Mystery ever solved?

Dear editor:
Your article in Wednesday's paper 'Murder mysteries still baffle' refers to two still unsolved murder cases of young girls.

Fine article on charism

Dear editor:
I would like to express my thanks and appreciation to Rev. Dr. John Barclay Burns of Thornhill Presbyterian Church for his excellent article on the Charismatic Movement.

It is heartening to hear a Christian minister speaking out firmly and clearly against such absolute nonsense that is quite capable of destroying the Christian church.

Block parents glad of help

Dear editor:
The Richmond Hill block parents committee greatly appreciates the recent financial support received from town council and the Richmond Heights Shopping Centre Association.

This help toward covering the cost of signs and other expenses has opened the way for our children's protection program in this area.

Many residents in this area were deeply and emotionally involved in the disappearance of eight-year-old Cheryl Hanson of Bloomington Sideroad two years ago.

If that case has ever been solved, many people missed out on the result.

Would you please shed some light on the outcome of this for all of us who missed it (again)?

ELLEN BELLACH,
147 Elgin Mills Rd.,
Richmond Hill, Ont.

(The Cheryl Hanson case hasn't been solved. On the second anniversary of her disappearance The Liberal published May 26 in the Richmond Hill Edition a lengthy progress report on the investigation. Copies of that edition may still be purchased at the circulation department. — Editor).

ARUBA
Aruba, the little Dutch island off the coast of Venezuela, is now vying to become one of the most popular vacation spots in the Caribbean. She has decked herself out with over \$20 million worth of hotels with pools, casinos and freerport shopping arcades. First came the Aruba Caribbean, then the Aruba Sheraton, the Holiday Inn and Divi-Divi Beach Hotel.

Aruba's airport now has a 9,000-foot jet runway and a \$3 million terminal with a sweeping sea-shell design allowing direct jet flights from New York and Miami. Also, many cruise ships call at Aruba. The climate is considered the finest in the Caribbean.

Days are warm and nights are cool. And if you suffer from hay-fever, Aruba is pollen-free.

Your first explorations will be on foot in the miniature capital of Oranjestad with its picture-book deep-water harbor and its traditional Dutch houses. Take your camera to record the fishing boats and native markets at the waterfront. You can drive the full length of the island along the coast. It's just 20 miles long from tip to tip.
