Church Vacation School

The July session of the Thornhill Church Vacation School terminated July 12 until August 19 when it will resume again for another five days.

Director for the first session Mrs. Ruth Boothby at Christ the King Lutheran Church in Thornhill commented on the fact that it was a great success with the enrollment of approximately 70 children remaining at a constant. Other years, she said, the attendance fluctuated considerably with some children turning up one day, and others another.

The volunteers consisted of 22 adults and teenagers who partook in the whole affair vigorously. There are five different levels in the course — nursery, kindergarten, grades 1 and 2, grades 3 and 4, and grades 5 and 6, with a few 12 and 13-year-olds joining in.

There is no registration fee and no obligation to pay anything at any time. However, a letter is sent around to parents, giving a general outline of the course and requesting a small offering of some sort. There was a very good response from the parents with, however, the Thornhill Ministerial Association subsidizing most of the program.

A more modern and more expressive approach is being taken, unlike the traditional Sunday school format, with individual's participation as an important factor. This year being the eighth year for the Vacation School, there were more musical aspects added to the course along with the usual participation in arts and crafts. Incorporated into all aspects of the program at each level is, of course, the biblical theme with the children using various media in which to express themselves, to learn the stories of the Bible, and the moral significance behind each.

The text and last session begins August 19 to the 23rd from 8:30 am to 11:30 am at Thornhill United with Miss Betty McColgan as director.

Bug us for an autograph.

It's free of our showroom. A full-color, autographed poster of one of Hollywood's biggest stars, Herbie, The Love Bug. The romantic lead in Walt Disney Studio's new motion picture, "Herbie Rides Again". Who ever imagined when the Beetle made its Canadian debut back in 1952 that it would someday light up the silver screen? Surely not the critics. "Ugly," they sneered. "What a peculiar nose," they chortled. "The engine's in the trunk," they mocked. But over 450,000 Beetles later, the doubters stand corrected. After all, who can pan a car that goes so far on a gallon of gas. Has so high a resale value. And that now, wonder of wonders, is a matinee idol. It certainly is a moving picture.
