Community Life In King City Area

Pub Night
Foamy draft beer flowed like water at the King Valley Ski Centre on the evening of October 12 at the cancer society King Branch held its second annual "Pub Night". As usual, King residents swarmed to the ski chalet, making it a very well attended event. While the music of Pat Riecio on the ground level was just perfect for

Church News
Temperanceville United Church was well filled for the anniversary service October 14. Rev. Arthur Thomson conducted the service, with Rev. Gordon Winch of Toronto, director of the Downtown Distress Centre as guest speaker, and music by the Harmonies of Gornley. The junior choir, under the direction of Mrs. Betty Bolton, sang "Lord, I Want To Be A Christian". The rite of baptism was given Ann Patricia, infant daughter of Mr. and Mrs. John Cinglio of Puccini Drive. At the close of the service, refreshments were served in the schoolroom of the church, when members and visitors enjoyed the fellowship of the day. Wilbert Jennings expressed the congregations thanks to all who participated.

The new building, while not completed, was in use for the first time.

Neighborhood Notes
The King City Lions held a very successful sale on October 13, with the proceeds being well over \$3,000, and they extend their thanks and appreciation to all those who contributed in any way to its success.

We have received a thank you note from Mr. and Mrs. Milton Wells of RR 1, Brunner, in appreciation of the lovely party held for them prior to their move to their new home. They are busy, but finding their new community friendly, with activities they hope to participate in before too long.

Ewart Jennings has erected a new silo on his farm. The buildings on their farm are on the height of land between Lakes Ontario and Simcoe, and this 20x80 foot silo makes a real landmark. Mr. and Mrs. Wilbert Jennings spent a few days last week visiting relatives on the Manitoulin Island.

The response to the sale of tickets to Temperanceville's Annual Turkey Supper has been overwhelming, in spite of the raise in price, and a hearty thank you to you all.

dancing, the rhythm and professionalism of "The Peaches", with Art Snider, on the upper level stole the show. The three "peach" girl vocalists, dressed in their floor length maroon gowns sang a variety of well known old favorites and hit parade songs, giving every age of person a great time. The Peaches, recording stars, recently performed at the new Northbury Hotel in Sudbury and have one of their selections on the current hit parade.

The buffet consisted of tortiere pork pie and green salad, with some very tasty "petit four" iced pastries to accompany your coffee.

While a few husbands of society members worked diligently at the various bar locations, the professional hired bar help spent more time talking amongst themselves or fussing about behind the counter than in serving drinks to guests. The amount of head in the pressurized draft beer containers made it necessary to pour the brew into open pots (or other large containers so that the foam would settle. A very unsatisfactory way of serving beer.

Sponsored and arranged by the cancer society, it was a well organized, socially enjoyable evening and the persons who worked so hard to make it so are to be commended. A special "tip of the hat" to President Shirley Ormsby. The King Township Mayor Margaret Britnell attended.

Girls' Hockey
A ladies ice hockey team has been formed and more girls are needed. They play Monday evenings between 9 and 10. Perhaps you can borrow your son's equipment. For more information call Larry Keffer at 833-5822. Only slightly more sedate is the ladies' figure skating Tuesday afternoons. Linda Jeppeson has more information on this at 833-5022.

Figure Skating
The King City Figure Skat-

ing Club is holding its first fund-raising event of the season, in the form of a theatre night November 8. The play is Theatre Aurora's School for Scandal, directed by Mike Heptinstall. Tickets are adults \$2, students \$1.25, and children 75c. Call 833-5830 or 832-1586.

Hallowe'en Dance
A Hallowe'en Dance is being held by the King Progressive Conservative Association October 26 at the community centre. Tickets are \$5 a couple and dress is optional. Call 833-6808.

York Central Hospital Auxiliary
"Luncheon Is Served" October 30 at All Saint's Anglican Church at 12 noon. Be on time to have a chance to purchase some of the goodies at the bake table. The luncheon is sponsored by the YHCA with door prizes and a lucky draw for an afghan, a painting and pottery. Tickets are \$2 and available from Rene Bamford at 833-6676.

Church News
The Women's Auxiliary of St. Andrew's Presbyterian Church, King City invites one and all to its annual bazaar October 27 in the church auditorium, Keele Street North, a 2 pm. Bargains will be found at all the tables—home baking, candy, handwork, quilts, "White Elephants"—and for the children, there is a fish pond. During the afternoon patrons may also enjoy a "spot of tea".

30 M.P.H. Lake Wilcox Speed Limit 3 - Way Stop Lake Ave. - Given Rd.

Speed limit of 30 mph on North Wilcox Road and Given Road and a three-way stop at Lake Avenue and Given Road have been approved by York Regional Council, Regional Councillor Lois Hancey told Richmond Hill at its October 16 meeting. These changes will have to be ratified by the Ministry of Transportation and Communication before being implemented, Clerk Mack Clement pointed out.

