

CARL GREEN

Wins Scholarship

A third year student at the School of Mines, Northern College of Applied Arts and Technology, Halleybury Campus, Carl Green, has been awarded the Patini Scholarship valued at \$150 on the basis of his performance during the fall semester.

Carl, a graduate of Richmond Hill High School, is the son of Mr. and Mrs. George Green, 212 Weldrick Road. He won a similar award last year.

Willowdale Man Wins Ski-Doo

A Willowdale man, F. H. Buller of 16 Michigan Drive, was the winner recently of a Skidoo draw sponsored by The Richmond Hill Junior Chamber of Commerce.

The ticket was drawn by Miss Sharon Moynes of Maple.

Jaycee member Bill Street presented the keys.

The 18 horse power Skidoo was supplied by Reliable Mower & Marine, Richmond Hill.

Vaughan Twp. Okays Rd. Material Sources

Vaughan Township Roads Department should be well prepared to cope with the annual rush of road work brought on by the spring break-up and with maintenance throughout the rest of the year. At its February 24 meeting township council accepted its work committee's recommendations for acceptance of tenders for road materials.

Two tenders for 5 1/2" crushed gravel from Connor Transport Limited at \$1.40 a ton picked up, and from Indusim Limited at \$1.90 a ton picked up were accepted since in some instances it would be more economical to pick up the material from the latter's pit than from the former's. The tender from the Gormley Sand & Gravel (\$1.25 per ton from the Brampton pit and \$1.20 from the Whitechurch pit) was returned since that company had not included a deposit cheque which was one of the specifications of the tender call.

Two tenders were also accepted for the 22% calcium chloride brine solution because of problems of supply in previous springs. Those tenders were Miller Paving Limited .0930 per gallon and Vaughan Minerals .0950 per gallon. Material will be purchased from the latter only when the former is unable to supply the required quantities when needed. These were the only tenders received for this material.

Indusim will supply 5 1/2" crushed limestone at \$2.25 per ton picked up; W. A. Ryder Paving Limited will supply DHO primer at \$1.96 per gallon (delivered and applied); Miller Paving Limited will deliver and apply 35% calcium chloride at \$1.545 per gallon; and Royel Paving Limited will deliver and apply RT2 Tar Primer at \$2.09 per gallon.

No tenders were received in response to the advertisements for concrete sand with chips, so invitations to tenders were sought from seven firms. Four tenders were received and that of Crawford-Ontario Sand and Gravel at \$1.10 per ton was accepted.

Deputy-reeve Albert Rutherford declared his interest in these decisions and did not vote on them.
