To Be Or Not To Be One Municipality

While there has been little public comment on the plan of the Southern Six municipalities to look seriously at the possibility of closer co-operation between them, we can only applaud this forward-looking

After more than a year of explorations of mutual problems and attempts at finding ways and means of solving them, a survey by Planning Consultant Eli Comay with comparatively narrow terms of reference seems a logical way of getting down to brass tacks.

It has become increasingly apparent that the southern area of York County is on the verge of an expansion that can't be held back because of increasing population and demand for housing.

While the municipalities are understandingly reluctant to permit housing in the light of astronomical education costs which would inevitably result, it is obvious that this is a log boom which will have to be pried loose, no doubt by the provincial government.

Where will this leave the Southern Six municipalities?

Even now, certain of them, notably Richmond Hill, needs expanded sewage facilities and has at the moment neither the wherewithal to pay for them or a place to put them. It is known that the OWRC is preparing a plan for both sewage and water supplies for the whole area, but how will this be financed? If a trunk sewer is built (the most commonly sug-

gested solution) on what basis will it be paid for? Will all the Southern Six municipalities be forced to connect to it or will they be able to opt out? What happens to existing plants?

Just these few questions seems to us to point to the need for more than a vague "co-operation".

It is easy enough for individuals, as well as municipalities to co-operate when each is to receive immediate benefit but in the present situation, some municipalities could be on the losing end for a time. Even the fact that this will produce a net gain in five years makes it hard for a municipal councillor to justify a loss in one particular year. This kind of effect would be difficult to counter in a mere co-operative venture and we suggest that a re-drawing of municipal boundaries may be the ultimate solution.

We will look forward with interest to the report to be prepared by Mr. Comay. He has been asked to comment on the possibilities of shared services among independent municipalities; the possibility of the entire Southern Six becoming one body; or the possibility of two or more municipalities or parts of them, becoming

a single entity. As former Metro Planning Director, but one who is now independent politically of Metro, Mr. Comay seems a wise choice to make the survey and has an indisputably wide knowledge of the area and its prob-

Outstanding Centennial Event

Congratulations are in order for the hard - working public - spirited people of Pleasantville Home and School who April 8 were responsible for the Centennial Soiree. This will prove to be one of the highlights of this year of celebrations, we believe.

The enthusiasm for Canada and its Centennial was reflected in every phase of planning and in every minute of the evening's program. Time, and effort were expended by numerous people, and assistance was received from many individuals and firms outside the section of Richmond Hill directly involved in the

Of particular note was the wholehearted co-operation of Principal an opportunity for which many of John Hincks, members of his staff and the students. In preparing decorations for the event and in helping instal them and remove them, when they had served their purpose, these young people learned that a "happening" such as this does not just

"happen", but is the result of careful planning and much hard work, a lesson that will be invaluable in years to come. They also developed their knowledge and appreciation of their country.

The wonderful co-operation of this group of people was further evidenced when the decorations were left in place for the Girl Guide and Brownie bazaar — another very successful event.

Canadians as a whole are too reserved to do much flag-waving and drum-beating for their country. In fact, as a nation, we are rather prone to under-rate ourselves and our homeland. This Centennial Year gives us an excuse to exhibit our pride in and our love for Canada us have been waiting. This was clearly indicated at the end of the Pleasantville Centennial Soiree when everybody present spontaneously sang the words of "O Canada" as the orchestra played the anthem at the end of the dancing.

Flashback

In Years Gone By

Settlement duties of the early pioneers on Yonge were severe, E. A. James wrote in "The Liberal" of September 16, 1926. It is small wonder they found difficulty in fulfilling their statute labor obligations.

down all the timber in front of, and the whole width of the lot (20 chains, 135 feet wide), 35 feet of which must be cleared smooth and left for half of the public road."

Governor Simcoe's original ambition was to establish a new It is even based on the scripcapital for the Province of Up- tures - both New Testaper Canada at what is now the ment and Old Testament. City of London, and to link this I'm convinced that it also capital by highway with York, continues today." Kingston and Quebec. The section from Kingston easterly had already been opened. The road from York to Kingston was to be constructed in time by the settlers. Meanwhile communication with Montreal was to be by water. Old maps show the proposed line of the road, some parts of which are located further north than the present

Kingston Road. It is recorded that in 1799 the road from York to the Bay of Quinte was let by government contracted to Asa Danforth, to be cut and completed the medical profession is of as far as the Township of Hope, importance. It is itself one about 60 miles, "so that sleighs, of the wonders of the modwagons, etc., may travel it with ern world. I think there safety." A part of the original should be a greater working road still bears the name of the together of the medical docbuilder.

