Fall has arrived, or so it seems this chilly Friday morning as I write this. I do hope the weatherman was wrong this morning about the weekend for all of you who want to have a last good time at the cottage. We have finished our back to school shopping and have the children ready for school. That was easier this year with all the stores close by and specials everywhere.

Mr. and Mrs. John Hawkshaw, my dad and mother who are in their eighties, drove up from Cornwall this week to spend a few days here and at my brothers in Tottenham and Brampton.

Mr. and Mrs. Ken Howes of Montreal spent this week with their son and his wife, Denis and Nicole Howes on Brightway Crescent.

**Church News**  
Carrville Road United will have service Sunday after having been closed for the summer. Rev. Stan Snowden will preside at 9:45 a.m. The first fall meeting of the UCUW will be on September 10 at 8 p.m. at the home of Mrs. Mary Read on Albion Road.

The United Pentecostal holds service at 2 p.m. on Sundays in the Masonic Hall on Keele Street in Maple. Anyone wishing more information should call Alton Dudley at 767-7973.

**Seneca King Campus Gets A Face - Lift**

An overall plan to develop all the necessary basic services as well as to provide for increasing enrolments has resulted in a number of changes at Seneca's King Campus.

Installation of a complete sewage and water system to serve all parts of the 606-acre campus will have the greatest long-term effects. This system, including a modern lagoon method of sewage treatment, will allow Seneca King to grow in step with the needs of the people of York Region.

Renovations to parts of Eaton Hall have been started. Although these improvements will provide greater classroom space this fall, the pressure of both full and part-time registrations has meant the college will make use of additional portables for the time being.

Portables will be used to supplement general classroom space as well as provide additional studio space for the Visual Arts Centre and a lounge and light food service for students at the south end of the campus.

ALCONA: Plans for a day care centre in the old schoolhouse here are proceeding. The next step is to apply for government grant (100% towards the cost of renovating an old building).
