CNE Coliseum Dec. 10

Hill Track And Field Ready For Indoor Season

The Richmond Hill Athletic Club will be represented in the indoor track and field training program which will begin December 10 at the CNE Coliseum in Toronto.

Fears had originally been expressed that the indoor track would be available only to the clubs who are situated in the new Central Region.

Since the contract for the leasing of the facilities with the CNE is made with the Ontario Track and Field Council, and since the track itself was donated by the province, such fears should not be entertained.

Richmond Hill AC will be involved in the installation of the Gezon Euroflex Track, and the high jump and long jump areas on December 3.

In order to reduce costs all clubs in the Toronto area supply members for track installation. It is through such co-operative efforts that the indoor facilities have been operative for the past two years.

2 CNE NIGHTS
 At present, it is the intention of the local club to participate two night a week at the CNE. One evening will involve the girl athletes and one evening the boys.

Most pressing problem will be the transportation of all the local athletes who have acknowledged their intentions to compete this winter.

Assistance in this area is most necessary or the number of participants will have to be restricted to those who show the most potential. A move which the RHAC is not eager to institute.

Rates for indoor track this year will remain the same, \$5 per athlete for the period from December 10 to the end of April, 1974.

Although the indoor rates remained stable the same cannot be true for the registration of all athletes in 1974.

NEW FEE SCALE
 A new scale of fees was approved for clubs and members for 1974, with clubs to pay \$50 for affiliation fees, and the individual athletes to pay, bantams, \$5, midgets \$5, juveniles \$8, juniors \$8, seniors \$8, officials, coaches and executives \$5.

These fees will register all individuals to compete in sanctioned meets in 1974, as well as the twilight and club meets, which will commence in January 1974 at the indoor facilities.

Other news, all good, has the Ontario Track and Field Association applying for rezoning of the province into six zones instead of the three presently operating.

The six zone arrangement may place Richmond Hill just outside the central, or Metro area, and will provide

local athletes with the best of two worlds.

To qualify for the Ontario championships local members will have to qualify at the zone meet which will exclude Metro athletes and will give the Richmond Hill club the advantage of an extra competition before competing in the higher competitive areas of Toronto.

During the regular season local athletes will still be able to compete in Toronto at club and local meets thereby gaining good experience for championship bouts.

CHANGE FOR GIRLS
 Other news which is to the advantage of local athletes is the intention to eliminate the category of junior girls, ages 18 and 19, and include them in the senior category.

In the past, all girls 15 to 19 years have competed as junior and the development of the younger athletes was severely hampered by the intense competition by the 19-year-old athletes.

Now, the older girls are to compete in open competition which will provide better development and leave the juvenile girls with a division of their own.

In 1974, all girls 16 and 17 years of age will compete in the juvenile events and all juniors events will be eliminated.

2 SENIOR TIERS
 The advancement of junior athletes to senior competitions has prompted a two-tier system for senior athletes. Senior National for athletes who qualify for the Canadian championship, and Provincial Senior for all other athletes.

Meets and events will be arranged for those categories to maintain the continued development of the younger athletes without over-matching them with our national representatives.

All members in the Richmond Hill area are requested to contact Robert Q. Thompson, or Bill Alexander, for registration for the indoor season.

STRONG IN JUVENILE
 A strong team is expected to register, with a healthy Dianne Diggins pairing with newcomer Liz Srebrnjak, to lead the way in the new juvenile aged category.

Leslie Rogers, as a midget, is acknowledged as one of the top high jump contestants, and Marnie Buckles should develop, in her last year, as a Midget 400 Metre

runner.

The junior ranks will be ably represented by Shot Putter Bill Milley, and runners Bruce Cook, Mike Bells, and Ian Dawson. It is hoped that both Sue Stephenson, and Greg Binkley, currently studying at the University of Toronto, will be available for the indoor season.

If these two athletes do compete the junior team for 1974 rates extremely strong regardless of the competition.

Officials of the clubs are anxiously awaiting the December 10 opening of training facilities in Toronto.

The Richmond Hill Athletic Club is a non-profit organization, promoting track and field in the Richmond Hill area through co-operation with local school organizations and the Ontario Track and Field Council.

Information is available from Secretary Bill Alexander, at 226-1732, or Bob Thompson at 884-4100.

Hydro Opposes Plan To Place Corridor Across Thornhill

Ontario Hydro last week came out against the proposal to put Southern Ontario's major new power corridor through Woodbridge, Thornhill and Markham along the Parkway Belt.

The new line around Metro and Hamilton would connect Lake Erie and Lake Ontario power stations at Nanticoke and Pickering.

Hydro said in a brief to the province's Solandt Commission inquiry into the route, that choosing the suggested Parkway Belt right-of-way for the three rows of 140-foot-high hydro towers and two lower lines along side, could mean unacceptable delay in building the 144-mile line. Hydro many months ago was already embarked upon building along a route across the then King and Whitchurch Townships between Aurora and Newmarket.

Bruce Howlett, a U.S. environmental consultant hired by the Solandt Commission, has proposed the power line be built mostly in the province's designated Parkway Belt which stretches from Hamilton to Pickering. It is designed to contain the future Highway 407 and 403 freeways, as well as recreation space.

Before the Cabinet stopped Hydro's construction of the line north of Aurora, Hydro warned the delay would mean power shortages would be experienced here.

Chief's Son Gets Diploma From Dad

York Regional Police Chief Bruce Crawford's son is following in his father's footsteps.

Last week, Christian Crawford was one of 139 men promoted from cadet to third class constable in the largest graduation ceremony in Metro Police history.

Constable Crawford was also one of five men who received their Ontario Police College diplomas from their police officer fathers.
