And I Made It Myself!

A fashion show presented by the grade 9 to 11 students of the home economics classes, Richmond Hill High School, received high praise from the 300 mothers and students in attendance.

The show with a professional gloss was produced and staged by the students, with about 50 girls participating with the settings, videotaping, table appointments and refreshments. Mrs. Patricia Robertson and Mrs. Faye Willis were the staff consultants.

The girls modelled outfits they had made in the home economics classes and received much applause for their efforts. In the above picture Diane Hodgson of grade 11 models her off-white and navy pant suit with matching accessories.

Catholic Schools On The Move In Great Variety Of Field Trips

Outdoor activities, excursions and field trips are playing an ever-increasing role in the programs of the schools in the Region of York, and at a recent meeting of York County Roman Catholic School Board, Assistant Superintendent John Zupancic reported on the extent of the program of education in 1970.

Trips described ranged from a five-day visit to Quebec city to walks in the neighborhood, to the firehall, a nearby store, or a neighboring field or stream for nature study.

In its 1970 budget, Mr. Zupancic explained, the board agreed to set aside \$1.50 per pupil for an estimated 4,300 children — a total of \$6,750.

In the report, outdoor education was classified under four headings: overnight excursions, and excursions and field trips during the school day, recreational activities, and local excursions or field trips.

The last mentioned are not generally recorded by administration because no cost is involved and the excursion is local in nature, Mr. Zupancic told the trustees.

Others, a total of 246, were itemized in a seven-page written report.

There were just four overnight excursions: grade 7 and 8 pupils from St. Patrick's School in Markham and from St. Joseph's School in Richmond Hill spent a week at the Conservation School at Albion Hills, and grade 7 pupils from Notre Dame School in Newmarket spent three days in Algonquin Park. The programs centred around science and conservation, and in the majority of cases the pupils raised most of the money for the trips.

The grade 8 pupils of St. Robert's School in Thornhill, through various independent projects and with help from parents, paid the greater part of the cost of their trip to Quebec City, and emphasis centered around the study of history, geography, language and music.

Most trips — 225 of them — fell into the second category, excursions during a school day. For this type, funds were taken from the excursion budget to pay for bus transportation and any fees involved. Youngsters from kindergarten to grade 8 were involved, and in some cases parents were asked to supplement the cost.

Places visited included the Centennial Science Centre, the historical restorations at Midland, a commercial dairy, Black Creek Pioneer Village, McLaughlin Planetarium, Kleinburg Art Centre, the Royal Ontario Museum, various conservation areas, music festivals, a sugar bush, various farms in York Region, local hospitals, Riverdale Zoo, Fort York, the Royal Winter Fair, Casa Loma, an atomic plant, a Jewish Synagogue, numerous historic sites, airports, parks, concerts, and other places too numerous to mention.

Summer Schedule Board Education

At its regular meeting May 25, the York County Board of Education approved a schedule for summer meetings.

The board normally meets on the second and fourth Mondays of each month at the administration building, 22 Church Street, in Aurora.

Meetings are open to the public at 8 pm.

In order to allow some free time for staff and board holidays, however, the usual schedule will be abandoned.

Meetings will take place on June 7, June 21, July 5, August 16 and August 30, with any additional meetings called at the discretion of the chairman if pressing business crops up that has to be dealt with in public session.

Emily Elizabeth Anderson

94-Year-Old Resident Passes Came To Richmond Hill In 1929

One of Richmond Hill's oldest residents, 94-year-old Mrs. Emily Anderson, 165 Richmond Street, passed away at the Villa Hospital May 23. She had been a resident of this town since 1929.

Born in London, England, Mrs. Anderson came to Canada with her parents, Mr. and Mrs. Edwin Bogzic, at the age of seven and the family settled at Bracondale, now a part of Toronto. There her father operated the general store with its accompanying post office and his daughter often was found lending a helping hand in carrying and delivering the mail. She also was organist for the Zion Methodist Church, which later became St. Clair United Church.

On her marriage to Thomas Henry Anderson in 1901 she

moved to a farm in the Fairbanks area, where she continued to live until coming to Richmond Hill in 1929.

