Unionville Trustees Study Thornhill Plan

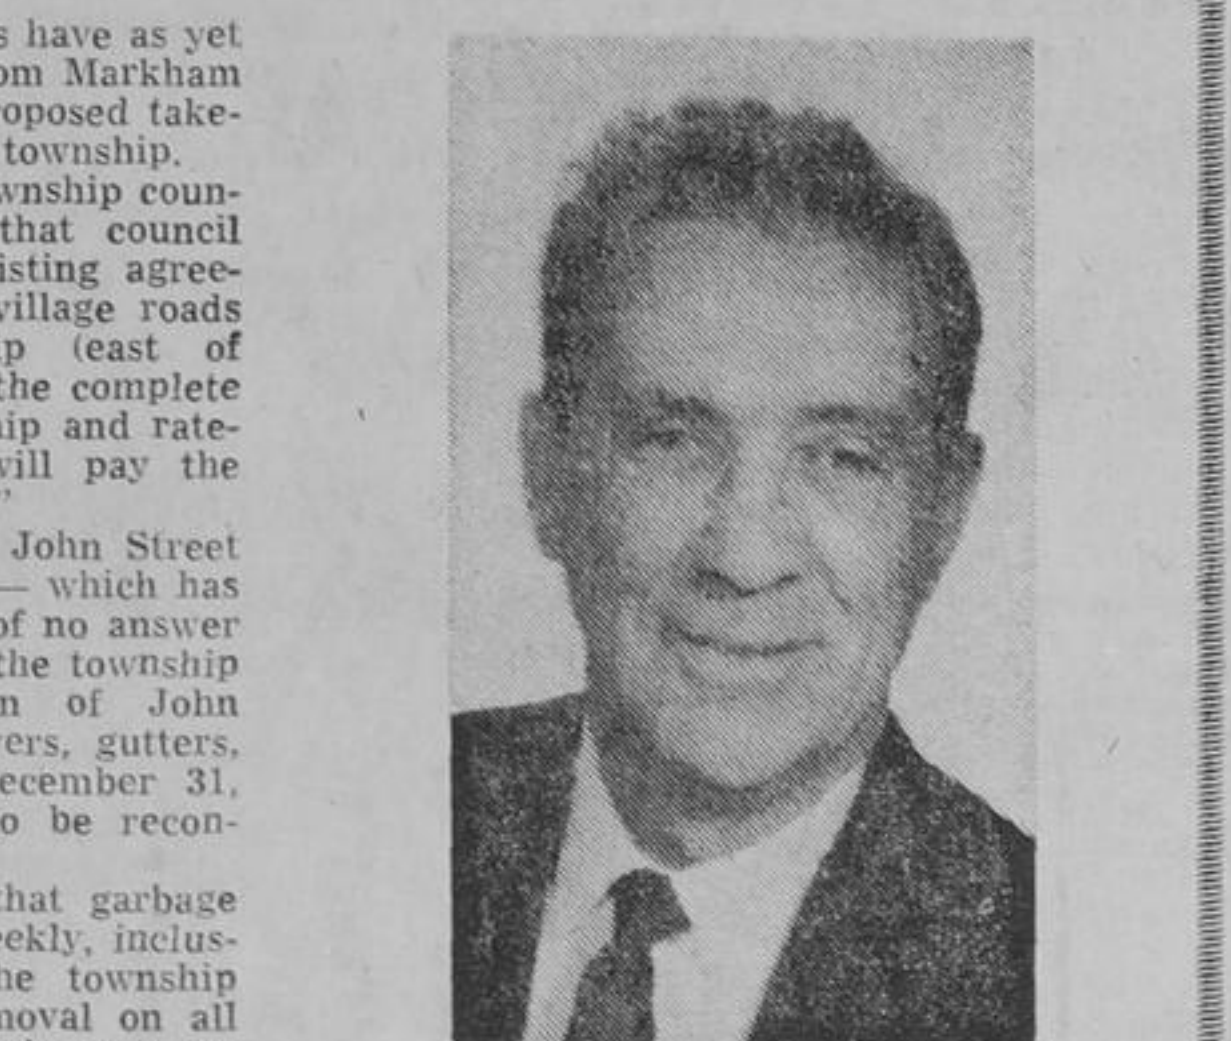

The proposed agreement between Markham Township and Thornhill Village Trustees concerning township take-over of roads and other services is of interest to Trustees of the Village of Unionville. Thornhill Trustees have suggested that with the township's assuming responsibility for roads, village residents would pay the general township road levy. In return they asked that the township provide garbage pickup, improve village lighting areas and improve certain roads within a specified time. Unionville Trustees instructed the clerk to send for copies of the Thornhill - Markham agreement when it is drawn up, for their perusal.

Village Fire Prevention

If you ever notice any village resident approaching a barn or stable with a cigar, you might advise him of Subsection 5 of Section 509 of the Ontario Municipal Act. This clause, brought to light by Deputy-rev. S. J. Gadsby at a recent meeting of Markham Township Council, specifies that: "No person shall enter a mill, barn, outhouse or stable with a lighted candle or lamp, unless it is well enclosed in a lantern, nor with a lighted pipe or cigar, nor with fire not properly secured, under a fine of \$1." Mr. Gadsby was searching for an effective clause for an open fire-prevention bylaw for the township when he came across this particular gem. Villagers might be interested to know too, that subsection 2 of this same section requires that "Every householder shall provide himself with two buckets fit for carrying water in case of accident by fire, under a fine of \$1 for each bucket not so provided." The regulations are contained in Chapter XXII of the Municipal Act, dealing with police villages.

Village Trustees Ask Twp. Assume Roads, Lights, Garbage Collection

Thornhill Village Trustees have as yet received no official word from Markham Township concerning the proposed take-over of village roads by the township. The trustees wrote the township council early in July asking that council "consider amending the existing agreement with the intent that village roads within Markham Township (east of Yonge Street) will become the complete responsibility of the township and rate-payers within that limit will pay the regular township road levy." Other requests were that John Street be resurfaced immediately — which has already been done in spite of no answer having been received from the township — complete reconstruction of John Street, including storm sewers, gutters, curbs and sidewalks by December 31, 1969. Other roads were to be reconstructed within five years. Trustees also suggested that garbage pickup be supplied twice weekly, inclusion of village lights in the township lighting area and snow removal on all roads in the Markham portion of the village. Trustee William Judges, who was appointed this spring to fill out the unexpired term of Trustee Frank Tucker who resigned, agreed that the assumption of these responsibilities by the township signalled the demise of the police village as a political entity. Vaughan Township earlier this year proposed that it take over village roads on the west side of Yonge Street, but the trustees do not wish to consider this until the matter is finalized with Markham. "Then we want to see the best kind of a deal we can get," said Mr. Judges. The trustees would like to see some improvement to Arnold Avenue,

WILLIAM JUDGES New Village Trustee he said, and to have the poor drainage corrected at Arnold just west of Yonge Street. Mr. Judges felt however that large scale amalgamation of some or all of the Southern Six municipalities is approaching and that a police village is an anachronism under the circumstances. Mr. Judges, sales manager at Richvale Ready Mix, previously served four years as a trustee and was chairman in 1965 and 1966. Other trustees this year are Chairman Reg. Robinson, Thornridge Drive and Eric Cole, John Street.
