An exciting and memorable weekend was had by Ray Thompson and family, Welton Street, on the holiday weekend. Ray was greatly honored, May 19 when he was awarded the Chant Medal of the Royal Astronomical Society of Canada at its general assembly in Montreal. This medal, which has not been given for eight years, was awarded to Mr. Thompson, as an amateur, for his outstanding contributions to astronomy over the past 12 years. This special occasion called for a celebration. Thus all the family travelled to Montreal Friday morning by car to be present at the ceremony. Elsewhere in the paper are details of the Chant medal.

Son David is a member of the Festival Choir, so he was taken to the residence in Montreal, Saturday afternoon, to join the rest of the children who had travelled to Montreal by train. A trip to Expo was planned for Sunday, but unfortunately Ray had acquired a severe cold and had to stay in bed so only Judy, Ise and Mrs. Thompson Sr. went to Expo, and enjoyed it immensely. They only had time to see the British pavilion and two smaller pavilions, but felt this was a good introduction of things to come as they plan a trip again in July.

While at Expo they literally ran into the Festival Choir at Place des Nations, which was giving one of three performances that day, and was loudly applauded by the audiences. Again, later in the day, Ise almost walked into David who was touring with choir members, and from this chance encounter she learned that the choir was getting along famously, although David was too busy looking to have many words for his mother.

By Monday, Ray was feeling much better and was able to take his turn in driving back to Toronto. All the Thompsons were accommodated in the students' residence at Montreal University where the RASC's General Assembly was held.

St. Andrew's Presbyterian Church Explorer group closed

Helen sums up, what is probably a unanimous decision, by saying "Expo was Just Great".

Janet Scott provided a handy rating scale of the different pavilions which she saw. Getting an Excellent are Labyrinth, Britain and Bell Telephone; Very Good goes to Man and His Health; Good to Ontario, Netherlands, Israel, Habitat 67, and Jamaica; Fair goes to Iran, Switzerland, Yugoslavia, Trinidad, Tobago and Grenada; Poor to Belgium, Greece, United Nations, OCDE, Mauritius and Monaco.

Janet also reports that at La Ronde, the amusement section, she enjoyed the log roll ride the best and found the much advertised "Gyraton" disappointing.

Amateur Astronomer Honored By Society

Maple resident and amateur astronomer Raymond R. Thompson BA, B.Ed., ARCT, was honored May 19 when he was awarded the Chant medal of the Royal Astronomical Society of Canada at its general assembly in Montreal.

The Chant Medal was established in 1950 in appreciation of the great work of the late Professor C. A. Chant in furthering the interests of astronomy in Canada. It is awarded not often than once a year to an amateur astronomer resident in Canada on the basis of the value of the work which he has carried out in astronomy and closely allied fields of original investigation.

This is the first Chant Medal to be awarded since 1959 and Mr. Thompson is the 14th recipient of it since 1940.

In presenting the medal to Mr. Thompson, RASC President Malcolm Thomson read a list of the recipient's achievements over the past 12 years which included instrumentation of his Maple observatory, the quality and quantity of his observations and his work with young people of all ages in helping them to an appreciation of the science of astronomy.

Mr. Thompson is a public school teacher in Weston.

Another well known area resident, Dr. Helen Hogg of Richmond Hill received the RASC service award at the same assembly in recognition of her outstanding contribution to the society as a professional astronomer.

Centennial Ctee. Plans Hoedown

An informal report on Vaughan Township's Centennial Committee was given to council last Wednesday by Chairman Cliff Bennett.

"We've been hanging on to the township's money and having self-supporting events," Mr. Bennett advised and reported that from the proceeds of the Centennial Ball held in April, the committee had been able to turn over more than \$2,000 to the Festival Choir.

The committee has planned no events for July 1. Mr. Bennett reported that there have been so many arranged by other groups. However, tentative plans have been made for a country hoedown later in the summer.

One project the committee has started seems to have caught the imagination of school children in the area — marathon running. The children are doing the running under the supervision of their teachers, making circuits of the school grounds. The committee has offered Centennial crests for the marathon runners and a limited number of medals for those running the longest distance.

"This is most unusual — a committee has made money instead of spending it," commented Reeve Brian Bailey. "These people are typical Canadians," he said, "they do all these things and say very little about it. People should know."

Other members of the committee are the Secretary-Treasurer Mrs. Milton Savage Jr. and Hugh Martin.
