know how much you have to spend? This was the question asked repeatedly by members of York Regional Council in a two-day session last week as estimates for 1972 were put forward by the various committees of the region.

Pointing out that assessment figures would not be available until March 15, councillors agreed they could only act on the assumption that assessments and provincial grants would be at about the same level as in 1971.

When the estimates presented by the various worth pointed out, "We have to think of the safety factor. If we grants to agricultural associadepartments for 1972 came to \$24,376,300, an increase of \$6,855,400 over the cost of providing regional services in 1971, a number of councillors urged that the region appeal to the Department of will have to take a cut in income from the farm. It's taken a long time, but the shock that exams really are over has finally registered. What hasn't registered yet is why, if exams are (unbelievably) over, I am still glued to a desk five and a half hours daily instead of enjoying my long awaited Easter

The reason is, I am afraid, heartbreakingly simple. Holidays do not commence until Friday, and exams were finished on March the 10th. Which leaves one agonizing full week interval between the

The receiving of exam results and ultimately report cards during this time, should however, serve to make the week altogether more interesting and enlightening. (?)

It doesn't seem possible either that the inevitable and constant basketball season is now officially 'over'. But as the final results were announced by Teacher Don Flemming, who coached the senior boys, and Teacher Barney Matisko, who coached the junior, it does seem very likely to be so.

The seniors placed a very respectable third and the juniors an almost victorious second. Another "almost victorious" for Richmond Hill was the grade 9 girls' all-day basketball tournament
