he swung and missed. Strike two. He turned around, looked at me again and said 'That's okay ump, we've both missed one now!"

GOOD PHILOSOPHY

Skip also trots out a good philosophy on be- Oshawa. ing an umpire as originally expounded by Max Schefsky who called balls and strikes for years in the Beaches.

"Maxie always claimed that umpires don't make mistakes although they do error once in awhile."

Skip doesn't get much chance to make any he threw a one hitter over make it 8-6. Moreland and errors himself these days because he's too busy along with co-ordinator John Shier in making the minor ball set-up work as regards umpires.

"We are involved with something like 18 games a week with the town representative teams, seven nights a week. It's a lot of work. That's why we need bodies."

The whole umpiring situation has seen some changes in Richmond Hill this season as opposed to last year.

"This year the Richmond Hill Umpire's Association looks after the town representative teams as well as the industrial and women's leagues," said DeGeer.

This takes the load off Alf Fry who is in charge of the house league umpires who in other years had to jump back and forth. Co-ordination is the idea of it all.

The Richmond Hill Umpire Association, under the presidency of Angus Philip, is working in closer liaison with the Richmond Hill Ball Association this season. It makes it all a lot easier. Just take my word for it.

The real need for umpires right now is in the house league where any aspiring umpire can cut his teeth with the wee ones.

"An umpire in the house leagues is mainly out there to maintain order," comments Glen Philip, president of the Richmond Hill Ball Association. "We're not lacking so much for quality here as we are for quantity."

Glen feels that umpiring would be ideal for italized on loose Lion play youngsters of Midget age not planning to go on playing ball. He could get into the umpiring end of it all.

Which is the idea of all this word-talk. If you're interested, give Skip a call at 884-6094, or
