VAUGHAN HYDRO 1977 RATES FOR ELECTRICITY

Our cost for electricity has increased by 29.5% at January 1st, 1977. This increase, which is a cost pass-through in accordance with Anti-Inflation Board guidelines, is reflected in higher rates to our customers for usage after January 1st, 1977, as set forth below. Because increased costs are largely a reflection of higher costs for generator fuels, the major impact will be on the largest users. Bills to our customers will be calculated on a proportionate basis so that energy used before January 1, 1977 will be billed at the 1976 rate schedule, and energy used after January 1, 1977 will be billed at the new rate schedule.

Niagara said: Pink or blue?

Last month, Leigh Neille received an eight pound, three ounce baby boy, dozens of best wishes and a husband with a non-stop smile. What she needed was a nursery. Niagara thought so too. That's because Niagara knows a lot about people's needs. We also know a lot about money. That's our business at Niagara. Money for money, money for a new car, money for home improvements, for your child's education, or, if you're like Leigh Neille, money to welcome the newest member of your family. If what stands between you and what you really need is a thing called money, come in and sit down with the people you've come to know at Niagara. We know that one way to fulfill a need is to put money into action.
