Thornhill Beats Owen Sound In Ontario Playdowns

By MARGARET HOUGHTON Thornhill Sports Correspondent (Telephone 889-3073) United 4, Copper Kettle 2

Fifth place United, coached by Vaughan Mc-Lellan beat out Pat Reber's second place Copper Kettle in the greatest upset of the day, when a superb Roddy Featherstone notched a hat-trick and assisted on a fourth goal.

United was down one goal from last week in the two-game total point quarter finals. Copper Kettle went ahead 5-3 in total in the first period. Featherstone scored his second goal to tie the game, but not the series. Featherstone then assisted Leonard Van Hammel to notch the tie. And in the final minute, Featherstone completed his hat trick and won the series.

you never wanted to know about CARPETS but were afraid to ask.

proprietor: HERITAGE CARPETS

Dear Mr. Jacobs: My wife ordered new broadloom for our whole house, which looks very nice. She's very proud of her choice, but I have a problem. She makes me take my shoes off whenever I come into the house. It's

bothersome. What can I do? M.R., Mississauga

Dear M.R.: Many husbands have your problem, and over the years I've come up with some easy solutions. Here's one: Learn to walk on STILTS (it's really not that hard: after a few years, and many bruises you'll catch on!). This way your wife won't be able to accuse you of messing up the carpeting with dirty shoes. Another way that I've found meets with great success: Don't wash your feet! Believe me, after a few months of having feet that haven't seen water, your wife won't let you take your shoes off!!!

Dear Mr. Jacobs: Our dog Fido sheds a lot of hair, and this really messes up our carpet. It seems to pick up gobs and gobs of Fido's daily shedding. What can we do? J.B., Scarborough

It's a proven fact that dogs shed hair because their coats are too abundant for the prevailing temperature in the house. (Huskies up north don't shed 'cause they're always OUTSIDE). There's an easy solution to your problem: You can simply shut off your furnace in the winter. The sub-zero temperature will keep Fido from shedding. Or, you could simply wrap him up in ice packs. This "ice pack" treatment works quite well in the warmer months, though you may have to really stock up on ice because the high temperature melts it quite quickly.