It was also reported that the Ministry has agreed to install traffic signals at the Gormley Road - Yonge Street intersection. It is proposed that advance turn signs will be installed approximately 700 feet in advance of the intersection and supplementary turn signs will be placed at the intersection itself.

Richmond Hill's request to lower the existing speed limit on Bathurst Street between

Elgin Mills Road and the King Road has been denied by York Regional Council, on recommendation of its engineering committee, it was reported.

Councillor William Corcoran was successful in persuading council to approve a request to the Metro Conservation Authority to spend up to \$2,500 on development of the Meadows property on Schomberg Road as a passive park. Mrs. Hancey reminded him that council had requested that a survey of the people in the area be made to see if what they wanted was a passive park. "So far I have not seen one name on a piece of paper to that effect," she said. Mr. Corcoran retorted that he had carried out the survey and that the people wanted a passive park, "But if it's names you want, I'll get them for you tomorrow."

Ontario's Urban Transportation Program:

A choice for everyone.

Something very frightening can happen to cities when they grow up.

They can get out of hand and almost overpower the very people that give them life.

The worst offenders are often transportation systems.

Cars and trucks can become menaces, highways and roads—forming bottlenecks. Subways can jam and buses simply refuse to handle an ever-increasing load.

Local communities have been doing their best to keep ahead of the problems. But new help is available—for now and for the future.

People come first.

That's why the Government of Ontario is encouraging an urban transportation system that will serve Ontario people the way they should be served—efficiently, comfortably, inexpensively, and with the least possible disruption of natural surroundings.

The Ministry of Transportation and Communications has instituted GO A NEW WAY, an urban transportation program to develop modern transit systems in our towns and cities and to support them financially.

New transit vehicles.

Comfortable vehicles and convenient facilities make public transit attractive. So the government is paying 75% of the cost of municipal buses, streetcars, trolley buses and related facilities.

Go Urban.

A new, exciting intermediate-capacity transit system is being developed for large urban municipalities. The system will be fully automated, quiet and emission-free. It is much less costly than subways or expressways, may use existing

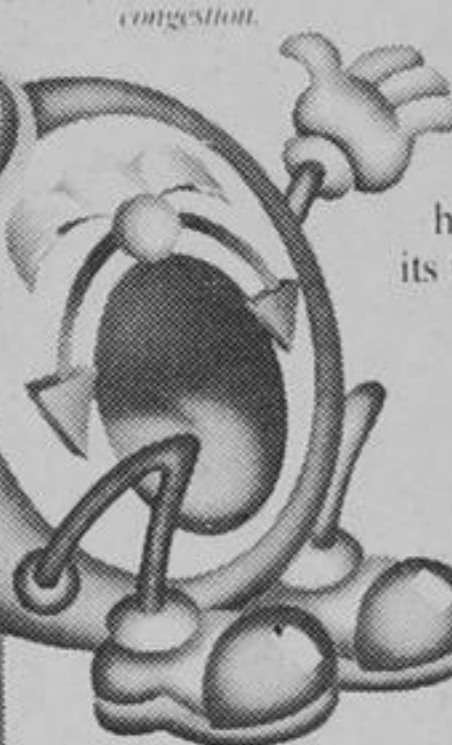

rights-of-way, and its elevated guideways cause little interference with regular pedestrian or vehicle traffic.

Cities will be subsidized to the extent of 75% in applying the GO URBAN system to their needs.

Staggered hours.

