Students see the changes

By JANET ROBBINS

R.H.H.S. opened its doors for another year on September 6. Welcome to newcomers and past students.

There have been several changes at R.H.H.S. over the summer, not the least of which can be seen in the school clean and shining, but construction is going on. Two stairways and being altered. Although the work is not yet completed, the finished work will be well worth it.

For the informed there are literally thousands of opportunities to buy hunting, fishing, home, investment and farm properties. These often sell for little more than the taxes owed, which is generally in the \$50 to \$500 range. Of course the properties are worth far more. Our service provides the lists as they become available along with complete purchase details. Cost for one year subscription is \$12 payable to:

ISLAND OF DELIGHT

A skier listening to an international radio report wouldn't be surprised to hear... "Ski conditions in Switzerland are excellent and good in Colorado." But he might blurt it if he heard this: "...There's good powder and fast runs in the South Pacific!" Skiing in the South Pacific? Of course that area is rather large, and the announcer would do some pinpointing. He'd give the exact location of all that great white stuff. Where is it? New Zealand, with skiing in both North and South Islands! But that's just one aspect of this amazing country that's loaded with international characteristics. Fjords, glaciers, geysers, hot springs, boil-

ing mud, tropical and pine forests, icy lakes — all this and more can be found in the two islands. Christchurch has an English flavor while the skirl of Scottish bagpipes can be heard in Dunedin. And yet there's much of New Zealand that's unique to itself. The famous Kiwi bird is one of them. Talk to us about a visit to unbelievable, unforgettable New Zealand!

Let us show you the world! See you next week.
