**Clears Up Intent**

**Witchurch Dump**

Minister of the Environment William Newman, in a letter dated August 8, replied to a July 25 newspaper article in which Witchurch-Stouffville Mayor Gordon Ratcliffe was reported as saying he was unclear as to the intention of the Ministry regarding the application by York Sanitation to expand its present landfilling operations in that municipality.

The letter, addressed to the mayor, stated, "We are in receipt of an application by the company, forwarded to our regional offices on June 14, which is requesting approval for an extension to the present landfilling area within the original 185-acre site. This is to permit a daily rate of 800 tons to be placed at the site. In view of the magnitude of the increase, a hearing under Section 31 of the Environmental Protection Act is required."

"I am advised that the usual initial review has been substantially completed - by staff and it is intended to proceed within the next mental Hearing Board to instruct the Environment to initiate the hearing as soon as possible."

The Minister also promised that the application will be reviewed carefully to ensure that the concerns expressed by Mayor Ratcliffe have been properly dealt with. The mayor was particularly concerned about contamination of the ground water aquifer from which Stouffville draws its water supply.