Two explanations have been complements the other.

"Faith healing is possible.

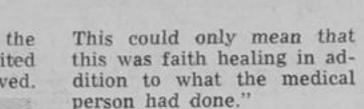

That's the feeling of Rev. Emil Lange, a former pastor of Zion Evangelical Lutheran Church at Maple and now a professor in the religious studies department at Waterloo Lutheran University.

In an interview conducted by the Kitchener-Waterloo Record, Rev. Lange stated that in the "early Christian church there were no antibiotics, no hospitals, etc., and therefore the miracles performed then had a great deal more meaning than today.

"This is one of the reasons tors and the clergy. One medical profession is limited and still healing is achieved.

REV. EMIL LANGE

Former Maple Pastor

Mr. Lange believes that man is a psychosomatic being and that he should be treated as such.

"This is the reason some doctors feel ministers should participate in the hospital. The spiritual and the physical parts to man both need treating.

"I am opposed to the dramatic type of faith healing that would seem to be for the glory of man. It depends on whether it is for the glory of man or the glory of God.

special powers of healing. The gift of healing is one of the gifts in the Corinthian church. I would definitely say there are some individuals who have been given this healing power."

When Mr. Lange and his Evangelical Lutheran family were preparing to go to India in 1955 they were 1965.

Faith Healing Possible—Former Pastor delayed when their threeyear-old daughter became very ill. The doctors diag-

nosed her condition as leu-

kemia. "We prayed and the congregation prayed. There was a sudden change in her health. The white blood count went down drastically within about a week's time. We believe that this was an act of faith healing. The change has

been permanent." Rev. Lange is a graduate from Waterloo Lutheran University and seminar. He was pastor of the Heidelberg-Erbsville Parish after which Rev. and Mrs. Lange served "It is possible to have as missionaries to India.

They worked among the Telugu speaking people of Andhra - Pradesh for six years before returning to Ontario.

Rev. Lange was in Maple for three years at the Zion Church. He left in June of

Rambling Around

The YWCA Of Canada

If you join the Richmond Hill and District "Y" you are automatically a member of a world wide gallant defender too! Yet he cedures to have ratepayers pay organization. This means you can be represented did it, in his own skilful, kindly their taxes in four instalments at the world council meeting to be held in August

> As Canadians, we can be proud of the contributions and accomplishments of the National "Y" of Canada and especially during Centennial year. Their convention is held every four years. The next one will be held in Hamilton. Wherever the YWCA has met on a world,

> national or regional basis, it has been deeply concerned with the pressing problems of our modern age . . . the status of women . . . the proper use of leisure . . . racial discrimination and the problems of

> Worries about girls are substantially increased because the girls of affluent homes seem to have as many problems as those who are deprived, troubled, ill-housed or anti-social. Y workers believe that the problems of teen-age pregnancy, failure at school, unhappiness at work, lack of communications between parents and children and loneliness are no respectors of postal districts. They meet problems where they find them.

> A positive answer to one need was the establishment, this year, of a residence for Indian girls at Yellowknife.

> Still another approach was the "Y-Teen" conference recently held in Toronto. This was a first. Y-Teens came from Peterboro, Oshawa, Uxbridge, Oakville, Kirkland Lake, Sudbury, Cape Croker, Barrie, Owen Sound, Brampton and Richmond Hill. Lucky delegates from the Hill were Marnie Miller and Margaret Rice.

RICHMOND HILL YWCA AND DISTRICT

Our local "Y" has come a long way since 1959. A former extension of the national organization, it became a provisional "Y" at the inaugural, a year ago last April. Since then it has been collecting the money for its own membership. Before that the money went to YWCA of Canada. It will become known as a full fledged "Y" at its first annual meeting to be held May 31. Its scope will cover Richmond Hill and District.

Miss Mildred Heatherton, executive staff director said that they would be electing their first board of directors at the annual meeting. At present the "Y" is directed by an advisory committee under Chairman Edith Clement. The committee sets the policy and planning is done by standing committees which in turn submitted plans for approval from the advisory. All chairmen of standing committees are members of the advisory committee.

One of the biggest boosts to their expansion came when they located their comfortable quarters at 25 Yonge Street North. The location is central and within easy access of transportation. Miss Mildred Heatherton is the first full time executive staff director, Gwen Haliday is program director and Marion Thompson, part time office secretary. The centre is open from 9 am to 5 pm.
