Poaching A Chicken

Most "leftover" chicken dishes taste better if they are made from poached chicken. If you have leftover roasted, broiled or fried chicken choose a leftover dish with a sauce or broth base.

Poaching chicken is easy. Simmer in water in a covered pot with a stalk of celery, an onion and a little salt until tender. Strain the broth and reserve it. Cut the chicken meat from the bones in generous slices. Any unused portion of the poached chicken may be stored in an air-tight container in the refrigerator or freezer for later use.
