

# High School Sports

## James Ball, Top Track Star

James Ball, 18, of 461 Lynett Crescent, Richmond Hill, is a recent honor graduate of grade 13. But this Bayview student has done a lot more than attend classes and study for exams. He has also been an outstanding member of the track team, among other things.

Jim says that he has always participated in track and field events during public school. "I started to take running seriously after I won the Rose Bowl Road Races in grade 8. The victory surprised everyone, but no one was more surprised than I was." (The Rose Bowl is an annual event held in Richmond Hill — excluding this year — which draws top runners from all over. There is also a special event for local public school boys, and ladies' race.)

Jim's favorite distance is the half-mile, although he also enjoys running the 440 and cross-country. He does have an advantage for running the quarter and half-mile races. He has long legs and therefore these distances suit his "natural physique". Although Jim enjoys running cross-country, he states that he has never been in top shape for a cross-country race, for the simple reason that he tends to develop extremely sore legs from running on the roads.

Last summer, this young runner ran for the York Pioneer Track Club and he is presently running for the Etobicoke Track Club. After University, he intends to keep on running for two reasons. One — to keep fit, and two — because he enjoys running. He is going to be a Phys. Ed. instructor, so he will get lots of running in with his job.

As far as relays are concerned, Jim says "I enjoy participating in relays (medley, where he runs a 440 or 880 leg) but I prefer the individual effort. I tend to run a better race if all the competition starts at the same time."

By now, you probably think that Jim is only a track man. Well, he isn't. He enjoys almost every sport but he "rarely finds time for anything but golf and swimming since the track season lasts almost a full year." He played centre for the junior basketball team for a season. In grade 11 he played end on the football team, and in grade 12, he played fullback of the football team. He has also been on several school golf teams. Jim is also very active in intramural sports and in helping out in the phys. education department.

By Pia Schenk

In grade 11, Jim was chosen, by the phys. ed. department, to attend the Ontario Athletic Leadership Camp. One boy and one girl is chosen from grade 11, each year to attend this camp. Only two representatives are allowed per year, per school. To get chosen, one must have presented outstanding leadership abilities in the time previous to the camp registration. Hard, sincere work is needed before, during, and after the camp.

Also in grade 11, and again this year, he was awarded the Athletic-Academic Award. This award is given to the boy who is not only an outstanding athlete, but also a top scholar. In other words, it is presented to the boy who is best able to combine his athletic and academic work throughout the year.

Jim has a very good comment to make about high school track. "Track competition north of Toronto is rapidly improving, but we are still behind the calibre which is exhibited in the Toronto district. There are several reasons for this, but the main ones are probably a lack of track clubs outside of the schools, and a lack of top calibre facilities. Because of these situations, many athletes do not realize their potential and end up dropping the sport completely."

Whatever happens to other runners, Jim's coach, Cliff Nuttall, holds a great deal of hope and pride for Jim. "He's great, he's got all sorts of possibilities", states Cliff. "He's a hard worker, and he will go a long way."

There is presently a possibility that Jim will be given a scholarship to the University of Michigan. If Jim is not accepted at Michigan, he will probably attend Western, to which he has already been accepted. In either case, he will major in Phys. Ed.

There is a lot of good things that one could still say about Jim Ball, but then I would end up with an entire page, instead of a column. Those of you who already know Jim, know what I mean. Speaking for all of us — The best of luck in the future years Jim!

### Just Notes

School is now over (yay!!!) and as a result high school sports have drawn to a close. Therefore, my job is just about finished. However, next week, I hope to write up an interview that I have with Helen Sheviak, who for the second year in a row was presented with the Outstanding Senior Athlete Award.

Also best wishes are extended to Bruce Watier and Ken Sullivan who were chosen to play in the classic East-West Football Game.

Ted Cooper, Bayview's wrestler, will travel to Calgary at the end of this month to try for the Canadian 106 pound championship. Ted was champion Zone 6 wrestler. From here, he won the Georgian Bay Championship, which qualified him for the All-Ontario Wrestling Tournament, in which he also won his weight class.

He then travelled to Montreal with the Ontario team and wrestled against the Quebec team, where he also won his weight class. It looks as if Ted has an excellent chance for the Canadian championship. At any rate, we are all keeping our fingers crossed for him.

Four members of the Bayview Field Hockey Team are attending a field hockey seminar at York University this week from June 21 to 26. They would like to express their appreciation to Miss Diana Martyn, their coach, for spending so much time with the team, and indirectly making this fantastic opportunity possible.

Congratulations are extended to Mac Smith who placed third in the high jump at the All-Ontario Track and Field Meet. Mac, a Richmond Hill High Senior, jumped 6 feet 4 inches.

(Pia Schenk is a Grade 13 student at Bayview Secondary School)

## Beware Of Rabid Foxes In Area!

An important warning is issued by Canine Control Officer James Ryan this week that many foxes in this area are rabid.

Children should be warned to give any animal acting strangely a wide berth — not to handle them or come in contact with them. Adults receive the same warning and are asked to phone either the police or Canine Control Kennels immediately. A phone call will bring someone with necessary experience and equipment to handle the animal safely.

The fact that foxes are seen in populated areas in daylight hours is peculiar behavior and a strong indication that they may be rabid.

Recently a dead fox was found on Bayview Avenue and Mr. Ryan was called to deal with another which had sought refuge under a car in the driveway of a residence on the east side of Richmond Hill.

Thursday of last week an obviously ill fox, which had been handled by at least three children in the Gormley Sideroad area was brought to a local veterinarian. By Friday morning it had died, displaying symptoms of advanced rabies.

To save yourself and your children from the misery of the Pasteur Treatment for rabies, if you see a fox on your property get the children indoors and keep them there and phone the police or Mr. Ryan immediately.

Remember, rabies in humans is fatal. There is no cure, unless the Pasteur treatment (which can be very painful and have severe side effects) is started within a few days.

## NOTES TO FINANCIAL STATEMENTS for the year ended December 31, 1969

# 1. Statement 1. Charges for net long term liabilities Total charges for the year for net long term liabilities were as follows:  
Principal Payments \$ 189  
Contributions to the debt retirement fund of O.W.R.C. 2,857  
Interest 8,174  
**\$11,220**

Of the total charges shown above, an amount of \$222. was paid from specific taxation under The Tile Drainage Act and an amount of \$10,998. from specific levies against property owners and from revenues of the Water Area.

# 2. Contingent liability Under the sick leave benefit plan, the liability for accumulated days as at December 31, 1969 is calculated to be \$47,474.22.

During the year, payments to employees retiring in the year were charged to the expenses of the year following the practice of former years.

# 3. Net long term liabilities to be specially assessed. Under the Tile Drainage Act against the owner \$ 642

Against the property owners in the Water Area and against revenues of the Water Area (less future interest credited on the debt retirement fund held by O.W.R.C.) \$125,201

The contingent liability for debentures issued by the Municipality for school purposes and assumed by divisional boards of education as of January 1, 1969 was \$994,020.
