

Maple, Kleinburg Concord & Edgeley News

"The Liberal" is always willing to publish items regarding people and events contributed by its readers in Maple, Concord, Edgeley and Kleinburg. Maple, please phone Mrs. Louise Cooper, 832-2408; in Edgeley and Concord, Mrs. Carol Cole, 889-4379; in Kleinburg, Mrs. Lucille Shaw, 893-1432.

LOOKING AROUND

Whoever found a pair of girls glasses last Tuesday on school bus L-16 can call 832-2526 and make someone very happy. The glasses, with brown frames and in a red case, were lost on Paul Page's bus.

We would like to wish Roly Keffler a belated happy birthday May 19. He celebrated the day with his daughters visiting him.

An outing was enjoyed thoroughly by Mrs. Rose Spencer, Mrs. Pearl Forrest, Mrs. Jean Miller, Mrs. Florence Rouse, Mrs. Lil Smart, Mrs. Velma Rutherford and Mrs. Florence Lewis, a group who got together during the winter for an afternoon of bridge. They went to the Royal Alexander Theatre where they saw a comedy "The Last of the Red Hot Mamas" and then enjoyed dinner at Honest Ed's Warehouse. The only member of the group who was unable to be there was Mrs. Phyllis Miller.

We were sorry to hear that Barbara Feehley of Railway Street, was in an argument with a school bus at the corner of Keele Street and McKenzie Road, and came out second best. Although not seriously injured, she was badly shaken up and frightened.

Senior Citizens
The main item of interest for the seniors at the moment is the planned two day trip to Kingston and Gananoque on June 21 and 22. Names are being taken by Percy Putterbaugh at 832-1114 and Mrs. Louise Cooper, 832-2408 for the rest of this week and early next week. Any friends of the Maple group who would like to go 564 miles driven. Mrs. Rose along are welcome to put their names in. As we mentioned before, the cost is \$21.00 per person, including motel accommodation, bus fare both ways

Story Of Town Of Vaughan Being Sold By Maple Women's Institute

Memorials to pioneers, farm improvement, and a comic skit were a few of the items on the program of the May 12 meeting of Maple Women's Institute, at the home of Mrs. Carrie Road. The new President Mrs. Gertrude Stephenson was in the chair, and the roll call was responded to by an exchange of plant slips, a "Thought For The Day," and the motto.
Mrs. Joan Jackson, who is in charge of sale of the book, "Town of Vaughan" told of various memorials to pioneers to be built in Maple.
Mrs. Ann Dewsbury gave a report of the WI convention. Highlights included discussion of "Farming, and how to get a decent wage and a fair deal," ideas for helping every member to be a "public relations officer," getting new members, and demonstrating an interest in the community by attending meetings of other organizations, such as the association for the retarded.
Mrs. Dewsbury also reported on the district annual meeting at Vellore and told of the doll display, the show of beautiful handwork, and the memorial service for the past members.
Mrs. Jean Jackson of Maple is the new district president, and Mrs. Agnes McCallum, the new district secretary.

Dawson's Astronomical Addition To Kleinburg

BY FAYE RIEGER
(Mrs. Rieger resides at Georgian Lake Farm, RR 2, King)
The planners of Expo 67 probably never guessed that an amateur astronomer's dream-come-true observatory would be modelled after one of Expo's rest room buildings. The "hexagon-shaped building at Expo" was the kind of strong construction that Eleanor and Sydney Dawson had in mind for the base of their backyard astronomical observatory in Kleinburg.
Now almost complete, the 35-foot high "Redcroft Observatory" stands unobtrusively on the south side of the Dawsons' three acre property, with its 1,400 lb. aluminum dome crowning the top. And on a clear night the Dawsons can truly see forever!
Mr. Dawson is a Simpsons-Sears buyer by day, and his family's most zealous astronomer by night. His desire to build his own observatory has been there since he can remember. As a small boy, he spent his leisure hours star-gazing — at a time when fishing was more in vogue. His interest was given im-

and the "Thousand Island" boat cruise. The cost of meals and any other sight seeing costs will be the responsibility of each individual.
On May 19, 19 members of the Maple group accepted the invitation of the King City 39ers and attended the band concert at the King City Secondary School. Those who attended returned full of praise for the band, their leader, and those who kept them continually supplied with fruit juice etc. during the performance and then served cookies and coffee afterward. Each and every one who went along enjoyed the afternoon immensely. Thanks also to the King City 39ers for thinking of them.

Cancer Society
Mrs. Joyce Elkins and Mrs. Lorna Clelland, campaign co-ordinators reported to the May meeting of the Maple Branch, that the branch objective had been reached.

Both chairmen were eloquent in their praise of the team, captains, canvassers, local industry, commercial establishments and residents of the area for making the 1971 campaign an overwhelming success.

