**TO ALL PARENTS OF Markham Township School Area No. 2**

In the past month, the trustees of Markham T.S.A. No. 2 have received duplicated letters and signed by the parents of kindergarten children asking the board to reconsider their decision to not provide kindergarten facilities in September, 1966. Since this letter was a duplication that necessitated only the parents signature many omitted the address of the parent. For this reason then I find it impossible to reply individually and as a result, I am using the media of the newspaper as an alternative.

The trustees are sympathetic with your request but feel that such a facility, if installed, must be available to ALL pupils of the area. Taking into consideration the lack of population density in the area, one can readily realize the transportation necessary is out of proportion with the operating cost of those buses necessary to operate the remainder of the elementary grades. The trustees agree that the provision of such a facility in Area Two is in the planning of the not too distant future but until the consolidation of the smaller schools such a programme is highly impractical.

Your concern and interest in this matter has been appreciated.

Yours truly,  
**W. G. Morley,**  
Business Administrator.

**Buttonville Community Happenings**

**Neighborhood Notes**  
One month of summer past — the wheat is golden in the fields, corn is high, and next week the combines will hum.  
In the meantime home based children are taking advantage of every available pool in the vicinity, and mothers are toting carloads of water babies to their Red Cross lessons.  
This week Janet Craig is writing exams, completing her second year at the Toronto General School of Nursing. She completes her psychiatric training the end of July, and then will take a three week's holiday before continuing her course.  
Fraser Craig is surveying in the London area now, and spent the weekend at home with his parents Mr. and Mrs. Walter Craig.  
Mr. and Mrs. Ernest Walton returned early last week from a visit with their daughter and her family at Port Credit.  
The Hooper family expected Mr. and Mrs. Charles Hooper home early this week from a trip to the Calgary Stampede and the west coast.  
Mr. and Mrs. Bill Hood accompanied by Mr. and Mrs. Adam Brown went on the town last Friday evening, to dinner and a performance of Eric Nicol's new play "Like Father, Like Fun" at the Royal Alex. The Hoods were celebrating their wedding anniversary. Congratulations.  
Mr. and Mrs. Frank Selders and their family are delighted to have Mr. Selder's brother with them this summer, on a two-month visit from Holland.  
Mr. and Mrs. William Champion's daughter Mary returned home from Europe recently, where she attended school at Neuchatel, Switzerland, and took some interesting side trips to Spain and Italy.  
The Bobbitt family is taking a motor trip vacation this summer — around the great lakes.  
Rodney Venus is working on a farm at Vineland this summer, and Mr. and Mrs. Bernard Venus and Susan will visit relatives in Montreal during holidays.  
Dr. and Mrs. E. Bartram of London spent some time with Mrs. S. J. English on Sunday.  
Mrs. A. W. Miller had the casts removed from her wrists last Friday, after more than six weeks of "imprisonment". The doctor was pleased with them, but it will be some time before she is up to her usual speed.  
If you are driving around the countryside some summer evening, you might take a look at Buttonville Airport on 16th Avenue west of Don Mills Road. Toronto Airways is expanding, and a new building is well underway. Helicopter activity is interesting too. Last week a heavy one flew over from a western direction dangling a heavy steel pipe on a long rope and deposited its load at the airport. A new type of air freight transport for this neighborhood. You may have heard also that Buttonville based helicopters are assisting with CFRB traffic reports during rush hours and on weekends.  
Dr. and Mrs. George Kelly attended the wedding of Mrs. Kelly's nephew, John Riseborough last Saturday; and Mr. and Mrs. Bill McArthur were guests when their nephew Jack McArthur was married at St. Margaret's in the Pines, Scarborough. Mrs. James McQuay was also a guest at the McArthur wedding.  
A thought to remember — Bruce's Mill Conservation Area is a delightful place to stroll or swim on a warm summer evening.

**York County Working At Farming Not Tractor Parades**

The only tractors that have been seen on the roads in York County in recent weeks have been there in courses of normal farm work, Agricultural Representative A. A. Wall reports. They have definitely not been participating in a tractor parade. Most farmers in this county have the opinion that using tractors in this way isn't a very good approach to solving the problem. Besides, with hay coming off at top speed, there hasn't been a tractor to spare. Some form of protest or action is supported. Price levels at the farm for most products haven't changed much in the last 10 years, he claims. In spite of some rise in prices of milk, beef and hogs there has not been an upward swing to match increases in operation and costs. A small percentage of farmers has been able to keep on top by doubling or tripling volume, but for large numbers expansion has not been practical. There just isn't enough land, money or manpower to go around.

Mr. Wall says that in his opinion, prices should be at a level that will enable a moderately sized, well-run farm to stay in business and keep up to date. It is doubtful if tractor parades, government subsidies or pegged and controlled prices are the answer. He feels that organized marketing with bargaining strength is a healthier approach, albeit not an easy one. The road to organized marketing is a very rough one, he warns. The necessary loss of individual freedom and control of the product is bitterly resented by some people. If mistakes are made, many find it difficult to understand that perfection is a relatively rare item. The leaders often get rough treatment and as a result prefer to stay at home and mind their own business.

However, progress is being made — the kind of progress that will last a lot longer than most easy, spur-of-the-moment actions.

**DR. ALVIN G. KELLY**  
**Medical Graduate**

Son of Mrs. Marion Kelly and the late George Kelly of Gormley, Dr. Alvin G. Kelly received his degree in medicine from the University of Toronto at the June 18 convocation.  
Dr. Kelly is a graduate of Richmond Hill High School. He is interning at Toronto East General Hospital.

**Videotaping Of Programs Brings Educational TV To High Schools**

The \$6,500 in York Central District High School Board's audio visual budget, together with an additional \$3,500 will be used for the purchase of a video tape machine and necessary appurtenances.  
The recommendations of the management committee to this effect was passed unanimously at the June meeting of the board.  
This was described by Superintendent S. L. G. Chapman at the first phase of the board's plan for the use of TV in the school system.  
At the present time a number of fairly good educational TV programs are broadcast through commercial channels. Usually however, these are broadcast at a time which conflicts with the school timetable and to arrange for one grade to watch a program at a particular time often involves re-

**Before The Magistrate**

**Toronto Bookie Fined And Jailed**

A former Toronto real estate broker, Albert H. Porter, 58, of 26 Thorncliffe Park Crescent, was fined \$500 and sentenced to 15 days in jail when he was convicted on a charge of book-making Tuesday in Magistrate's Court.  
Two Metro policemen testified they had checked a room at Elliott Trucking Sales, Highway 7 one-quarter-of-a-mile east of Kennedy Road, June 3, and found an unlisted phone, racing sheets and a television set tuned to the races that afternoon.  
While they were there, several bets were placed over the phone, they said.  
Mr. Porter, who operated the room, said he used it for real estate purposes.  
Heavy jail terms were handed out to two men, who were convicted of breaking, entering, theft and uttering.  
Ross E. Morton, 27, of Don Mills, was sentenced to six years, while James W. Ray-gayle Becwith, 18, of Don Mills, and Maureen Mullings, 19, of Toronto, who were arrested with the two men and charged with possession, were discharged.  
The quartet was arrested by Markham Township Police last month in connection with uttering a series of cheques throughout the township. The cheques had all been made out on a local cheque writing machine stolen from Evans Contracting Company, Finch Avenue.
