**Duel in the sun?**

Some hectic action here in Richmond Hill Minor Soccer as Joe Cado (7) of Flair's Upholstery has a duel with David Ezechiels of Peter's Excavating. It looks like a saw-

off here but Flair won the game by 5-3. The same Cado scored two goals, Ezechiel's one.

# The first choice fuel

## 8 out of 10 new homes in the Metro Toronto area are heated by Natural Gas

Builders have a choice of heating systems. For their money, Natural Gas is the first choice. Why? Because it's modern, efficient, dependable, economical and available. Home builders like these features because home buyers like these features.

Natural Gas makes sense and saves dollars - for new homes, and for your home too. If your present heating system is showing its years, as is the case with most houses built before 1960, you should consider taking advantage of modern, efficient heating by Natural Gas. It can be as easy as installing a Power Gas Burner to your present heating system on a rental basis from the Gas Company for as little as \$3.75 a month. Or you might consider getting a completely new furnace and spread the payments over ten years. Modern equipment is energy-efficient - saves your money as well as saving energy.

Natural Gas - efficient, warm, clean, dependable, available.
