### Investigate Cause

## \$10,000 House Fire Ends Months Of Labor, Hope

Months of work renovating a Victoria Square farmhouse went up in smoke in the morning darkness March 7, leaving a very sad and disappointed Toronto family.

Machinist Frank Starecki of 16 Lauder Avenue had been working since last October on the five-bedroom frame house on Don Mills Road, three-quarters of a mile north of the Markham Township hamlet.

Richmond Hill Fire Chief Alfred Stong estimated the house was worth \$18,000 and suffered \$10,000 damage.

The Ontario Fire Marshall's office has been asked to investigate the 3:50 am fire, which apparently burned independently in two different parts of the house, said Fire Chief Stong.

Fire began at the foot of the cellar stairs and burned the stairs. Fire also began in an attached section of the building and entered the house itself at the roof, he said.

The Starecki family postponed moving into the house last summer because of the marriage of their elder daughter and were waiting until this summer to move in, so their younger daughter could finish her year in public school.

There was insurance on the house. The fire report was radioed from a passing taxi, telephoned to Markham Township Police, and relayed to the Richmond Hill Town Fire Department.

Thirty firemen from Richmond Hill, Stouffville and Unionville fought the fire for three hours.

Several fires in houses and barns in Markham and Vaughan Townships during the past few months have been referred to the Ontario Fire Marshall for investigation.

Three vacant houses and four barns have burned since January 1 in Markham and Vaughan Townships. Nothing conclusive has been turned up in investigations so far, Stong said.

Stong said the Ontario Fire Marshall's office, working on the latest fire this week and hadn't requested the assistance of Markham Township Police at last report.

The Starecki family purchased their property in Markham Township about 3 1/2 years ago. Mr. Starecki was last in the house three days before the fire. Painters and paper hangers had recently been working in the building.

Mrs. Starecki said her husband was terribly upset about the fire because he had been working on the building during all his spare time, day and night, all winter. They didn't think the house could be fixed now.

Firemen had to stay on the scene for a long time because the house was insulated with what appeared to be sawdust