The May meeting was held at the home of President Mrs. Lynn James, and the following reports were submitted.

Campaign — Mrs. Joyce Elkins and Mrs. Lorna Clelland reported that the branch objective had been reached, with a very successful campaign. Those present at the executive meeting were unanimous in voting their thanks to the co-ordinators on a job well done. Both ladies had taken over the campaign upon the death of Mrs. Ian Sheppard, the 1970 chairman. In the service to patients department, Mrs. Jean LaRiviere reported that dressings had been supplied to two patients. Mrs. Muriel Ross reported on transportation, that 14 trips had been made with a total of 564 miles driven. Mrs. Rose along are welcome to put their names in. As we mentioned before, the cost is \$21.00 per person, including motel accommodation, bus fare both ways

Phosphates Can Be A Benefit

Recently I visited Muskegon, Michigan, to study a new and what appears to be the most logical method of dealing with the sewage problems of the York Region.
Muskegon County has been alarmed about the deterioration of their lakes and rivers and of Lake Michigan, caused by waste waters from local pulp mills and inadequately treated domestic and industrial sewage. The area is now proceeding with a major new sewage treatment programme which should solve the total problem and help their local agriculture. It involves spraying the sewage effluent containing phosphates and nitrates over several thousand acres of land in the county, thus enhancing plant growth on land instead of algae in the water. The effluent, being chlorinated to kill bacteria, does not present a health hazard.
A few Muskegon environmental experts are concerned about the plan because the soil in the county is sandy and the water table is high. This creates some risk that the phosphates and nitrates will not be fully utilized and will continue to pass into the rivers and lakes as they do here. But these same people told me that most of the "highlands" north of Toronto provide an ideal area for effluent irrigation. Most of our soil is clay

and chronometers (different time clocks); a 1,500 book library, a charts and maps room; two sleeping bunks; and sometime in the future, a telescope costing approximately \$9,000. Mr. Dawson uses two Equatorial refractor telescopes right now, but since beginning his observatory in the fall of '69 has had little time for viewing.
Although he had no previous building experience, he is the mastermind of the entire project from drawing the plans to securing the dome. He had generous help from his friend Dr. Clarke Balmer also of Kleinburg. Mrs. Dawson and their four children Ian 16, Hugh 13, Wendy 10, and Nancy 8.
Dr. Balmer and Mr. Dawson dug the 10 foot wide foundation by pick and shovel to assure themselves of an inch! They had to be this accurate so that the dome, made in the U.S. to Mr. Dawson's specifications would fit on top. Also, careful measuring was necessary because the centre concrete pole which supports the telescope should not actually touch the building. Otherwise, any movement in the

Hansen reported on the pamphlets and literature that had been distributed. Three members of the executive had attended the annual Spring Tea at the Ryerson Polytechnical Institute, sponsored by the Princess Margaret Hospital Auxiliary.
Tom Knebone of the musical "Oh, Coward" was most entertaining, and presented three numbers from the play.
Guest speaker was actor William Gargan. Mr. Gargan has been a most valuable representative of the cancer society, both Canadian and American. A large cancer patient himself, he brings hope and the will to overcome a voiceless existence for many patients throughout the continent. It was a moving experience to hear this man keep an audience spellbound for more than fifteen minutes. He is a living testimonial to the speech therapy section of the cancer society, and a prime example of one who has overcome a tragedy, which had affected his career, and of course, his entire life. He has found a new career helping cancer patients find the strength to overcome their frightening problems.

It has been a rewarding experience for him and he is most grateful to the society for the help that they have given him.
Mrs. Margaret Brock has taken over the service to patients chairmanship from Mrs. Jean LaRiviere, who has had to relinquish her duties. The Maple branch is sorry to lose Jean's fine and untiring work. They now welcome Mrs. Brock and thank Mrs. LaRiviere for her efforts.

In memorial donations may be sent through Mrs. Eleanor Hamilton, phone 832-2370.
St. Andrew's Presbyterian
The May meeting of the St. Andrew's WA-WMS was held at the home of Mrs. Eileen Brice, May 19.
President Mrs. Pearl Forrest opened the meeting with a call to worship, following which the group sang the opening hymn.
Mrs. Janet Sutherland gave the Scripture reading, and in place of the regular study, Mrs. Forrest and Mrs. Brice gave a report on their recent weekend in Wingham at the Biennial Conference of the Presbyterian WMS.
Three coming events in the church were discussed, the barbecue for the adults of the church, May 25, the strawberry festival June 9, and the congregational and Sunday school picnic June 24.
After the business meeting was closed, lunch was served by Mrs. Margaret Andrew, Mrs. Marj Robson and the hostess, Mrs. Brice.
Testion United
The congregation of Testion United is beginning to plan for their anniversary Sunday, June 20, and for their strawberry supper, June 23. Two dates to keep in mind.
Guides and Brownies
On May 17, the girls and their mothers held their annual banquet at the community hall with 71 on hand.
Mrs. Millicent Knight, deputy area commissioner, asked the blessing before the dinner was served. Several enthusiastic comments were made about the turkey dinner, served by the ladies and young people of St. Andrew's. As well as Mrs. Knight, Mrs. Marion Currie, area commissioner arrived to share the evening.
Mrs. Dorrie Bothwell, district commissioner, received her warrant, although she has served capably and well during the past year while earning it.
After dinner a program of entertainment was enjoyed by

