THE QUESTIONS OF OUR TIMES
It is a complex world becoming more complex all the time. It is the age of the expert - the person who has made a specialty of a particular field. It is the age of the consultant.
Is this a good time to buy a new house? Or a better one? Or would an addition be an advisable move?
What is the real worth of your present home? If you're just married, should you buy or rent? What about an apartment?
If you have cash, how should you best invest it? What is good and bad about buying income property? Where will you get your greatest return?
Can you turn your present property into an income producer? How? Would your tax rate be affected?
How can you refinance economically?
If you are an owner considering renting, what about leases? For how long? What clauses are necessary?
Who knows the answers? A competent Realtor. It's his only business. He likes questions and he doesn't charge for information. Ask him.
See you next week.
