August 10 to 14

Tulsa Youth To Conduct Local Vacation School

The vacation school at St. John's Baptist Church, 75 Oxford Avenue, Elgin Mills, from August 10 to 14 promises to be a real swinging affair for youngsters 4 to 14 in the Richmond Hill area.

The vacation school, which will be operating daily from 9:30 to 11:30 am, has been scheduled to coincide with a visit from the 60 young people of the Senior High Missionary Tour Group from Tulsa, Oklahoma. The group's chartered bus will be picking children up at public schools each morning to take them to the church, then returning them after their two hours of games, crafts, stories and music.

The touring group of students age 15 to 18 will spend about a month in the Metro area, conducting vacation schools at Blythwood Baptist Church in Toronto, Yorkview Heights Baptist Church in Willowdale, and finally at St. John's.

They will also be visiting Oshawa, Niagara Falls, Chicago, Cleveland and Louisville during the month of August.

In the past three summers they have conducted vacation schools and presented concerts and sports exhibitions in New York City, San Francisco, and Reno, Nevada.

There are two sub-groups within the group — a 20 member Pop-Rock folk group, and a basketball team of 12 which plays exhibition games with local teams as they travel.

Originating from First Baptist Church in Tulsa, the young people will travel in two chartered buses.

On their first day in Richmond Hill — August 10 they will open the vacation school, providing transportation for local children and supplying all the crafts materials needed for its operation.

They will have supper at Bruce's Mill Conservation park on Gormley Sideroad, and local residents are welcome to join them providing their own food and transportation.

Former Hill Minister In Charge Of Refreshments At Convention

John MacPherson, a former Richmond Hill minister, and his wife, Margaret, have been selected to assist in the organization of the "Men Of Goodwill" district assembly of Jehovah's Witnesses to be held in Toronto, July 30 to August 2.

Mr. MacPherson will be in charge of the refreshments department. He will do the purchasing and organize the dispensing of refreshments during the convention.

He has described the convention as a seminar of Bible instruction for all members of the family. "Aiding them to see how Bible principles still apply in human relationships." He said that when this is done it not only promotes goodwill among men but wins "God's goodwill — and that is essential for surviving the present crises that threaten man's future."

The four-day program will consist of talks and dramatic presentations. The featured public address will be "Saving The Human Race — in the Kingdom Way". It stresses the Witness conviction that the kingdom of God as an actual government will preserve the human family through current crises to live in peaceful earth in the immediate future. In addition to English, there will be full sessions in Italian and limited sessions in Greek, Spanish and Portuguese.

Boiling Hot Fat Cause Of Third House Blaze

For the third time in two weeks a boiling deep fryer has caused serious fire damage to a Richmond Hill home.

Last week's fire was at 12:15 am July 23 at the home of Town Treasurer Mac Clement, 105 Mill Street.

Fire Chief Stong said damage to the home was estimated at about \$4,000, mostly confined to the kitchen area.

Vaughan Fire Department reports there were no serious fires in its area of Markham and Vaughan Township last week.

In a baseball game last week he reported, "For some weeks about 3,000 volunteers have been covering the entire Metro area to list accommodation for the delegates, especially in private homes. The commercial facilities have not been sufficient to take care of so many persons." Requests for rooms have come from most provinces and from 31 states.

The volunteer-worker arrangement also staffs the convention's 21 departments, ranging from cafeteria to first aid to lost and found. All have been found necessary to look after the many needs of the 16,000 expected to attend.

Mr. MacPherson began serving as an ordained minister with Jehovah's Witnesses in 1941. He presently serves as a circuit supervisor of 14 congregations in Southern Ontario. In the past his work has taken him to all of the provinces except Newfoundland and he will be taking up a new assignment in the Ottawa area, visiting congregations there to train Witnesses in their Bible education work.

