Markham Public Libraries

The most important time of all to save electricity.

The demand for electricity in Ontario reaches its peak early in the evening on cold winter weekdays. Between 4 and 7, everyone's asking for electricity. Many factories, stores and offices are still open. Street lights are on. The kids are home from school, parents home from work, evening meals are being prepared. And the heating system has to work harder. It all adds up. Demands for electricity have been increasing at a pace that can no longer be met. The rate of growth must be reduced. You can help by avoiding the big jobs like baking, washing and drying between 4 and 7. Make sure that unused lights, TVs and appliances are off. Take it easy on the hot water. Please do all you can to save electricity.

ontario hydro

Conserve energy. The future depends on it.
