesday's election . . . Well, he got the victory but we'd say, with all the morality muck he tossed, Goldwater should be made to do the sweeping.

NEW YORK—(AP)—A medical team has taken a giant step toward the day when surgeons may replace an ailing human heart with one taken from a dead person. . . . But wouldn't it be awful to get a Republican heart? A heart with the kind of innards that knew HE was right.

How are things in Glo-Gomorrah?

Toronto Alderman George Ben claims allowing liquor to be served in the new city hall would turn its twin towers into a modern Sodom and Gomorrah. . . . Quite an imbiblical quotation!

\* \* \* \* \* \*

QUEBEC CITY-(UP)-A Royal Commission inquiry into the conduct of the police and press during the Queen's visit here appeared in the offing. . . . But with the police and press under inquiry, only the Separatists would be left to testify. And, if they were to testify, another Royal Commission would be required to inquire into who beat them into attending a ROYAL Commission.

Yes, the railways certainly are behind the times. While Toronto printers were striking against the mathematical modernity of computers, C.N.R. employees at Capreol were "booking-off" in a protest against the introduction of long divisions.

Thirty women, who claim to have "thousands more" behind them, are demanding an end to CBC presentations of plays which might demoralize their children. . . And maybe the corporation would change its name so CBC stood for "Children Before Culture" until they find the "Off" switches on their sets.

Former U.S. President Eisenhower, who has managed to avoid committing himself in addressing anything other than a golf ball, suffered a convenient attack of laryngitis on the eve of a round of support-Goldwater appearances. The laryngitis may have been psychosomatic or, more likely, the attack was Ike-osomatic. \* \* \* \* \*

The No Comment Corner-

An all-girl brawl developed in Oshawa recently when four girls in dresses attended a dance where 75 other girls all wore slacks. An Oshawa magistrate later recommended that the hall be closed saying such brawls ruined the city's "dignity."

## Your Legion Reports

Branch 375, Royal Canadian Legion By Eric Chapman - 884-7129

This is Remembrance Week this day as an official holiday and we recommend to all loyal throughout Canada. #### A Tribute To The Community's Hockey Fathers

There is a wonderful group of men throughout this district of Richmond Hill and Thornhill and outlying districts who deserve a great deal of praise very seldom get it. A member of this group I call a hockey father, but to a boy playing in the league place:" Ziz wrote. he may be just his dad. Dad and sometimes mother take their sons around to the various rinks where own sons but the sons of other men. Many of them become the coaches and managers of the teams and quite often have to dip into their pockets to pay for extra ice time or transportation costs. These men are the backbone of any sporting organization of falls was running from end to then stood a beautiful grove of which hockey is a prime example. Hockey fathers in the winter often turn into baseball fathers in the hold was alarmed. summer. They like what they do and they like helping boys to learn to be good sports and to keep off the streets. Is it too much to ask that other fathers and mothers or any individual show their appreciation by attending games when they are ed to treat such childish notions house was 'haunted'. played in their own localities. It would boost the morale of young hockey players sky high and I can't think of a better way to repay these men than to show them that you're interested in what they and your kids are doing.

#### Vaughan Double Rink . . . The Only One In The World

\* \* \* \* \*

Bill Sills who owns and operates the Vaughan Double Rink at Edgeley lives at 82 Thornridge Drive in Thornhill with his wife and three children. He has lived in Thornhill for five years.

Bill Sills is a big man, blonde and affable. He talks like a man who has a pretty good idea of where he is going . . . and is not afraid of the bigness of his ideas. The Double Rink is ample proof of this, for many would consider it a very courageous undertaking. Even now, as he walks pridefully about the spacious and well lighted areas of this beautiful building, he is becoming a popular figure among the sporting people of the area. People say that the place is like a dream come true for Vaughan Township and it could well become the centre for much of its community activity.

Why did Sills build a rink on such a grand scale? He simply says that he saw a need and wanted to do something about it. And the way he saw it, one wouldn't be enough. He recalls that he was one of the fathers who had to drive kids from Thornhill to Bradford for hockey practice and games. Furthermore the idea of building a rink appealed to him. Back in his mind were his memories of being a "rink rat" at the old Ravina Rink in Toronto. "Rink rat" is really an honorable term," he said, "It just means I scraped ice and did odd chores about

The Double Rink opened last August and accommodated Billy Harris' Hockey School. This is a school where boys are trained to play hockey the right way. Their training at this school is long and arduous. They play hockey eight hours a day, seven days a week.

Mr. Sills says that he owns the only Double Rink in the world and he has also the first installation of total energy of natural gas in Canada. This supplies all heat, light and power.

Walking through the Double Rink is an enjoyable experience for a woman. Radiant heating under the seats enable her to sit down in comfort and watch a hockey game without the danger of being chilled. The lounge is roomy and equipped with tables and comfortable chairs. Here one can sit at ease and look out at the game. The snack bar is equipped to serve a large public.

Interesting features of the arena include a music room, equipped with the finest Hi-fi set money can buy and it will be the music from this set that will add greatly to the enjoyment of the skaters this winter. It is interesting to know that the good looking red ice machine that courses about the ice between games was built right on the premises. There are twelve modern dressing rooms equipped with broad seats for hockey players; plenty of room for the bulky pads. Above the seats are rows of gleaming hooks so that clothing may be hung up. There are showers between all the dressing rooms and the rubber tile runways lead out from the dressing rooms so the hockey players won't dull their skates on their way to and from the ice.

There is a pro-shop for hockey. In it will be a skate sharpening machine and hockey equipment will be sold when needed. One room is assigned for the use of Vaughan Township. The first aid room is the most up to date in the district. It was equipped on the advice of Dr. Charlie Maclean of Woodbridge. It has a hospital bed, a stretcher and the latest medical and drug equipment for emergency work. Already the first aid room has been used outcomes, then we have here two copies were available in The efforts of entertainment for a broken wrist and a broken collarbone.

Fully qualified engineers known as shift managers stand guard over the expensive heating and plaining that he would only be We are concerned about town term for council would be a year. \* \* \* \*

So far the Double Rink is booked up solid for understands the meaning of re- Legion has been heard, and tumes must have had a hard the winter, and Mr. Sills was greatly encouraged at time deciding winners from having 1000 people attend exhibition games on Oc-
