Maple and Thornhill Police Villages will retain control of their roads and will continue to be exempt from township road levies as the result of a decision by Vaughan Township Council at its February 24 meeting.

Council decided on a recorded vote to instruct its solicitor to inform the Municipal Board that the township is withdrawing its application for approval of proposed amendments to standing agreements between the township and its police villages.

Reeve Garnet Williams, Deputy-reeve Albert Rutherford, Councillors Lou Wainwright and John Gilbert voted in favor and Councillors Gordon Risk, David Fraser and Dalton McArthur voted against this recommendation.

Under existing agreements the police villages do not pay the overall road rates, which in 1968 amounted to 15.3 mills. The a village rate in 1968 which, in the case of Maple, raised approximately \$22,000. This money was spent on the village roads, on street lighting, sidewalk snowplowing, parks and recreation. Maple Village Trustees also turned back to the township \$5,000 towards its overall roads program.

The proposed amendment to existing agreements would have eliminated this exemption from township road levies. Maple Village Trustees objected, stating this move would force them to levy an additional mill rate to take care of their other commitments.

This it was claimed would bring about the demise of the Police Village of Maple since it would make it more expensive to live in the village than in the rest of the township.

No representation from Thornhill was present at the last two meetings of Vaughan Council when the matter was discussed. It was suggested by Councillor Fraser that satisfactory agreement could be reached on the matter with that police village since it has villages levied 15.3 mills as already reached an acceptable agreement with Markham Township, Thornhill is situated partially in both townships.
