Glide-Path™ Record Level Controls

- Advanced Features and Styling Make This One the Perfect Add-On!
- Seven Pushbuttons Offer Positive Control of All Tape Functions!
- Precise Hysteresis-Synchronous AC Motor Maintains Exact Speed!

Realistic SCT-5. Record/play features, "playback only" price! Record bias switch lets you select the correct bias adjustment for standard or low-noise cassettes; precise hysteresis-synchronous AC motor locks speed to power line frequency to insure constant tape speed. Special-design "auto-stop" shuts off motor and disengages pinch roller at the end of tape. Realistic-invented GLIDE-PATH™ controls give you visual indication of volume and balance; dual VU meters assure professionally accurate recording levels every time. Two-step rewind lets you locate selections on digital counter or
