

Fall Color Tours Sunday

Care to take a walking tour through an autumn wonderland this Sunday?

The Metro Conservation Authority has arranged two fall color tours through the beautiful woodlands at the Glen Major forest and wildlife area and the Glen Haffy Conservation Area. Each starts at 2 p.m.

Glen Major is located about four miles east of the Village of Clarendon on the Whitby-Pickering Townline, and about 13 1/2 miles north.

Glen Haffy is located in Albion Township, 1 mile south of Mono Mills and Highway 9.

Each tour will cover about 4-5 miles of countryside, and those taking part will have an opportunity to walk amid the fall splendor of the outdoors, and also to capture on color film the beauty of the season.

The tour at Glen Haffy will commence at the south parking lot and proceed to the Glen Haffy extension known as "The Dingle". Hikers will be able to obtain a splendid vista of the entire countryside along the edge of the escarpment. On a clear day, one can see the buildings in downtown Toronto.

In addition to the special color tours, the authority has

Single Parents Plan Richmond Hill Chapter

North York Chapter of Parents Without Partners are starting their second season and will be meeting at 8 p.m. October 9 in St. George's Anglican Church, Yonge Street, Willowdale, opposite Northtown Plaza to elect officers for the 1970-71 year.

Already there have been several events for parents and children. A number of single parents from the new chapter and their children joined with other from Metro area PWP groups for a week end of camping at Boyd Park, Woodbridge, and many of the local adults were abroad for a moonlight cruise of Lake Ontario on September 11.

The North York Chapter's monthly dance at the Legion Hall on Sheppard Avenue last Saturday drew a capacity crowd, with guests coming from chapters in Scarborough, Etobicoke, Mississauga and Toronto.

The North York Chapter has attracted a number of widowed, deserted, separated and divorced parents from north of the Steeles Avenue border, and plans are underway for formation of a new chapter in the Richmond Hill area. Central Chapter President, Ruby Dennett, 118 Roseview Avenue, Richmond Hill, reports that meetings have already taken place, and she is looking for people interested in taking an active part in planning the new chapter.

AUCTION SALE of HOUSEHOLD FURNITURE

Philco refrigerator, McClary-Easy Electric Stove, 17" RCA TV in good condition, 2 cheserfields, Small china cabinet, Kitchen table and chairs, G.E. washing machine, china glassware, Cooking utensils, 1969 Ford Ton Truck with hydraulic lift, 1966 Ford Fairlane 500.

Headford & District News

CORRESPONDENT: MRS. MARIE DUNLEAVY — Phone 884-3035

Neighborhood Notes

The news this week is being written while a six-week-old collie pup bites my ankles with needle-sharp teeth, chews my slippers and leaves puddles of various sizes all over the floor. This 5 lb. mite is the latest addition to the Dunleavy household.

Jean and Cummer Lee have returned from a glorious holiday in England, Scotland, Sweden, Denmark and Holland. In England they visited Winchester which was the first capital of England and the Cathedral there, where King Alfred is buried is absolutely beautiful. They also toured London and Stratford-on-Avon and saw Shakespeare's home and Ann Hathaway's cottage. They found the walled city of Carlyle particularly nice and the winding roads and stone fences throughout the countryside make it very picturesque.

In Scotland they stopped at

Glasgow and Edinburgh and saw both Edinburgh Castle and Holyrood Palace, where the Queen often has garden parties. Tivoli Gardens, the statue of the Little Mermaid, Hans Christian Andersen's home and a tour of Hamlet's Castle were all highlights of their time in Denmark. But perhaps the best part was when they were invited by their guide to have a Danish Christmas Dinner at his farm. He had been away at Christmas time, so he asked his parents to have Christmas when he was back in Denmark with the tour.

Sunday school classes at Headford United Church will resume at 11 o'clock, October 4. Marilyn Rumble is taking a four-year course in "Library Techniques" at Seneca College, which she is finding extremely enjoyable.

On Saturday evening the Headford Ladies' Baseball team had a corn roast at the home of Captain Anne Clark. In spite of a little rain it was a very successful evening.

However, the heavy rains last week did cause a great deal of trouble for the Elmer Leek family. Part of the east wall of the basement of their new home

collapsed when the ground became saturated. Fortunately, the house above was undamaged and with a little luck and some dry weather, everything will soon be back in shape.

Church News

On Sunday morning the congregation of Victoria Square United Church helped the Headford United to celebrate its 90th anniversary. The guest speaker was the Rev. John Hunter of Aurora United Church and the choir sang two hymns especially prepared for the occasion "Unto Thee" and "Peter".

In the evening, there was a short service, then Mr. and Mrs. Martin Jenkinson showed slides taken on their recent trip to Oberammergau, Austria and told the story of the Passion Play there. Refreshments were served which ended a very busy day at Headford United.

CARRVILLE NEWS

525 Carrville Road

Church News

Carrville U.C.W. will hold their October 7 meeting at the home of Mrs. Helen Baker, 55 Starlight Crescent, Richmond Hill.

The Carrville United Church choir will resume practice October 1 at 7:30 pm at the church. All young people are asked to come out for their first practice.

The annual turkey supper is planned for October 28. This year it will be served in a little different style. You will help yourself along the lines of a cafeteria, with takeout orders available.

Neighborhood Notes

Stan Wood had a narrow escape last Thursday evening when his house was hit by lightning during the electrical storm. This caused a fire which gutted the main hallway, blocking off the door as an exit. Stan escaped through a bedroom window.

I hope I will be able to do that and go for help when I am 75 years young.

Andrew and Stan are staying

with the Frank Purves family next door until his house is back in order.

The senior citizens of the Richvale district were happy to welcome back Harry Silk.

