Curb On Election Signs

Anticipating the municipal elections in Demember, the Borough of York has passed a bylaw prohibiting posting of election signs on public property. The exception will be two or three large signs to be erected in each ward listing, in alphabetical order, the candidates for the ward. Cost of the signs will come out of public funds.

There is merit in this plan. It will help to cut down the forest of signs that inevitably crop up like mushrooms on every street and byway and vacant lot in mad profusion (and confusion). It will also cut back on the personal costs incurred by those seeking election.

We are pleased to see that the borough is not outlawing election signs on private property, however, as has been proposed by some politicians in municipalities in the Region of York. Individuals should have the right to give public support to the candidate, or candidates, of their choice and put signs on their own front lawns if they so desire.

Candidates, too, should have the right to such public pronouncement of their intention to seek office as councillor, mayor, school trustee or whatever. (In Metro they have controllers and aldermen. In York Region we have municipal and regional councillors.)

Since municipal elections are poorly supported at the best of times — a turnout of one-third of the eligible voters is about par for the course — every encouragement should be given to those who are willing to put their names before the public, to seek an opportunity to serve their community as elected representatives. It is a demanding and often thankless task, and even to stand for election can be a costly business. Cutting down on that cost is a step in the right direction and will hopefully encourage more public-minded citizens to come forward.

The biggest item on the candidate's budget is usually the cost of informing the public that he is standing for election and why. Restriction on the number of signs that may be posted on public property will serve as a bit of an equalizer, giving the man with a low budget a better chance in competing against the man with the unlimited budget. It will also help to eliminate much of the litter that we have become resigned to when an election is pending.

Municipal elections, by the way, will take place throughout the region on December 2, and nominations must be in no later than November 12. Municipalities will be making official pronouncements on specific nomination dates in the near future.

Family Gardening

A large field divided into small plots on which are luxuriant growths of all kinds of vegetables, occupied by family groups hoeing, cultivating, weeding, hilling and harvesting — this is becoming a familiar sight around large metropolitan centres on this continent. The families who are enjoying the muscle-stretching exercise, getting their hands into the earth and relishing the unmatchable flavor of vegetables harvested fresh from their own gardens, come mostly from high-rise apartment build-

The garden plots not only give

these people a chance to work with the soil and a chance to be outside in the sunshine doing something productive but are a budget help in feeding families and provide a new hobby as well.

These gardens, reminiscent of the "victory gardens" of two World Wars, may well lead some families to victory over inflation - if the cost of food continues to skyrocket. They may also lessen the psychological impact of apartment living on families as they work together to produce their food, just as their forefathers did.

ROCK TALK

His live performances, guitar breaks (by ex-mem- go down again." somewhat dynamic - while to others revolting, displayed an unstoppable, twisted person, bellowing out vocals with brute-power. This is nothing short of spectacular. While most of Cocker's material is written by others (including the likes of Bob Dylan, Randy Newman, Gregg Allman, Leonard Cohen and John Lennon-Paul McCartney), it has earned Joe the reputation of being one of the best interpretive singers to ever come along in rock music.

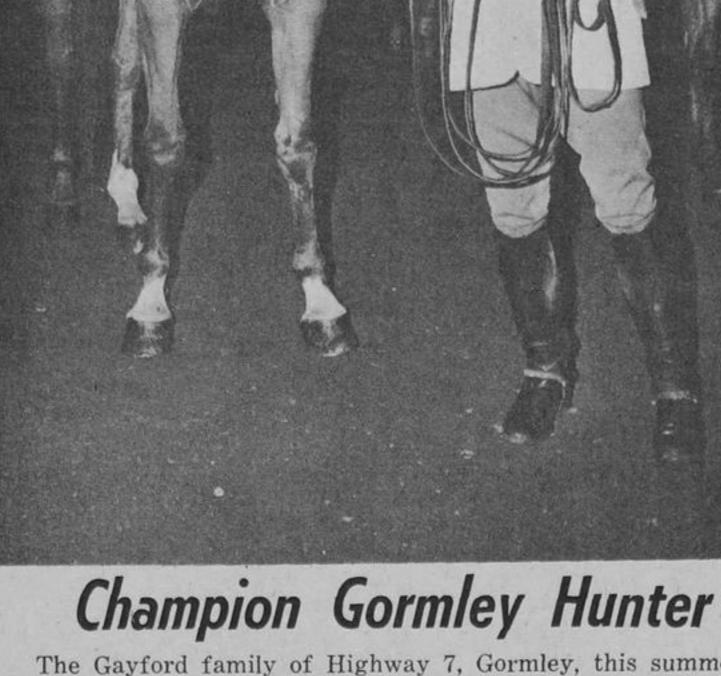

To understand Cocker's music, one has to understand Cocker himself, (noted for his prolonged periods of disillusionment), who isn't singing with a harmonious voice, but with guts, passion and raging intensity. I, for one, can't get into all of Cocker's music, for some of it is just too demanding, and in some cases, frightening, for my liking. But even so, I can't help but admire this human being, who, along with his sincerity, is able to put so much of his personal anguish and passion into music.