Phosphates Can Be A Benefit

Collectors badges were earned by Valerie Stephenson, Kim MacCallum, Caryl Bothwell, Heather Burgess, Valerie Murchison, Kerry Wilson, Gail Birkett, Michelle Fortin, Brenda Kucherawy, Sheila Milne and Carolen Burgess.
Joseph A. Gibson School
Just a reminder to all who appreciate art of the show to be held in the junior school, May 29 and 30 from 1:30 pm till 5 pm both days. The show is presented by Roy Robson together with Mollie Huggins.
George Bailey School
We are again asking for anecdotes or pictures for the school year book, for example, a paragraph or two from parents who have driven the students on their outings would be most welcome. From our experience this can be a most rewarding way to spend a day, and someone must have made observations that would be suitable for the year book.
Pictures of students at home or at school will be most welcome, in black and white glossy, please.

building would disturb the telescopic picture.
They are able to boast an almost all Canadian observatory except for some instrumentation and the dome which came from Jackson, Mississippi. Mr. and Mrs. Dawson, and son Hugh, made a 1,200 mile trip to Jackson to bring back the dome which they had ordered 18 months previously. It was a heart-stopping moment when the first attempt to fix it atop the hexagon tower failed. But it was soon discovered that the rotation wheels were in the wrong place.
The dome can rotate 360° and has a vertical door which when open reveals a magnificent slice of sky. Wendy and Nancy Dawson often go there even on the coldest winter nights just to enjoy the feeling of being on top of the world.
The Dawson family, through their study of the sky, know the importance of saving our environment from pollution. Mr. and Mrs. Dawson belong to an environmental awareness organization started by two astronauts called "Earth, I Care". And Mr. Dawson is particularly re-

sponsible for the kind of pollution most people are not aware of — electric light pollution. Too much light interferes with the clarity of the telescope picture. In fact, he claims that out of an entire year of different weather conditions, usually only two nights will be perfect for viewing. So his annoyance at light pollution is understandable.
Mrs. Dawson says it takes "The patience of Job" to be an astronomer and to undertake a project like this, but Mr. Dawson sees the observatory as the easiest way to pursue his studies. The amateur astronomer becomes discouraged by the tedious tasks of setting up and taking down his telescope. So once this project is complete Mr. Dawson and his astronomy-minded friends won't have to go to such trouble. They will be able to concern themselves solely with the study of the stars.
Mr. Dawson does not hope to discover a nova or a new comet. He knows that his efforts "may only glean a small amount of knowledge during our lifetime, but this lifetime will be enriched by the amount of knowledge acquired."

the assembly with a skit presented by the following Guides: Jill Bothwell wrote and helped direct the skit, played by Anita Granger, Shelagh Lippay, Brenda Kucherawy, Caryl Bothwell, Gail Birkett, Lorie Copithorn, Patti Ball, Della Jeske, Sandra Soderberg, Dawn Stroud, Cynthia Albin, Kerry Wilson, and Kim Taylor.
Valerie Murchison did an excellent dance, and she was joined by Valerie Stephenson for a skit called "Polly Had A Dolly." Gail Birkett and Caryl Bothwell did a poem which had been written by Caryl and also sang a duet.
Michelle Fortin, Della Jeske and Carol Mathewson sang together, and Michelle Fortin also played the piano.
Valerie Stephenson and Kim MacCallum sang a duet, and Tracy Myers recited a poem.
As their contribution to the program, the following Guides presented a campfire song: Jill Bothwell, Lynn Hoffman, Susan Hoffman, Norma Birkett, Lorraine White, Shirley White, Brenda Langley, Anne Wilmot, Sonia King and Christine Brown.

