Big Brother of Year

Gib Smith was named region Big Brother of the Year at a Big Brothers of York presentation recently at Aurora Highlands Golf Club. He is pictured here with Dean Carlson, 10, of Aurora. They have been paired as brothers in the organization for four years.

OHAP decision stalled

NEWMARKET — Approval of an Ontario housing action program (OHAP) agreement for the Thornhill-Vaughan community plan was deferred last week by York regional planning committee.

The plan is based on a 60,000 population projection. Committee chairman Bob Forhan of Newmarket said the plan should be before the committee first, so decisions on other agreements could then be made.

However, David Strachan, executive co-ordinator of OHAP, said the agreement was intended to speed up the plan. He said he was surprised and disappointed it would be delayed. "After having made considerable

effort to get the agreement through Vaughan Council, we wouldn't want it stopped here at the region," he said.

Strachan said an appeal would be made to the whole council committee not to approve the committee's recommendation.

The agreement must be signed by the region, the province and Vaughan, but doesn't represent a commitment, unless approved by OHAP, Strachan said.

The agreement calls for the ministry of housing to expedite subdivision approvals, as well as install necessary services and make road improvements.

Strachan said the ministry had been led to think council would approve the agreement.
