Pickers Halt Arena Work

An unforeseen delay in the construction of Richmond Hill's new \$358,350 town arena materialized last week in the form of the above pickets. They are members of Iron Workers Local 721, Toronto.

Spokesmen for the union said the pickets were stationed on Friday and have indicated they will remain until the firm, Matterson Construction Ltd., pays union scale wages. Non-union steelworkers remained on the job but unionized bricklayers refused to cross the picket line. The work stoppage — if maintained — may throw a serious crimp in the completion date of the arena originally planned for November.

Local Greens

20 Rinks Bowled In Mixed Doubles

Last Sunday a mixed doubles tournament at the greens of Richmond Hill Lawn Bowling Club, saw 20 rinks from the area competing. In spite of the rain and wind, the tournament was completed and the local club proved to be good hosts as all but one prize went to visiting bowlers.

Winners were: first prize for three wins, E. Strain, High Park; second prize, A. Medlock, Etobicoke; third prize, W. Edwards, Brampton. High for two wins went to C. Harmer of Richmond Hill and high for one win to E. Dennis, High Park.

This coming Saturday at 10 am play begins for the Walker Hall Trophy, top award in an annual open men's trebles tournament. Several outside entries have already been received.

Rangers Win By 4-2 Final Game Saturday

The Richmond Hill Rangers soccer club downed Orangeville 4-2 last week to move another step closer to the league championship.

Richmond Hill is hoping to win the cup this Saturday when it tangles with Keswick in the last game at Bayview Secondary School. Game time is 5 pm.

Last week's game at Orangeville was played under very windy conditions which hampered control of the ball and resulted in some sloppy play combinations.

Insiders left Dave Andrews managed to score two goals in the first 15 minutes and a third just before halftime to complete his hat-trick.

Orangeville scored its first goal in the second half when the inside right drove the ball from about 20 yards out.

The Ranger struck again through outside right John Slawson who scored their fourth goal.

The Rangers then gave away a penalty kick for the third successive week and Orangeville's right half scored from the spot.

Power Squadron Opens '67-68 Sessions In Hill

The Richmond Hill Branch of the Canadian Power Squadrons has commenced its 1967-68 boat safety classes.

The sessions will be conducted in the Richmond Hill High School every Tuesday night throughout the winter up to the end of March. Time is 8 pm. Membership fee totals \$35 and covers books of instruction, etc., during the 20-week course.

Purpose of the course is to establish a high standard of skill in the handling of small boats and to increase the safety and pleasure in boating by improving ability through training.

Every fall and winter from October to March each local squadron conducts classes one night a week in piloting and small boat handling.

Classes are open to all men, women and older boys and girls. Local instructors are John Bonnell and Fred Avent.

Instructors are squadron members who have taken more advanced courses and have teaching ability. They are unpaid.

Classes in the piloting course are designed to prepare a student for the squadron's piloting examination at the end of the

course. But attendance at the lectures in no way obligates anyone to take the examination.

Instructions involve equipment and boating laws; rules of the road; seamanship; safety afloat; mariner's compass; aids to navigation; charts and piloting; manners and customs, etc.

Advanced grade courses include seamanship; advanced piloting; junior navigator; navigator; engine maintenance; weather; sailing; marine electronics.

The first squadron of Canadian Power Squadrons was formed in Windsor, Ontario, in 1938.

Reid' Bomb Brenan 13-4; Lead Finals

Reid's Auto Body took a convincing two games to one lead this week over Brenan TV in the third game of their Industrial Softball League finals.

The score — after the dust settled — was 13-4.

Reid's scored two runs in the first, seven in the fourth, and added four more in the next three innings.

Rene Beland was the winning pitcher picking up his second victory against one loss in the finals.

Top batters for Reid's were Beland with four safeties and Moe Williamson and Pete Gould with three each.

Gord Wright had three hits for the losers.

The fourth game is slated for tonight (Wednesday) in the town park at 8 pm.

Pardon My Complacency

Along about this time every year, someone always comes along and upsets my complacency. Sends it crashing to the ground. Just when I've become resigned to the fact I'll never be in condition again.

This time the name is John McLean who lives at 28 Avenue Road in Richvale, is 25 years old, teaches geography at Newmarket District High School.

That's okay, perfectly normal, not even a spare tire around the middle. But then he's only 25 remember and Canadians often don't develop spare tires until they're 27. So nothing out of the ordinary here.

But then he has to come out and say that he runs an average of 10 miles a day.