Everyone is invited to attend the seniors' bazaar November 14, not the birthday part on October 14, which is for members only.

Sympathy of the community is extended to George Veitch and family in the passing of his father, David Veitch, in Brandon, Florida.

Mr. and Mrs. Jack Barton of Bathurst Street were surprised September 27 when the family arrived with a cake, chicken and salads to help celebrate Jack's 67th birthday and the couple's 44th wedding anniversary. John and Jan Barton were also celebrating an anniversary. Also present were Bonnie, Douglas and John, children of David and Jean Barton, Myra Jane and Betty Anne, children of Beth and Dean Wilson.

CHRYSLER DODGE LTD.

Yonge at Elgin Mills Richmond Hill

Keeping a new car new is more than just a Saturday wash job.

Some people are under the impression that keeping a car clean is the best way to keep it looking new and rust free.

Nothing could be further from the truth.

There is only one way to make sure your new car is protected from corrosion and rust. And that's with Ziebart Auto-Truck Rustproofing.

Ziebart has been in the rustproofing business since 1953. And although we've inspired imitators, we know that we're the only ones who can keep our promise to protect your entire car from rust.

How rust begins.

In order to appreciate the Ziebart process, there are a few misconceptions about rust that must be cleared up.

- All rust is caused by the reaction of air and moisture on metal. These are two things impossible to avoid.
- The most dangerous rust starts on the inside of your car, in hidden seams, crevices and hollow areas.
- Most people believe that salt is the major cause of rust. This is not so. Salt will not cause rust by itself, but it accelerates rust and will quicken the damage.
- Keeping a car in a heated garage during the winter causes the car to rust even faster. This is because the ice that would normally remain frozen outside melts and the water seeps down into critical hollow areas.

Washing your new car has the same seeping effect.

Since rust starts from the inside of your car, it follows that in order to prevent rust, you must protect every critical hollow area with a chemical barrier that stops the moisture from getting to the metal. It's this exclusive chemical barrier that makes Ziebart the finest rustproofing anywhere.

All this care and concern with the quality of the rustproofing job we do makes it possible for Ziebart to guarantee that your car will not rust through for 10 years, no matter how many miles you put on it, if you have it Ziebarted before it is driven 3,000 miles.

What Ziebarting can mean.

The benefits of the Ziebart process are not only cosmetic.

As well as giving you the opportunity to drive a new looking car for a lot longer than you thought you could, Ziebart can make your car safer.

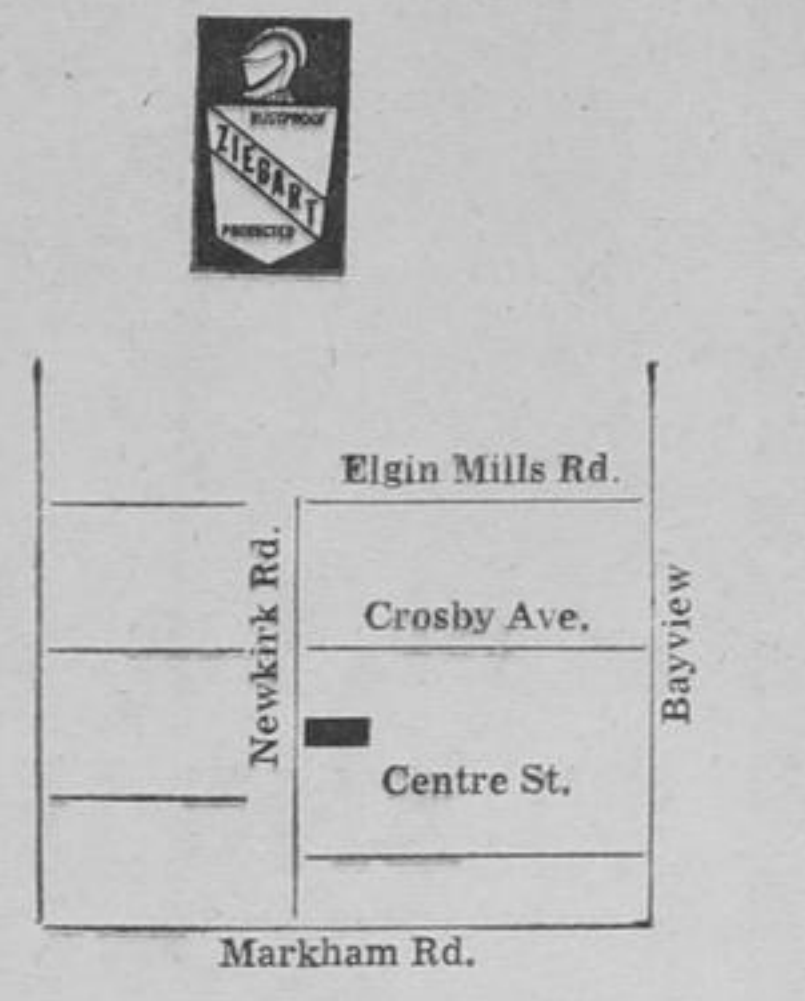

Although you can't see it, rust on a three- or four-year-old car has already begun to eat away at vital mechanical parts. A three-year-old hydraulic braking system can fail when weakened by rust.

Many men give the car to their wives when it's three or four years old. If the car has not been rustproofed, it could very well be a deathtrap because of the rust that's been accumulating since it was bought.

Another thought to consider is trade-in value. A car that has been Ziebarted and is in mint body condition can mean quite a few more dollars towards that new car four or five years from now.

Give Ziebart a call.

The Ziebart process takes a full day or more, admittedly longer than most "rust-proofers" because we do the job properly.