This can all be seen, to

The Gayford family of Highway 7, Gormley, this summer at the shows found they had a real winner in Likely Story, a four-year-old hunter acquired from Vern Mason of Sunnybrook Riding Stables, Yonge Street, Richmond Hill. Shown by the youngsters of the family in local events this horse gathered a lot of ribbons, including top placing in

seven classes at Sutton and in four classes at Richmond Hill. This is the first year Likely Story has been shown.

Veteran horseman Tom Gayford of Gayland Farm, a retired member of the Canadian international team, took Likely Story into competition at the CNE and came out on top even against the older horses. Likely Story is this year's CNE Green Conformation Hunter Stake champion and also won on total points in five open classes against older experienced horses. Competition was keen against 25 entries from an area ranging between London and Montreal.

Music, Crafts Highlight Gibson House Festival

Among the pioneer arts and crafts being revived and gaining in popularity are those of the kitchen. Remember the sweet scent of jams and marmalades, the pungent aroma of pickles and chili sauce wafting from the kitchen into the autumn air?

At Willowdale's historic Gibson House the staff is not only preparing for a fall session of craft classes. It is also currently displaying pioneer cruets, demonstrating the homely art of pickling and preserving, and handing out recipes for the home cook.

When the pickle patch was an important part of the pioneer garden, pickles were honored by serving them in elabborate containers, and Bick's Pickles have collected 84 Canadiana cruets, each different in size, shape, color, design and type of glass, reflecting the fine craftsmanship and artistry of

* * * From mid-August to October some 30 of these cruets are on

display at Gibson House, 5172 Yonge Street, behind Willowdale Post Office. At the same time expert cooks in pioneer costume are cooking and selling some of the goodies made from the century-old recipes which they are also passing out to visitors.

With fruits and vegetables ripening in profusion in many a home garden and selling fresh from the field at roadside stands this is the time to take advantage of the opportunity to try out some of these recipes for yourself - spiced currants, marmalade, chili sauce, green tomato pickles, bread and butter pickles, bean pickles.

House, which is open from 9:30 am to 5 pm Monday to Saturday and noon to 5 pm Sunday you may register for craft classes to start September 30. Many of the crafts in the program will be demonstrated from 1 to 5 pm Sunday at the Gibson House Craft Festival. Other activities that day will

And while visiting Gibson

include apple butter making, taffy pulling, blacksmithing, Highland and Scottish dancing and 19th Century folk music.

Craft demonstrations will include china painting, spinning and dyeing, crewel work and embroidery, chair caning and rushing, rug hooking, doll making, decoupage, macrame, needlepoint, pillow craft, and stencilling. Admission at any time is 50c for adults, 25c for children.

For those who would like to try them, here are a couple of the recipes being distributed this month at Gibson House: CHILI SAUCE 8 quarts tomatoes

3 cups green pepper 2 cups onions 3 cups sugar 1 cup salt

11/2 quarts vinegar 3 teaspoons cloves 3 teaspoons cinnamon

2 teaspoons each of ginger and nutmeg Chop tomatoes, peppers and onions very fine; add spices,

sugar, salt and vinegar. Bottle in sterilized containers.

BREAD AND BUTTER PICKLES

1/4 cup mustard seed

1 pint water

6 quarts sliced cucumbers 4 sliced sweet green peppers 12 sliced onions 1/2 cup salt 2 quarts vinegar 8 cups white sugar

2 teaspoons tumeric Put salt over sliced cucumber, peppers and onions. Let stand three hours. Drain off liquid. In large pot mix vinegar,

sugar, mustard seed, water and tumeric. Add drained vegetables and let come to boiling point. Bottle in sterilized containers and seal tightly.

To see how it is done, visit the Gibson House. And to enquire about times and schedules for craft classes, register while you are at the craft festival or telephone 225-0146.