A member of Richmond Hill United Church, she was a valued member of the church organizations.

Predeceased by her husband, Mrs. Anderson is survived by a son, Norman of Willowdale and daughters Irene and Lillian at home.

The funeral service was held Wednesday afternoon at the Marshall Funeral Home, with Rev. Charles Higginson officiating. Interment followed in Richmond Hill Cemetery with four nephews Cliff Anderson, Earl Anderson, Harry Devana, Sid Broadbelt and Norm McLeod and Jack Molyneux serving as pallbearers.

and dollars
You're miles ahead with

Firestone STORES

Why belts?

Why are more and more motorists paying the extra money for belted tires? Because belted tires give longer mileage. There are two special belts designed to hold the tread firmly and prevent side-to-side "squirm". By preventing this scrubbing action, those belts prolong the life of the tread. And they also give you more protection from potholes and other road hazards. Just one more thing about belted tires. It's the construction that makes the belted difference... not the cord material that goes into the belts.

Why Firestone?

Our belted tires have something special; Triple-Strength Construction. So we can give you a really exceptional GUARANTEE FOR THE LIFE OF THE TREAD. No gimmicks. No mileage limit. No time limit.

Allowances are based on the percentage of tread left on the tire. 100% of tread life occurs when the tread is worn down to the "wear bars". (The Federal Government says all tires must have wear bars to show when the tread is no longer safe.)

Your tire will be replaced FREE within the first 20% of tread life if a defect in workmanship or materials means that the tire must be taken off your car. At 25% of wear, you pay one quarter of the replacement price. And so on.

And remember this, 60,000 Firestone Stores and Dealers all over North America stand behind your guarantee. No matter where you buy your Firestone tires.

This outstanding guarantee is a good reason to choose Firestone. The fact that you'll probably never need it is an even better reason.

Why now?

Right now is the right time to replace those worn out tires. Because right now you'll really start piling on the miles.

On hot highways. Busy highways. Deserted sideroads. If a tire fails it can be mighty inconvenient. Or you may not be that lucky. So bring your car in today to Firestone for a free tire safety inspection.

Here's another reason why right now is the right time to put your car on safe new tires. The deals are really SunSational at Firestone. Especially on our Double Belted Strato-Streak. But we've got all kinds of deals on all kinds of tires for all kinds of cars. Right now.

Town of Richmond Hill

TAKE NOTICE that the Council of the Corporation of the Town of Richmond Hill proposes to enact a By-law under the authority of Section 459 of The Municipal Act, R.S.O. 1960, C. 249, to stop up and close up a portion of Muirhead Crescent, being the westerly 1 foot (1') thereof as shown on Registered Plan 349 registered in the Registry Office for the Registry Division of York North.

The Council will hear on the 7th day of June, 1971 in person or by his counsel, solicitor or agent any person who claims that his land will be prejudicially affected by the By-law and who applies to be heard.

William C. Lazenby, Mayor R. Lynett, Clerk

Town of Richmond Hill

NOTICE TO CONTRACTORS

TENDERS FOR ROAD AND STORM SEWER CONSTRUCTION

Sealed Tenders properly marked as to contents will be received by:

Mr. R. Lynett
Town Clerk
Town of Richmond Hill
Municipal Offices
Richmond Hill, Ontario

up to NOON, local time on:

MONDAY, JUNE 14, 1971

for the reconstruction of Yonge Street, Markham Road and Vaughan Street (Stage 3) in the Town of Richmond Hill, Ontario. The work includes grading, granular base, curb and gutter, asphalt paving, retaining walls, storm sewers, sidewalks and watermain.

Plans and Contract Documents may be obtained from the Toronto Office of the Consulting Engineer. A charge of \$25.00 will be made for each set of Plans and Documents, which will be refunded to Contractors submitting bona fide tenders to the Owner and who return Plans and Documents in good condition to the office of the Consulting Engineers within thirty (30) days of the closing of Tenders. Cheques shall be made payable to Proctor & Redfern.

The Tenderer shall submit with his Tender a Bid Bond in an amount equal to ten (10) percent of the amount of the Tender. The lowest or any Tender need not necessarily be accepted.