Vaughan Township Studies Rebate Plans

(Continued from Page 1)
puter programming for calculation of the adjustments. This would involve costs for programming, interest charges for temporary financing and loss of revenue for tax penalties because instalment due dates will be later than usual.

Another drawback would be that if billing is delayed too long the remainder of this year's taxes might have to be collected in one instalment. Some taxpayers, it was reported, have already expressed concern over getting the final bill in one instalment.

It was pointed out that the county and education levies will be short in 1970, if tax write-offs are made under either Act, and in 1971 Vaughan will have to pick up its share, for write-offs in Vaughan and in other municipalities.

ASSESSMENT ACT

The assessment act has also been amended in an attempt to cushion the impact of reassessment on municipal property taxes.

A summary of the provisions of section 76 of the Assessment Act, with advantages and disadvantages, was also prepared by the township staff.

Under the Assessment Act a person may apply to the assessment review court (Administrator James McDonald assured council the township would make all applications) if council passes a bylaw authorizing each application and setting out a maximum amount of taxes that may be cancelled, for a cancellation, reduction or refund of taxes because of undue burden of taxes resulting from the general reassessment in 1968 or subsequent years.

In order to implement this section it will be necessary for the township to pass a bylaw each year of authorization.

Reductions allowed under this section will be charged back to the various bodies for which the municipality levies taxes such as school boards and the county. The municipality's portion of the tax writeoffs would have to be accounted for in the general tax rate.

Only the 2,200 properties on which taxes would be decreased would be affected. Those which have had decreases in taxes would not be touched.

The tax write-off in 1971 would be approximately \$536,000 and it is recommended that 28% of this (or \$150,000) be included in the 1971 tax levy. The balance would be charged to other boards of which Vaughan's share in 1971 will be approximately 20% and other municipalities 80%. Vaughan will be paying 20% of the tax write-offs of other municipalities using this section. There would be no cost in 1970 unless provision is made for anticipated tax write-offs.

The tax adjustment would be known in 1970 (and the ratepayers would just not pay the amount of write-off on their properties) but actual cost to the municipality would not occur until 1971. This would result in the amount of uncollected current taxes at the end of this year being abnormally high, it was noted.

If this section is used tax bills can be issued before the bylaw authorizing the tax write-offs is passed.

If programming is required,

Your promptness
in paying him is appreciated...

Your thoughtfulness in paying your Liberal carrier each month the very first time he calls to collect encourages him in prompt service. It saves him extra work for which he would receive no additional profit, and gives him more time for school and other activities. He begins collections on the last Thursday of each month after school and may continue them Friday evening and Saturday. This schedule is followed to provide you convenient service and best meet his school and study schedule.

Thank you!

At Ontario Hydro, research and safety go hand in glove

Ontario Hydro linemen don't wear rubber gloves for style or to combat dishpan hands but as a buffer against serious injury or death.

Unknown to the power users, the gloves also mean no service interruption since they enable a lineman to work on live wires without cutting the power.

Gloves are never used more than 60 days without a thorough going over at Hydro's research laboratories in western Toronto. After washing, a \$20,000 machine confirms their insulating standard. Then they are inflated to twice normal size and examined for pinpoint holes and scratches. If not perfect they are thrown out.

In use, even the gloves wear gloves. Leather gauntlets protect them from punctures from wire and wood splinters. The tiniest flaw could cause a severe electrical injury.

Be ready for summer heat with an electric air conditioner

Air conditioning for the office

Electric air conditioning provides a better working climate. Comfortable working conditions ease tension, increase output. Prove it to yourself this summer.

You'll enjoy summer so much more if you live in air conditioned comfort. Electric air conditioning lets you sleep better because nights are kept refreshingly cool. You work better too, because you've enjoyed a good night's sleep.

Electric air conditioning does more than just reduce the temperature. Humidity is lowered to a comfortable, healthful level. You're assured of a happier, healthier summer.

This year, don't let summer heat and humidity sneak up on you. See your appliance dealer now.