Christine Brown gave a piano solo and Norma Birkett sang "Raindrops."
Child care badges were presented to Norma Birkett, Sonia King, Shirley White and Brenda Langley, and four year stars went to Norma Birkett and Sonia King.
In the much larger Brownie group, a long list of stars and badges were presented including a first year star to Carol Mathewson, second year star to Valerie Stephenson, Dawn Stroud, Jackie Groundsell, Caryl Bothwell, Kim Johnson, Sandra Sharples. Third year star was to be given to Kathy Johnson, but hadn't arrived, and will be presented later.
Golden Bars were presented to Anita Granger, Kerry Wilson, Shelagh Lippay, Lori Copithorn, Sandra Soderberg, Cynthia Albin and Brenda Kucherawy.
Writers badges had been earned by Kim MacCallum, Caryl Bothwell and Gail Birkett.
Toymaker badges were awarded to Valerie Stephenson, Dawn Stroud, Caryl Bothwell, Heather Burgess, Tracy Myers, Lori Copithorn, and Gail Birkett.
Swimming badges were given to Kim MacCallum, and Tracy Myers.
Eleven of the Brownies had earned skating badges: Valerie Stephenson, Kim MacCallum, Caryl Bothwell, Heather Burgess, Valerie Murchison, Kerry Wilson, Gail Birkett, Michelle Fortin, Brenda Kucherawy, Sheila Milne and Carolen Burgess.

the students, under Mrs. Katherine Heffron, who presented the play "Three to Get Married", on May 14, did so very well, and put so much time and work into their production that we had received calls last week to see if they might repeat it for the senior citizens. With the cooperation of the principal, Russell Urquhart, and Mrs. Heffron, the students plan to present their play Tuesday of this week (May 25). They will have also given a second performance for students from Baythorn, McKenzie, Thornhill and Woodbridge Public Schools last Friday.

Tom Weidenfelder of Maple received honorable mention for his poster entered in the Ontario Humane Society Poster Competitions along with other entries. Of this number, Tom was one of three winners and 25 honorable mentions. Congratulations, Tom!

Erwin as bridesmaids. Their gowns were fashioned on the same style as the bride's, but with short puffed sleeves, and were all of yellow cotton ribbon lace with deeper yellow underskirts.
They wore matching mohair picture hats with a band of the same lace fabric and carried nosegays of deep blue iris.
The best man was Jeremy Milson of Toronto; Donald Erwin (the groom's brother) and Bruce Bone (the bride's brother) were ushers.
Receiving over 100 guests at the June 7 Country Club, Mrs. Bone wore a long gown of apricot diolen polyester brocade with matching headpiece of fabric flowers and ribbon. She carried a cymbidium orchid.
The groom's mother assisted in a guama frosted mint gown with beaded trim and a white cymbidium orchid corsage.
The bride's grandmother, Mrs. Gladys Keffler of Richmond Hill, and the groom's grandfather, James Erwin of Toronto, were honored guests.
After the reception, dinner and dance, the bride donned a yellow exopet nylon pant suit with hood lined with mauve velvet, yellow shoes and a mauve orchid corsage. After a honeymoon in Ottawa and Quebec, Mr. and Mrs. Erwin will live in Thornhill.

Erwin-Bone

Zion Lutheran Church Is Scene Charming Early Spring Wedding

Bouquets of yellow and white shastra daisies decorated Zion Lutheran Church, Maple, for the May 1 wedding of Maureen Elizabeth Bone to Robert John Erwin.
The bride is the daughter of Mr. and Mrs. Warren Bone, Concord, and the groom is the son of Mr. and Mrs. James Erwin, 249 Yonge Boulevard, Toronto. Rev. John Arbuckle officiated at the double ring ceremony.
The bride's cousin, Mrs. Reta Moore, played "Praise My Soul, the King of Heaven" and the wedding march.
Given in marriage by her father, the bride wore a white gown of peau de broche, with long sleeves and train. Hand appliqued lace adorned the sleeves, hem and trim. Her shoulder-length veil was held by a headpiece of flowers and leaves of the same fabric as her dress. She carried a cascade of a Catalina orchid with miniature white carnations and stephanotis. Her corsage was also white carnations and stephanotis.
She was attended by Mrs. Carolyn Naylor of Corunna as matron of honor, Tina Voigt and the groom's sister Debbie

Kleinburg Klarion

Neighborhood Notes
Faye Stanley is at home with the mumps missing all this lovely weather.
Judy Shaw broke a finger on her right hand playing baseball at school and she has a cast on her hand for a month.
Kleinburg Binder Twine Festival held a public meeting in the junior school May 6 with 27 persons present.
Chairman Gordon MacEachern welcomed everyone and turned the meeting over to Miss Penny Berton who showed films of some recent binder twine days.
Treasurer Norman Watson gave the treasurers report and answered all inquiries, a general discussion ensued with several proposals up for comment.
Officers for this year's binder twine are as follows: Chairman Gordon MacEachern, Vice-Chairman Warren Guscott, Treasurer Norman Watson, Secretary Mike Beven, Directors of Publicity Mrs. Janet Berton, Services Jack Lillie, Catering Warren Guscott, Women's and Childrens Exhibits Mrs. Arthur Irwin, Entertainment Norman Hall, Concessions Allan Wheelband, Special Exhibits Del Sweet, Festival Guide Geof Share, Security Jack Shaw, Youth Activities Miss Lynn Bevan.