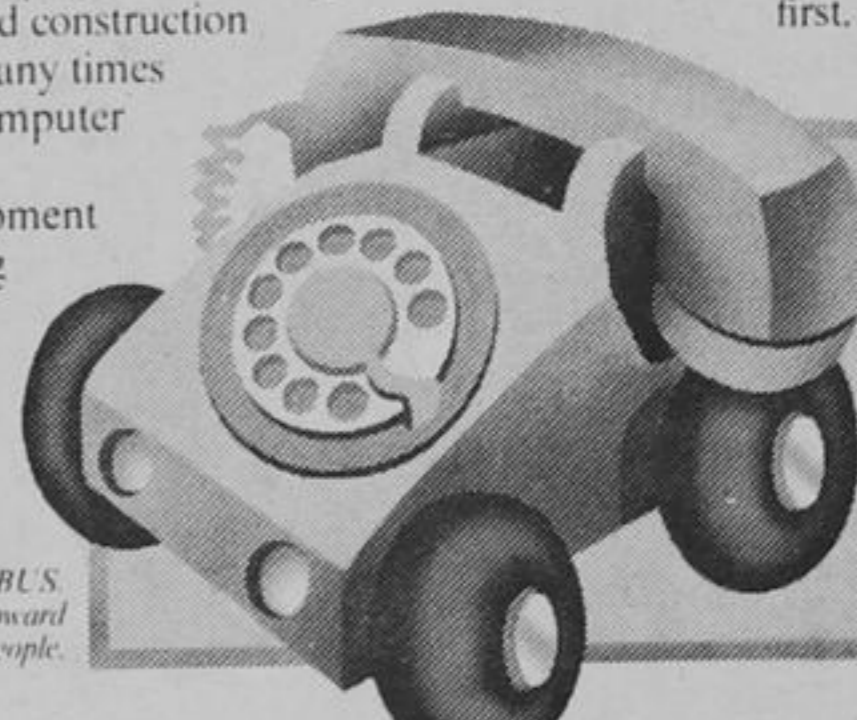

Another way to reduce peak-load congestion is to stagger working hours and alter daily and weekly traffic patterns. If passenger demands can be spread over longer periods, people can be moved more quickly. Feasibility studies will be subsidized up to 75%.

Computer controlled traffic.

In Metro Toronto, a computer controlled traffic system has proved that a substantial increase in road capacity can be achieved with computers. The saving in road construction costs is many times the cost of the necessary computer equipment.

So 50% of the equipment necessary for implementing or expanding computer systems in urban areas and for installing traffic control devices is being underwritten by the government.

Efficient road policies.

Communities can increase road capacity with greater use of one-way streets, restricted delivery hours and modern parking policies. Municipal studies on these subjects are supported financially.

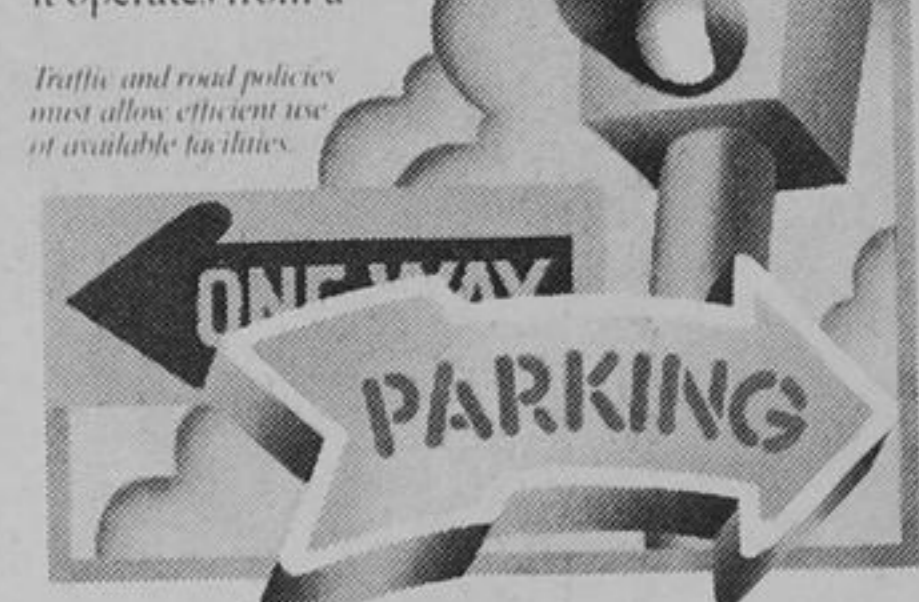

Co-ordination is vital.

Normal transit routes often carry our people across municipal boundaries. Co-operation and co-ordination in inter-community transit planning, therefore, are becoming more and more essential.

Your government has intensified the efforts and resources devoted to the co-ordination of transportation planning.

GO Dial a Bus.

Dial A Bus is a form of public transportation that has been pioneered in Ontario. It does not operate on fixed routes with predetermined stops. Instead, it operates from a

fixed point, such as a mainline transit station, into a limited area, usually residential. Passengers are not required to board and leave the Dial A Bus at bus stops; the bus comes right to their homes when requested to do so.

Dial A Bus is now operating in Pickering, Stratford, Kingston, Ottawa and Bramalea and will be operating soon in north Metro Toronto.

GO A NEW WAY puts people first, all the way. And people have to be involved to make it work.

Resources, research and finances are available to help urban municipalities in Ontario build transportation systems that will surpass anything else in existence today. And prove that cities really are for people.

The American Motors Buyer Protection Plan.

It gives you the time or the distance to put us to the test.

We figure that when you buy a new car you're entitled to a promise of quality in language you can understand. So when you buy a new 1974 Gremlin, Hornet, Javelin, Matador, or Ambassador, there's a special item of standard equipment on every car, the American Motors Buyer Protection Plan. It comes with a straightforward new car Guarantee.

It means that when you buy a new 1974 AMC car from an American Motors Dealer, American Motors guarantees, except for tires, to have repaired or replaced any part it supplies that's defective. And this Guarantee is good for 12,000 miles or one entire year from the date the car is first used, whichever comes first. See your American Motors Dealer for full particulars.

So really what you get is a new car with the time or the distance to put us to the test.

American Motors

We back them better because we build them better. See your local American Motors Dealer now.