10 MILES A DAY?

That's not normal. Even "The Fugitive" never covered that much distance on television and at least he had a good reason for running.

Not John. "I run because I enjoy it, keeps me in condition, and is good for the heart, lungs and legs. I've been running since grade 9."

Almost every day there's a chance you'll see him beating his way along Avenue Road, Bayview, across Carrville Road, back to Bayview and then to Elgin Mills or something like that.

"I usually run from 5 to 6 pm. The longest distance I've covered is about 20 miles."

Don't you feel strange running along public roads in this day and age? Don't passing motorists think you're, well, nuts? Don't they honk their horns, jeer, or report you to the nearest OPP detachment?

"No," states John. "They're usually very sympathetic. They stop and offer me a ride."

And in case you're wondering by this time, John is very serious about his running.

"You don't train this much and not be serious," he said. "I enter meets although I haven't competed with any big-name athletes."

John — along with Pat Smith and Derrick Milner, of Oak Ridges — was once a member of the Toronto Olympic Track and Field Club.

FOR AREA CLUB

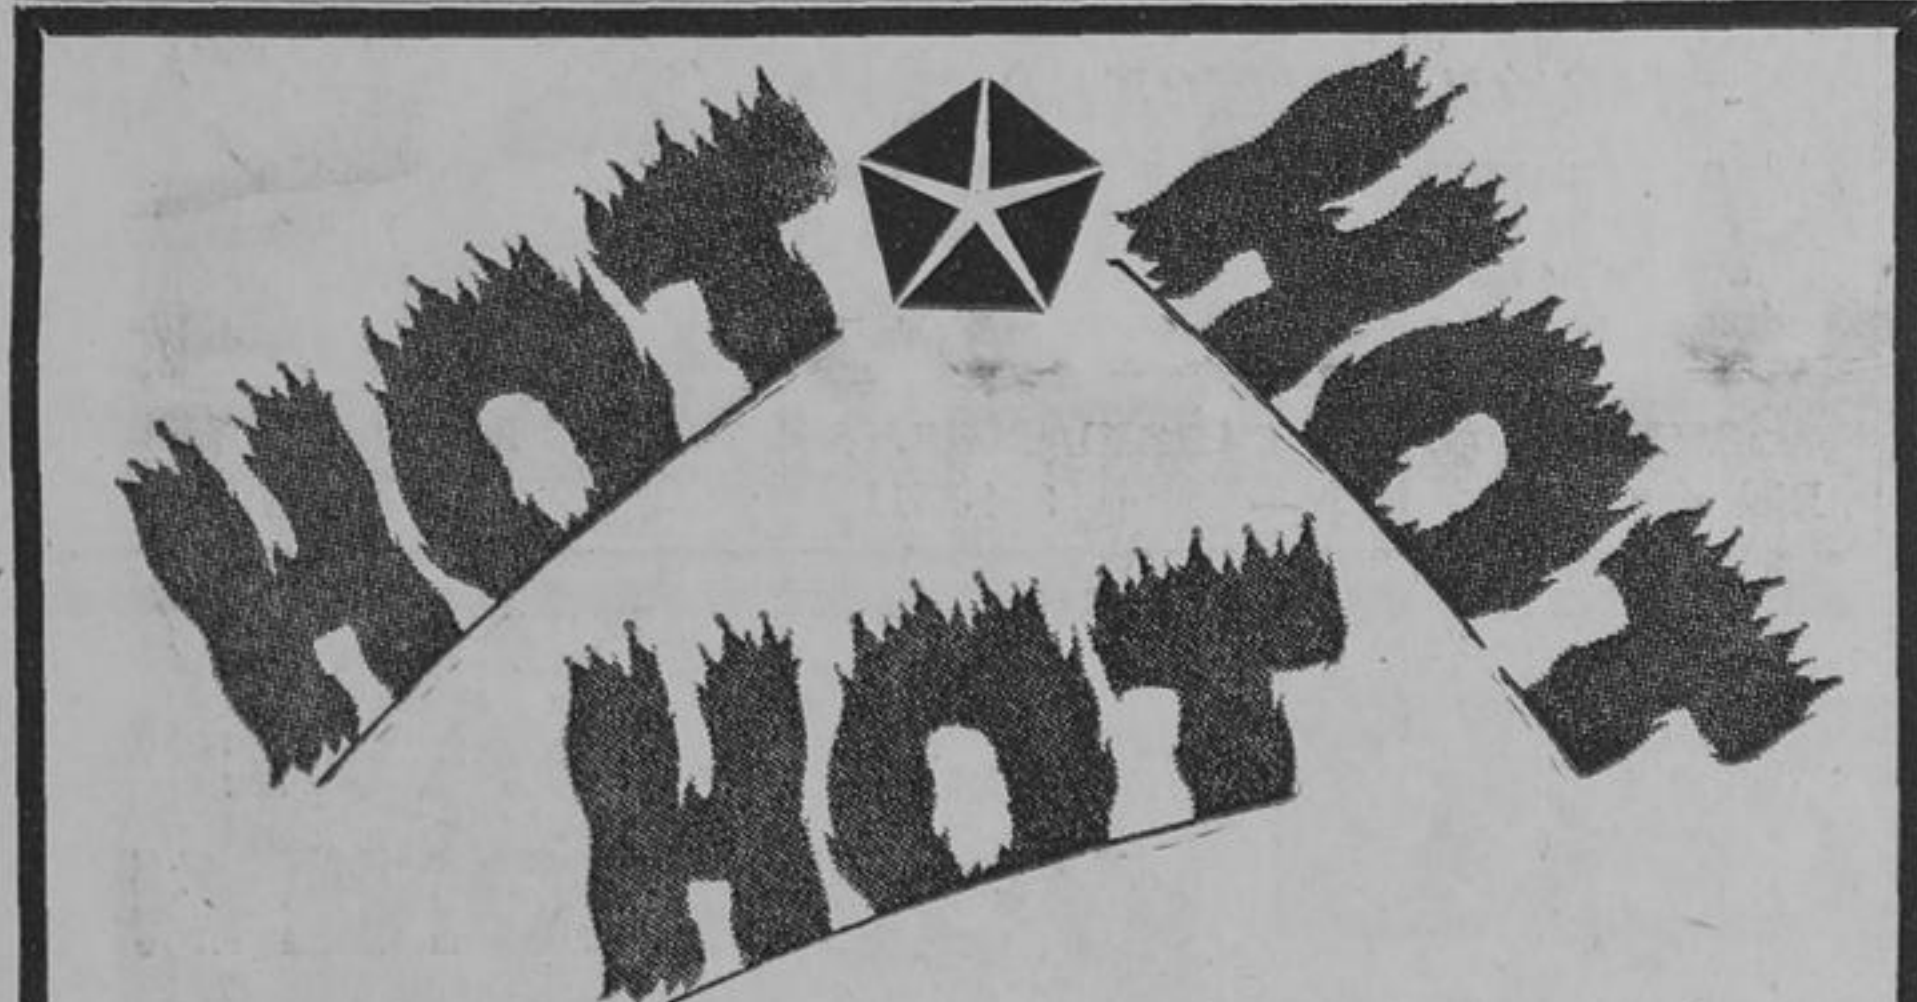

"But it was a little too far to train," he said, "and so we decided to form an area club of our own."

This still fledgling organization has now been formed, is called The York Pioneer Track Club, has about 25 members (mostly high school students) from the area, and is on the lookout for newcomers.

"We're affiliated with the Amateur Athletic Union of Canada," he said. "Right now we're embarking on a training program for the upcoming cross country and road races which begin in St. Catharines and Toronto September 30."

