# GYPSUM WALLBOARD

Gypsum wallboard is a strong board with a fireproof gypsum core. It is finished with a heavy manila paper on the face side and a strong liner paper on the back side. The square edges are tapered on the face side in order to form a shallow channel for the joint reinforcement, thus providing smooth continuous wall and ceiling surfaces. 4' x 8' sheets are C.M.H.C. approved.

**FRANKLIN FIREPLACE**

The Franklin is an enchanting beauty that enhances the decor of any room. With the doors open, you have a bright and cheerful fireplace. With the doors closed, heating efficiency improves considerably; the heavy cast iron frame then retains the heat and gently radiates it into the room. The Franklin uses wood, coal or charcoal and features functional damper control. Chimney is not included.
