An alert policeman, who spotted a man dipping into a service station till, was responsible for the apprehension of two men who appeared in magistrate's court in Richmond Hill Thursday morning.

Health Of York Manor Residents Good; 115 Accommodated In 1964

The health of residents at the York Manor Home for the Aged was generally good during 1964, it was reported at the York County Council meeting January 20.

Routine physical examinations had indicated that the hemoglobin counts of inmates was generally lower in the spring than in the autumn. In order to rectify this and keep up the resistance of the residents during the winter months, large

stocks of cod liver oil and mineral capsules had been ordered and residents are being given these daily until spring.

A total of 155 persons were accommodated at the home during 1964, 59 men and 96 women. Staff now totals 68, including a part-time barber and part-time hairdresser.

Approximately 30 of the residents are daily visitors to the craft room. Considerable materials for crafts was purchased in 1964 and exhibitions and bazaars were held during the year where the articles produced were exhibited and sold.

In a second craft room, approximately 15 special care residents also enjoy crafts.

Special home care was approved during the year and ten prospective homes were investigated and their operators reviewed. Three of the homes were approved by the York Manor board. They will accommodate a total of 18 persons. If York Manor becomes completely filled, these homes could be used to care for applicants who would otherwise be on the waiting list until there is a vacancy at York Manor.

Lloyd Gohn was appointed superintendent of the home and Edward Wilkinson named his assistant.

RNA Course At Bayview Secondary

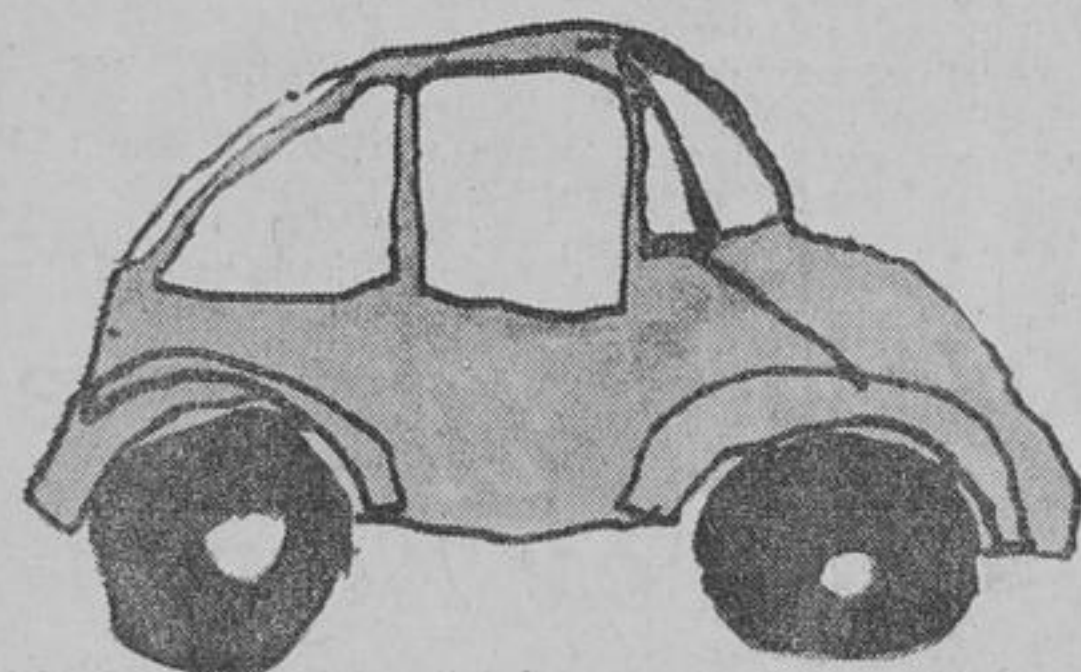

(Continued From Page 1) course at staff and pupil levels.

The area of the addition which will be used for the course Mr. Chapman noted was originally designated by the architect as "unused" space. However once the levels were determined it was found satisfactory windows could be installed and the space be put into use. He estimated capital costs would amount to approximately \$15,000 for changes in the building with an additional \$5,000 for equipment. Its annual cost would be provision of a teacher and some part time personnel to provide supervision of the girls in the hospital, he said. This would make it comparable to any other shop in capital and annual costs.

The RNA course is designed for people who are not able to cope with a five year high school program, he noted, so will not conflict with those students seeking registered nurses training which requires the five year program. Mr. Chapman noted that nursing assistants are not permitted to administer medication, handle surgical bandages or cope with sterile techniques for wounds. The rate of nursing assistants to registered nurses varies from hospital to hospital he said. In some cases the ratio is 40-60, in others 50-50.

On motion of Trustee Edean money will be taken from the contingency fund to install plumbing and electrical outlets for this room. This work which has to be done right now is estimated to cost between \$2,000 and \$3,000.

Supervised Study Trustee Kinnee reported that the board has been concerned with the slightly higher level of dropouts at Bayview Secondary. It recommended, and the board approved, that school be opened for study Monday and Wednesday nights from 7 to 10 p.m. Directed study will be provided for students who commit themselves to attend on those evenings on application from their parents. Mr. Kinnee noted that this was strictly on an experimental ba-

Bigger windows? On a Volkswagen? We could hardly believe it ourselves. Even when the new models arrived from the factory, looked like the same old bug to us. From the outside. Then we sat down inside. What a difference. Bigger windows. Everywhere you look. The youngster's drawing shows you what the bigger windows feel like. Want to know what they look like? Come on in and see for yourself. If you look real close you'll find 16 other improvements.

Reeve of Sutton. These two appointments were for three years.

The first two places on the board of directors of the Children's Aid Society went to George Richardson, deputy-reeve of Newmarket and Norn Garriock reeve of Woodbridge by acclamation.

As there were two nominees for the third place, a vote was held and Deputy-reeve Ernest Rixon of Georgina Township defeated S. G. Patrick, deputy-reeve of Aurora by 16 to 12.

Deputy-reeve Rumble, of Markham Township received an acclamation to the board of the CNE as did Stewart Burnett, deputy-reeve of Whitchurch Township.

Frank Kennington, deputy-reeve of North Gwillimbury was acclaimed for a seat on the board of the Royal Winter Fair.

Reeve Plaxton of Richmond Hill presented a resolution asking that committee reports be submitted to council members 48 hours before they are discussed in council, stating that he

rarely had time to read them, let alone study them before being asked to vote on them.

Several members felt this would slow down the operation of the council too much and Vaughan Township Reeve, A. H. Rutherford stated that it would require the hiring of more staff to mail the reports out. Reeve Joseph Dales of North Gwillimbury felt it would severely restrict the action of the committees, and the resolution was defeated with only Reeve Plaxton and Reeve Timbers voting in favor.