Teams competing for the newly formed club will be entered in both events and will come from

A COW PASTURE? To begin with, Richmond Hill has a strong following of fans with its senior softball team Dynes Jewellers, which is one of the top senior clubs in Ontario.

It is a crime to expect a senior calibre of ball players to play in a cow pasture or sand pit, to say nothing of the fans who miss half of the ball game picking sand out of their eyes on a breezy day or evening.

When I first saw your old ball diamond I thought it was some sort of a joke or at least just a temporary arrangement, then the new diamond was built and it was basically the same. You people must have some hate towards grass or do not want to spend money to keep it cut.

A softball diamond is supposed to have grass in the out field so let's make the Richmond Hill one the same as all the others in Ontario.

You might also take a look at the type of entrance that has been installed for the press box. It should be a set of stairs not a ladder. I dare say you gentlemen would not attempt to use the existing one more than once.

Yours truly,
BILL HURST,
President,
Fairbanks Major Softball Assoc.

PRaise for Minor Ball Officials

I would like to congratulate the officials of the Richmond Hill Minor Ball Association for their tremendous efforts in organizing the ball tournament held on September 16, along with the many people who helped and gave their time and services.

To organize nearly 50 games of ball, played in one day, for nearly 600 children is quite an achievement. An achievement which should not go unnoticed by the people of this town. Congratulations and acknowledgements to the many organizers of various activities in
