

Probe plane crash

Carbon monoxide kills pair in car

York Regional Police are investigating an incident at Jackson's Point, in which two young people died from carbon monoxide poisoning, plus an airplane accident at Maple which sent two people to hospital with injuries.

The double fatality occurred sometime in the early morning of February 22 on River Road in Jackson's Point. It involved Robert Irvine, 18, 534 Osbourne Street, Roches Point, and Nancy Anne McCarrall, 17, of George Road, R. R. 2, Sutton West.

Exhaust twisted Police said the two had become stuck in the snow in their 1967 model car and had left the motor running.

However, the opening of the tail pipe was twisted up against the rear bumper as the result of an occurrence some time ago.

The exhaust fumes were then directed from the bumper through the trunk and into the car's interior, thus asphyxiating the two occupants.

The plane accident occurred about 12:50 pm, February 21 at Maple Airport.

Police said the aircraft developed engine trouble while approaching runway 23 and nosed into a bush area at the south edge of the runway.

Vaughan Fire Department was called, but the plane did not catch fire.

In satisfactory condition at York Central Hospital are Gordon Thomas, 42, of Downsview, and Tony Grimby, 24, of Scarborough.

Another passenger, Wayne Hodgins, 26, of Pickering, was in satisfactory condition at Toronto General Hospital.

The three-seater Oster was piloted by Mr. Thomas.

Whitchurch garbage problem

Late last year the Town of Whitchurch-Stouffville passed an anti-dumping bylaw in an effort to close the controversial York Sanitation Limited landfill site on Highway 48. It takes effect April 1.

The town maintains dumping operations on the York Sanitation site area endangering area water supplies.

York Sanitation has applied to the Ontario Environmental Hearing Board for permission to expand the Highway 48 site. The hearing began last fall and will resume March 4.

Meanwhile the town has called for tenders for garbage pickup and disposal and has been located for another dump site.

Tests are underway on about 50 acres the town may buy for a municipal dump and so far they have been quite favorable. Mayor Gordon Ratcliff reports.

The property would need a provisional certificate as a dump from the ministry of the environment and that certificate may not be available by April 1, he said.

"We'll be able to get rid of our garbage," he assured residents. "You don't have to worry."

STOUFFVILLE: Test wells are now being drilled on the 0th line to try to locate an additional water supply for this community.

The drilling is being done by International Water Supply. Estimated cost of acquiring the property (on the future site of the Dulverton Subdivision) and digging the well is \$150,000.
