Transfer To Langstaff In September

Two mothers of children from Garden Avenue, who are now attending Charles Howitt School, questioned Vaughan Township Public School Board last Thursday evening about plans for children from this area for the next school year.

It was reported that a meeting with parents of children resident on Garden Avenue and in the Boyle Subdivision was held March 16 about a proposal to accommodate these children in Langstaff School. Parents present voted 28 to 13 against the proposal. However, trustees reported that phone calls from some parents who had voted in the negative indicated that they had changed their minds.

Chairman Ross Jolliffe reported that the board had decided to go ahead with its plan, commenting, "It is the board's prerogative to make decisions. This move is absolutely essential to our plans."

Mrs. J. G. Corse of 128 Garden Avenue, asked how many buses would be used. Since there are 115 children involved, the chairman stated, it would take two buses. Mrs. Corse pointed out that pickup points will have to be chosen carefully, since traffic on Garden Avenue is very heavy at the time the children will be picked up and consequently it is very dangerous.

Mrs. Corse also raised the question of adequate supervision during the noon hour. Although she will be picking up her own children and taking them home for lunch, she stated this was the greatest area of concern for most parents in the area.

Trustee Mrs. Marjory Black reported that almost all children who attend Jefferson School remain during the noon hour and no problems have arisen in regard to supervision. The parents in that area are quite satisfied. The board felt that the teaching staff could assume these duties to the satisfaction of all concerned. It was noted that children may not leave the school grounds during the noon break, if they stay for lunch.

Although this move may inconvenience some people, Vice-Chairman Warren Ballie noted, "It will mean better educational opportunities for those that are moved as well as for those remaining, as it will ease the pressure on classroom space. Our prime concern is to provide the best educational opportunities possible for all the children in the township."
