Strawberries Galore!

Hey! It's strawberry time! Some 600 people found this out for sure June 12 at St. Andrew's Presbyterian Church, Maple when they attended the annual strawberry festival. Above, Gail Hooper serves Sandra Linklater, Nancy Brown and Helen Johnson.

It was a completely co-operative effort as each family in the congregation contributed two cakes and three pies to go with the family style cold meal and the 250 pints of strawberries. The affair was sponsored by the board of managers and proceeds will be used for general church needs.

Summer Recreation

As well as the children's playground program which commences July 2, Maple Recreation Committee is busy arranging an evening volleyball program for women and girls.

A program of horseshoe pitching for men is also in the planning stage. Both these activities will be held at the north end of Maple Grove Park (near the library).

No summer activities are planned for the community hall park as it is well utilised with the baseball programs already underway there.

Bulk of the \$500 grant received from Vaughan Township Recreation Committee will be spent on salaries and supplies for the playground program and no permanent equipment will be provided this year other than volleyball posts and nets, etc.

The committee is now exploring the possibility of a band concert at Maple Grove Park sometime during the summer. The winter program is also under study with discussion on a pre-hockey gym workout course for boys just prior to the hockey season, badminton, a eucheir club and possibly a golf school.

Members of the committee will meet with Vaughan Township Public School Board in August to talk over winter plans and the utilization of school buildings. The committee will also meet with the Lions Club this month to discuss recreation needs for the village.

Historic Kleinburg Building Will Be Service Station Site

Vaughan Township Council last week agreed to permit Norman Hall of Kleinburg to build a new service station on the main street of the village, providing it is operated only as a service station and not a public garage and no restaurant operation is contemplated.

Mr. Hall asked that Lots 34, 35, 36 and part of 37 be zoned C4, highway commercial. He now owns and operates a service station, 200 feet north of this, on the east side of Islington Avenue North but wishes to relocate because his present site is too small, and difficulties of entering and leaving the property when vision is obscured by parked vehicles.

The new location now contains a hardware store and separate dwelling. At the recent planning board meeting when the subject was discussed, Kleinburg resident Robert McMichael noted that the hardware store was of historical value and had been in the Shaw family for three or four generations. He asked that decision be delayed three to six months until interested persons could make proposals for the restoration and preservation of the area.

Objections were also voiced by Mrs. G. A. Fransen, J. H. Studdy and Mrs. G. Weidon. Planning board recommended to council however, that the rezoning be permitted under certain conditions; that only service station operation be permitted, i.e., minor repairs, tune-ups, etc.; that a 10-foot strip across the front be dedicated to the township for possible future road widening; that all the front area be paved with the exception of landscaped areas, that only diffused lighting be used

Concord School Goes Liberal

As Concord Public School goes, so goes the nation, could well become a folk saying at Concord, following the June 25 federal election.

A full fledged election campaign took place at the school and a regulation polling booth was set up June 25, complete with DRO, poll clerk and scrutineers.

The result, at Concord as in the rest of Canada, was a clean sweep for the Liberals. Final count gave the Liberals 110, Progressive Conservatives 39 and NDP 29.

"There was also one vote for Mrs. Taylor who ran as an independent," advised Principal Brian Robinson who spared no effort to see that the democratic process became meaningful for the children at the school.

In spite of his youth, some have accused Liberal Leader Allan Gambell of being an old-time politician—he promised a four month summer holiday and higher taxes on all luxury items except candy!

Conservative Leader was Lee Pepper and Ian McLean was NDP chief.

Winthrop Laboratories Appoint Vice-President

Charles W. Birkett, M.D.

The appointment of Charles W. Birkett, M.D., to the position of Vice-President - Medical Director of Winthrop Laboratories is announced by T. R. Rider, president.

A resident of Maple since 1960, Dr. Birkett assumes his new position July 1st. Following his graduation from the University of Toronto in 1959 he went into private practice in the Maple area. He has been associated with Winthrop Laboratories in Aurora since 1963.

Dr. Birkett is currently an executive member of the Pharmaceutical Manufacturers' Association of Canada Medical Section and a member of the Paramedical Advisory Committee of Seneca College. In addition to retaining other medical association affiliations, Dr. Birkett serves his community as a Councillor of the Township of Vaughan and as a member of the Vaughan Township Planning Board and he is Past President of the Industrial and Commercial Association of Vaughan. Dr. Birkett also holds staff appointments at York Central Hospital, Richmond Hill and York County Hospital, Newmarket.

Pay Ambulance Costs

Ontario Hospital Insurance will pay the major part of ambulance service costs and offer other new benefits under expanded coverage beginning July 1.

If an ambulance is necessary to take a patient to or from a hospital, and is provided by a recognized ambulance service operator, up to 80 per cent of the cost will be covered by insurance, according to the Ontario Hospital Services Commission.

For a local ambulance trip of under 25 miles, patients will pay \$5 and the insurance will cover the remaining \$20. For longer trips, patients will pay 15 cents a mile for the portion of the trip over 25 miles, with insurance covering the remaining 45 cents. Maximum patient cost on any trip will be \$25.

New benefits include emergency air ambulance service, use of operating rooms for minor surgery and hospital facilities for out-patient treatment.

Two residents of Railway Street are, at the time of writing, patients in York Central Hospital. Gord Stephenson was admitted June 23 for surgery but his wife, Pauline reports he is coming along nicely and she expects him home before the long weekend is over. Janice Shields was admitted June 26 to have her tonsils removed, but came home on the weekend in time to celebrate her fifteenth birthday, July 1.

Young Karl Kantaroff, 43 Lancer Drive was a recent victim of chickenpox, but is back in circulation again.

Two recent patients in York Central Hospital were Mrs. William Cassidy, 48 Lancer Drive and Mrs. Bud McKee, Keele Street North, but I am glad to report that they have both returned home.

Mrs. Lester Downing Sr. and Mrs. Roy Munshaw were the hostesses June 27 at a baby shower for Peggy Downing and her new son, Peter held at 17 Railway Street.

Approximately 24 relations, friends and neighbors were on hand with some beautiful gifts. New daddy, Lester Jr. took the baby in for a few minutes so everybody could see him.

After the gifts were opened, the guests enjoyed a delicious lunch served by the hostesses with the assistance of little Ruthie Crosby, baby Peter's second cousin.

Volleyball Thursday (tonight) at 7 pm is the registration night for the senior girls and ladies who are interested in playing volleyball during the summer months in Maple Grove Park near the library.

Baseball commences Thursday (tonight) at 7 pm in the community park, Keele Street North, for the boys who registered with the Lions Club June 15.

Joseph Gibson School June 24, the grade 3 classes of Mrs. Aileen McVey and Mrs. Bonnie Ware took a trip to Bowmanville Zoo where they enjoyed watching the animals. It was a lovely day so they were able to enjoy their picnic lunches outside.

A very interesting trip was made June 26, by the grade 4

classes of Miss Judy Vokes, Mrs. Donna McPhail and Mrs. Dianne Gronfors and the grade 3 class of Miss Grace Walker to Fort St. Marie, Little Lake Park and the Huron Indian Village in the Midland area.

The children were given a guided tour and told the history of the fort and the Indian village and the bravery of the missionaries who served there.

It was raining when the buses left Maple but as the day progressed the weather improved, raincoats were not needed and the children enjoyed a picnic lunch. Several small souvenirs were purchased as mementoes of this journey into history.

This last week of school has been quite hectic for teachers,

parents and children alike as parties were in progress in one classroom or another most days.
