NEW JOBS FROM COMMUNITY PROJECTS. THINK ABOUT IT.

Canada Works

Young Canada Works

Canada Works is a new job creation program that will be launched in January.

This new year-round program is designed to get needed work done by people not employed in the private sector.

Canada Works will accept applications from groups and organizations including private businesses who wish to develop, sponsor and administer worthwhile community projects. Funds will mainly be allocated to areas of high unemployment and projects will be tailored to special employment needs of your local community.

Canada Works will generate employment for more than 60,000 Canadians who are presently unemployed. Applications will be considered twice a year—in Winter and Summer.

Think about your projects now! Early in the new year, your local Canada Manpower Centre will have application forms and a Canada Works "Guide to Applicants," with full details on the program. Canada Works for your community. Make your worthwhile projects work next year!

A second program is for students. Young Canada Works will create jobs for more than 20,000 students next summer. The emphasis will be on projects of solid community value. It has many of the same features as the year-round program, except projects will be limited to 14 weeks during the summer months.

At the same time, Young Canada Works will enable students to gain valuable work experience and test their career aspirations.

Like Canada Works, your Canada Manpower Centre will have application forms and a Young Canada Works "Guide to Applicants" early in the new year.

So, think about what your organization would like to do for students. Young Canada Works for students in your community.
