### Thornhill's Candidates Queried On Recreation

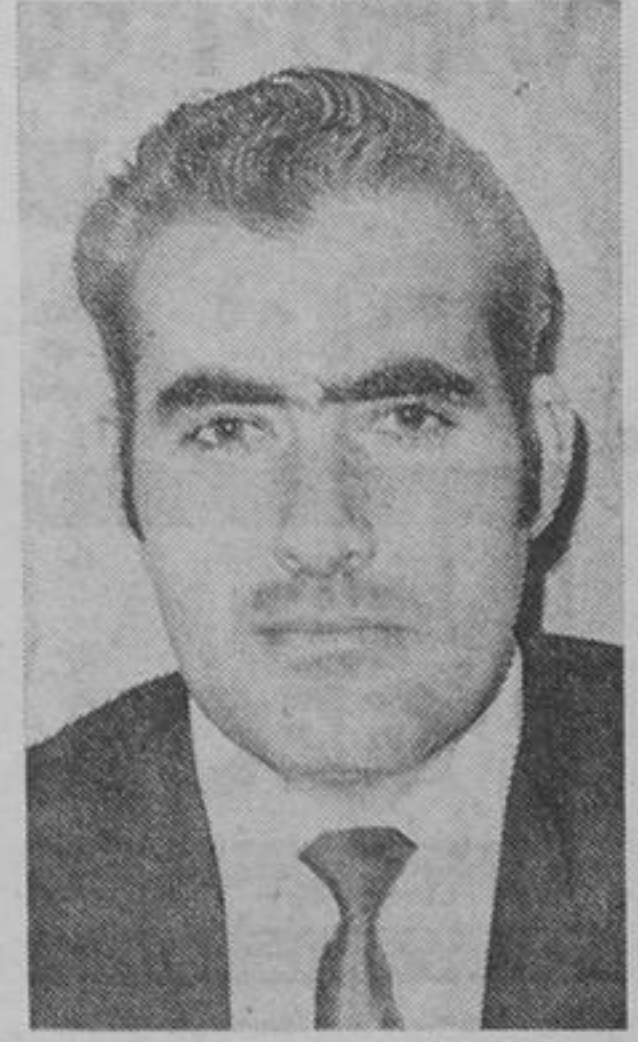

North Thornhill Recreation Association President Sam Masson has asked candidates in the October 5 Markham Town Council elections for an accounting on several recreation questions.  
He wants to know if an opportunity to provide a swimming pool in the new Thornlea Secondary School is going to be lost and he wants to know if the pool is going to be a fully useful community facility.  
"When the proposed swimming pool at Thornlea Secondary School was first broached by the York County Board of Education, a committee of swimming pool experts and knowledgeable citizens from all over Markham Township was formed as a sub-committee to the Parks and Recreation Board," says Mr. Masson.  
But the sub-committee's work was not brought to realization for months after its recommendations were apparently approved by all municipal authorities.  
Mr. Masson also wants to know if anything is going to be done to get additional park lands in North Thornhill.  
He says the recreation association softball program cost \$2,200 while the township contributed only \$150. He said a complaint about this made to the township in January still hasn't been heard.

# The minimum wage is going up.

An announcement on the new Minimum Wage and some improvements of Employment Standards in the area of job security.

As of October 1, 1970, the general minimum wage goes up to \$1.50/hour, and the construction minimum to \$1.75/hour. Then, on April 1, 1971, the general minimum jumps to \$1.65/hour, and construction to \$1.90/hour.

If your wage depends on the established minimum, get the whole story on the rising minimum wages by writing or phoning the Regional office of the Ontario Department of Labour nearest you.

At the same time the minimum wage goes up, new regulations come into effect to improve your job security.

For example, if you work for one of an associated group of companies and are assigned to another company in the group for a period of time, you'll get paid for any overtime you work just as if you were still working for the original company. All the other provisions of the Act apply the same way.

If, for any reason, your company closes down, all wages owed to you (up to \$2,000) have preferred claim against the assets of the employer.

The same rule covers any vacation pay you may have coming (vacation pay must now be held in trust for you by your employer).

How much vacation are you entitled to? The law says you must get at least one week's paid vacation after your first twelve months of employment, and two week's paid vacation after each of the next twelve months.

### Some new teeth in the law.

The Employment Standards Branch has the power to assess any money owing to you, either wages, overtime or vacation pay, and to collect it from your employer on your behalf.

Employers must also pay the Department a 10% penalty for withholding any money from you.

For the whole story on what these changes mean to you, write or phone your nearest Employment Standards Branch.

### I WANT FOR THE TOWN OF VAUGHAN:

- A continuation of a balance between industrial and residential assessment and a request for re-assessment to protect residents from a sky rocketing mill rate.
- Planned development with controls to ensure open space, first class educational facilities, pollution controls and improved services for all residents.
- A close liaison between the regional council, the municipal council and ratepayer organizations.
- A recommendation that in all future elections, the council for the Town of Vaughan, be elected by wards to ensure a town-wide representation.
