We are moving towards the end of the current

The other great economic problem is that of

least bad of several options. To a large extent the

Canadian inflation is an offshoot of the United

States inflationary situation, and the government's

ability to combat inflation is limited by the forces

traditional and highly unpopular methods for com-

batting inflation. They have used two general

techniques: (1) tight tax policy, creating a tax

surplus to siphon purchasing power out of

economy, (2) restricted monetary policy, cutting

back expansion through high interest rates. But

increasingly there has been the view that it is as

much high costs as excessive demand that has pro-

dollar on a floating exchange base, in an attempt to

isolate to some extent the Canadian economy from

been a rise in its price in relation to that of the

United States. This reflects the fact that the Can-

adian economy is strong, and attracting large

flows of foreign funds. The Canadian dollar is rel-

atively more in demand than in the past, and the

holders of foreign currency must pay more to pur-

AUDITED FINANCIAL STATEMENT AND AUDITOR'S REPORT - 1969

The Ratepayers,

The Corporation of the Town of Richmond Hill, Ontario.

In accordance with the terms of our appointment, we have audited the books and records of The Corporation of the Town of Richmond Hill and its Boards and Commissions for the year ended December 31, 1969. We report on the attached financial statements as follows:

REVENUE FUND BALANCE SHEET

Cash on deposit in the various bank accounts of the Town and its Boards and Commissions at December 31, 1969 was verified by direct communication with the depositories.

The current operations of the Town of Richmond Hill for the year ended December 31, 1969 resulted in an excess of Revenue over Expenditure of \$179,556 as shown on the Statement of Revenue and Expenditure. GENERAL

The tax roll was audited to the extent we deemed sufficient with respect to the accounting for current taxes collected. The tax arrears collections were examined in detail and the subsidiary ledger was agreed with the control accounts. Verification letters were sent to all taxpayers shown by the records to have been in arrears of taxes at December 31,

The assessment roll was checked for mathematical accuracy, but no attempt was made to ascertain whether all taxable property in the Town was included in the assessment roll.

We have examined the surety bonds carried on the officials of the Town, and, in our opinion, the amounts of the sureties are sufficient and the type of bond carried is adequate. It should be noted that no fidelity bond was carried on the Treasurer of the Public Library Board at December 31, 1969.

We hereby report that in our opinion

- 1. The financial transactions which have come under notice have been within the powers of the municipality.
- 2. The audit has been conducted in accordance with the instructions of the Department of Municipal Affairs.
- 3. The financial statements present fairly the financial position of the municipality as at December 31, 1969 and the results of its operations for the year ended on that date.

Liability for Sick Leave Benefits

Under the sick leave benefit plan, unused sick leave can accumulate and employees may become entitled to a cash payment on termination of service. The liability for these accumulated days, to the extent that they could be taken in cash by an employee on terminating, amounted to \$79,454 for the town and police commission employees and to \$15,487 for the employees of the waterworks department at the end of the year.
