**Neighborhood Notes**

Thanksgiving Day has just passed. When I think about it, we should be thankful every day for the wonderful land in which we are so fortunate to live.

In so many, many ways, it is a land of plenty. For the young, there are great opportunities for those who are willing to put forth an effort. For the elderly, we have the pension system, which although not ideal, compares very favorably with other countries and indeed with our own country a few years ago. For the workers, they are financially protected against illness. The ones who are in dire circumstances have also been financially assisted in many ways.

Even in our own community there are many, many contributors to the needy. Their names may never be in the limelight and they prefer it that way.

Our country has had an abundant year. It is living in peace, our youth is not required to take up arms against invaders, nor do we have to be concerned about neighboring aggressors. It seems that our country has the capacity to be on peaceful terms with all countries.

For all these things, I am truly grateful, but as I sit and write, I think that I have not been grateful enough. We are very busy people, we seem to have many commitments, many projects to be undertaken, unconsciously we are showing our gratitude.

However, on Thanksgiving Day, at least, we can say thanks out loud and show our gratitude for all that we have received.

**Church News**

It is my pleasure to again announce the Carrville Turkey Supper which is being held October 24 from 4:30 to 8 pm. Everybody is welcome. The Carrville Church is having a Hallowe'en masquerade party October 27 — so get your sewing machine organized and come out ready to frolic.

Just a reminder—the Carrville UCW will be holding its bazaar November 24, so please pass the word around.

The UCW held its monthly meeting at the home of Mrs. L. Thelma Somerville. Devotions were read by Mrs. Jean Bushell and the refreshments were prepared and served by the capable twosome of Mrs. Ann Walker and Mrs. Eleanor Veitch. Final arrangements were also made for the turkey supper. These ladies are quite particular about their standard of home cooking!

A special mention — Carrville United Church is holding a Communion service this coming Sunday.

**Neighborhood Notes**

Belated birthday greetings go to Mrs. Minetta Ness, who celebrated her 86th September 27.

Mr. Jack Barton had his celebration September 27 and John Barton celebrated September 30. Mr. George Veitch was remembered October 1. Johnny Walker became a year older October 2 and young Ronnie Read became 13 on the 7th.

Belated anniversary greetings go to Mr. and Mrs. Jim Williams, who celebrated their 35th wedding anniversary September 23; and to Mr. and Mrs. Jack Barton who celebrated theirs September 29.

My readers and I send our sincerest best wishes and I trust that you have had a wonderful time and fond memories.

**Water Sewage Roads  
Cable 10 Thursday**

By the year 1980 the southern part of York Region will be wholly dependent on an extension of Metro Toronto's trunk system for essential services. This is the conclusion reached by Regional Planning and Engineering Commissioners Murray Pound and Bob Hodgson in the second program of "The York Region — Planning and You" being aired Thursday evenings on TV 10 (cable).

The need for improvement in water supply and sewage disposal systems is reaching a critical point with the current boom in development, the guests agree. What price Metro hookup?

Do you believe that traffic pressures on Yonge Street should be relieved by developing Bathurst and Bayview as major arteries? Are you disappointed in the recent choice of roads for improvement? Are you aware of how and under whose control a traffic needs study is conducted and just how precisely traffic patterns can be predicted?

If these questions concern you — and they should — tune in to TV 10 Thursday night at 7 pm. The program will be repeated at the top of each hour until midnight. **NEWMARKET:** A bylaw call for the installation of sprinkler systems in new homes, business and industrial buildings has been given approval by council for the second time. The bylaw was approved earlier this year but has been revised.
